PARK'S FLORAL GUIDE

1904

Hang This Guide Up.

It tells about Selecting and Sowing Seeds.
It gives time required by seeds to Germinate.
It treats on Culture, Pests, Diseases, Remedies.

Bed of Park's Star Flower, from a Photograph sent by C. R. Savage, of Salt Lake, Utah, who writes.

Dear Mr. Park:—I send you a stereoscopic view of a group of Star Flowers from seeds bought of you. My wife followed your directions, and was delighted with the results. It is valuable for decorative purposes, and should become very popular. It is a great curiosity in this region.—C. R. Savage, Salt Lake, Utah.

SEEDS OF PARK'S STAR FLOWER—4 packets 10 cents, 1 packet 3 cents. Order 4 packets, and distribute the extras among your friends.

If you get extra copies of this Guide kindly hand to flower-loving friends.

HOW TO REMIT.—Sums of \$1.00 or more send by Money Order, Registered Letter, Draft or Express Money Order at my risk. Smaller sums in Postage Stamps. See that the remittance covers the cost of the seeds. Prices cannot be discounted. Address plainly

GEO. W. PARK, Seedsman and Florist,

LA PARK, Lancaster Co., Pa.

A FEW WORDS WITH PATRONS.

NOTHER milestone in life's journey, my dear patrons, has been reached, and again, by the kindness of Providence, I have the pleasure to greet you with my annual **FLORAL GUIDE**, assuring you of my sincere good wishes for your gardening success and pleasure, and offering you my best services to promote the desired good.

The seeds and bulbs I supply are not only fresh and of sparkling vitality, but in quality they cannot be excelled, while in price they are unapproached. They will thus not only grow, but their product will be highly satisfactory. The prices are marvelously low, but a competitive trial of my seeds and bulbs with those of others, no matter how high the competitor's prices, will convince you that I do not sacrifice quality for price. I do not deal in **cheap seeds and bulbs**. Park quality must be the best quality.

I give my business my close personal attention, and am never satisfied when you favor me with your trade until you are satisfied. I aim to honestly represent the things I offer, and to help you to succeed I accompany every package with cultural hints. I want every patron to be pleased, and to join my big floral family, which now numbers nearly half a million flower-loving people. I therefore offer you the best services at my command.

My establishment is brought to your home. Simply make your selection from this **GUIDE** and enclose it with the remittance in a plainly-directed and well-sealed envelope, and in a very short time the post-man will deliver the goods at your door. All orders have prompt attention and careful service, whether large or small. I guarantee your order to reach me safely, and the seeds to reach you safely. If any mistakes occur I cheerfully correct them. If there should be any cause for dissatisfaction kindly write me. Your complaint will gladly be heard. Do not complain to your neighbor—at least until you have given me a chance to adjust any difference. I am always ready to do even more than justice and fair dealing demand in order to satisfy a patron.

My friend, I solicit your favors and hope to hear from you when you want anything in my line of trade. A trial order will convince you that I can supply you with first-class seeds and bulbs at popular prices, and my various publications will post you on the many choice flowers and their culture. If you wish special information it will be sent you by mail, or given through my monthly **FLORAL MAGAZINE**, which is devoted entirely to floriculture. Kindly let me hear from you.

In closing these remarks I wish to thank my older faithful friends for their continued patronage. Many have been getting seed supplies of me for ten, twenty or thirty years—some for thirty-five years. I need hardly say that there is a close bond of friendship between us as the result of this long and pleasant business intercourse, and that I enjoy the annual letters received from such as I do those from old friends—which they are.

Your welfare, dear patron, is mine, and you can always feel assured that your orders and communications will have my best attention. I await your favors.

LA PARK, PA., January 25th, 1904.

GEO. W. PARK.

What You Get for One Dollar.

Seeds, your selection from this Guide,	\$1.05
Two subscriptions to Park's Floral Magazine, one year,	.20
Total,	\$1.25

Get the extra copy of the **MAGAZINE** sent to some flower-loving friend. Or, get some friend or neighbor to club with you and order together and divide. I send all for **only \$1.00**.

A Very Important Matter.

It is very important to have good seeds to get good results in flower culture, but even more important is it to know how to treat them. Without this knowledge the seeds are often useless. Every package of seeds I mail is accompanied by cultural directions, and my monthly **FLORAL MAGAZINE**, devoted entirely to floriculture, gives special information, as required. Thus by using the helps freely supplied your floral success is assured. Do not overlook these helps.

Park's Floral Magazine for Five Years.

PARK'S FLORAL MAGAZINE is a handsome monthly, illustrated, original and practical. It is the pioneer of floral publications, having been established in 1871, and is to-day the most popular as well as the oldest of floral journals, its regular monthly circulation being over 375,000 copies. If you love and cultivate flowers you will be delighted with this charming floral monthly. Subscription price for five years, including **Park's Chrysanthemum Art Study**, a superb work of art painted from nature by the celebrated floral artist, Paul de Longpre, also a packet of choice Chrysanthemum seeds—all for **only 50 cents**. Send your subscription with your seed order.

GEO. W. PARK, B. Sc., Editor and Publisher, LaPark, Pa.

Some Valuable Floral Hints.

With every package of seeds, bulbs and plants I send directions for culture, thus insuring success. The following hints, however, cannot be too well impressed:

Selecting and Sowing.—If you wish seeds to sow in a garden bed or to present to children, or if you have had but little experience in raising flowers from seeds, select such flowers as Alyssum, Asters, Balsams, Calendula, Candytuft, Indian Pink, Gaillardia, Helianthus, Marigold, Mignonette, Bedding Petunia, Pansy, Phlox, Ricinus, Scabiosa, Tropæolum, Valerian, Verbena and Zinnia. For vines get Cobæa, Cypress, Dolichos, Gourds, Humulus, Ipomœa, Morning Glory, Maurandya, Tropæolum peregrinum and Thunbergia. Even in sowing these it is well to prepare the bed carefully in a sunny exposure, place a low board frame around it, and after sowing water and cover with a newspaper until the plants appear. If you sow seeds in the open and allow full exposure to rain and wind and sunshine, you should not complain if but few of the seeds become plants. In a protected bed sowing can be done earlier than in an open one, as extra covering of paper or boards can be applied when the nights are cold.

Such seeds as those of Begonia, Calceolaria, Cineraria, Coleus, Exacum, Fenzlia, Gloxinia, Heliotrope, Impatiens, Jonopsidium, Kenilworth Ivy, Lobelia, Mimulus, Nicotiana, Oxalis, Large-flowered and Double Petunia, Primrose, Salvia, Stocks, Torenia and Wallflower sow carefully in window boxes or in a hot bed, in pressed rows in sifted and pressed soil. The very small seeds sow in the bottom of the row but do not cover them. Moisten the soil by setting the pot in a saucer of water.

Time of Germination.—A very important point in raising seedling plants is to know when to look for the plants after sowing. Some seeds germinate in two or three days, while others require as many weeks, months or years to start. In sowing always write the name of the seeds and date of sowing upon a label and place at the head of the row, and consult the table published elsewhere to know at what time the plants should be expected. The seed-box or bed should never be neglected until the plants appear. Should it dry out or freeze, or the soil become hard and soggy, the seeds will be ruined. Nocturnal insects, mice and worms often destroy the seeds in the row before they germinate, and too much heat and moisture will cause them to rot. These things are mentioned that you may not unjustly condemn the seedsman. At least three trials should be given at different times, and it is well to divide your seed packets accordingly. One or all of the sowings may prove successful.

Insects and Diseases.

The most troublesome insect upon plants is the Aphis or Green Fly. It rarely attacks seedling plants until well started, and some kinds of plants are more troubled by it than others. Chopped tobacco stems placed between the rows or around the plants will keep the pest from gaining a foothold. Quassia-chips tea applied as hot as the hand will bear will be found an effectual remedy. Tobacco smoke confined about the foliage will also destroy the Aphis. Cineraria plants are especially attractive to this pest, and care should be taken to keep the plants clear of it.

Coleus, Oleander and some other plants are troubled by the Mealy Bug, an insect which forms web-like, floury nests, mostly in the forks of the branches. The best remedy is hot quassia-chips tea.

Scale insects infest Abutilon, Oranges and other shrubby house plants. They appear as brown scabs upon the bark of the trunk and branches. Scrub them loose with a bristle brush and wash thoroughly with hot quassia-chips tea.

Slugs, which eat and destroy the foliage of our Roses, as well as Thrips, Leaf Hoppers and Red spiders, are quickly and effectually eradicated by the use of hot quassia-chips tea. It is a sovereign remedy.

The destruction of Cut Worms can be avoided by putting a tube of paper around the stem, letting it extend an inch into the soil.

The "Worms" which enter the stalks of Dahlia, Zinnia and some other plants can be found by slitting and destroyed.

Black Fleas, which eat young plants of Sweet Alyssum and Borecole can be overcome by dusting the plants with wood soot in the early morning, while the dew is on.

The slug which sometimes eats the foliage of Pansies and Nasturtiums can be destroyed by hand-picking. Night slugs can be trapped under pieces of turnip or potato.

Toads and Frogs are natural enemies of Night Slugs; also of Sow Bugs and Ants. They are friends of the gardener. The Lady Bug and its larvæ thrive upon plant lice. Do not kill them. The native song birds are insect scavengers, and their presence in the garden should be encouraged. The long-necked gourds make excellent nesting places for some of these. Cats are enemies of birds, as well as a nuisance in the garden. They can be destroyed by placing in a bag with a stone and depositing in a pond of water.

"Damping off" is caused by a fungus which attacks young seedlings. It forms an invisible web upon the soil, and when it envelops the stem the plant falls over and dies. Dust of bituminous coal applied to the surface soil is a remedy. It is well, however, to avoid crowding, and to give the plants air and sunlight, to keep the soil healthy.

Mildew is also a fungus. In the conservatory and greenhouse it is kept down effectually by painting the hot water pipes with flowers of sulphur mixed with water. Certain Roses are sometimes troubled with it in the garden. A dressing of flowers of sulphur worked into the soil, and a mixture of lime and sulphur applied to the foliage with a dust bag are recommended as good remedies. It is better, however, to discard such Roses as are much troubled by Mildew, and fill their places with healthy varieties.

A Glorious Bedding Plant---Park's Star Flower.

4 Packets 10 Cents, 1 Packet 3 Cents.

A grand semi-tropical bedding plant is Park's Star Flower, a species of *Nicotiana* recently found in the wilds of the Argentine. The plants have enormous radical leaves, often three feet long and eighteen inches broad, from which the flower stems issue, rising to the height of from six to ten feet, branching, and each branch terminated by a huge panicle of long, drooping, deliciously-scented white flowers, which remain open day and night. If kept from seeding, the plant will grow and bloom continuously from June until after severe frosts, becoming more beautiful and attractive every day as the season advances. On the title page is shown an engraving of a bed of this grand flower grown by one of my Western patrons, who sent the photo from which the engraving was made. Those who have grown this flower will readily concede that the engraving does not misrepresent it. I hope every one of my many patrons will secure seeds of this flower and enjoy the glorious bed which it will afford them. Only 10 cents for four packets of seeds, or 3 cents for one packet.

Flowers For a Showy Bed.

The following table gives the names and height of various easily-grown flowers suitable for summer beds. Asters and *Helianthus* bloom for several weeks during autumn, but the others all bloom continuously during summer and autumn if kept from seeding. *Calliopsis* appears well in masses, the plants rather crowded. The others, however, should be started early in the window or in a sheltered seed-bed and transplanted when large enough, setting them about as far apart as half their height. The time for out-door sowing is when the apple trees are in bloom, though in a warm, sheltered bed, protected during cold nights, many kinds may be sown earlier.

Seeds of any of these, 3 cents per packet.

<i>Ageratum Mexicanum</i> , 1 foot.	<i>Lavatera trimestris</i> , 18 inches.
<i>Antirrhinum</i> , Semi-dwarf, 1 foot.	Marigold, French, tall, 18 inches.
Asters, Double, tall, 18 inches.	Marigold, African, tall, 2 feet.
<i>Calliopsis</i> , Compact floriferous, 1 foot.	Mirabilis, Four-o'clock, dwarf, 1 foot.
<i>Canna</i> , Crozy's Dwarf, 2 feet.	Park's Star Flower, 6 feet.
Carnation, Early-flowering, 1 foot.	<i>Petunia</i> , Hybrida, 18 inches.
<i>Celosia</i> , Dwarf Coxcomb, 1 foot.	<i>Phlox Drummondii</i> , hortensiaeflora, 10 in.
<i>Dianthus Chinensis</i> , 1 foot.	Stock, Ten Weeks, Excelsior, 2 feet.
<i>Gomphrena</i> (Everlasting), 1 foot.	<i>Tropæolum</i> , Tom Thumb, 1 foot.
<i>Gaillardia</i> , Compacta grandiflora, 1 foot.	<i>Verbena</i> , large-flowered dwarf, 1 foot.
<i>Helianthus globosus fistulosus</i> , 5 feet.	<i>Zinnia</i> , semi-dwarf, 2 feet.

Any of the above will make a showy and pleasing bed or border, and all are of easy culture. Grouped in a long border, the taller ones at the rear, they afford a fine and varied display, and please all who see them.

Flowers for an Edging.

To edge a walk or a bed of flowers or vegetables some of the free and continuous-blooming annuals are useful. The following are among the most desirable:

Seeds of any of these 3 cents per packet.

<i>Ageratum</i> , Dwarf, 6 inches.	<i>Lobelia</i> , Barnard's Perpetual, 6 inches.
<i>Alyssum</i> , White Carpet, 6 inches.	<i>Tagetes Signata</i> pumila, 9 inches.
<i>Bellis</i> , Double Daisy, 6 inches.	<i>Portulaca</i> , large-flowered, 6 inches.
<i>Eschscholtzia</i> , 9 inches.	Tufted Pansy, 6 inches.

These should be started in boxes or the seed bed, and set as far apart as their height. They like sun mostly, and will make a compact and beautiful edging.

Flowering Plants for Hanging Baskets.

Seeds of any of these, 3 cents per packet.

<i>Alyssum</i> , White Carpet or Trailing, sun.	<i>Myosotis palustris</i> , moist shade.
<i>Kenilworth Ivy</i> , thrives in shade or sun.	<i>Nolana</i> , prefers a sunny place.
<i>Lobelia gracilis</i> , Barnard's Perpetual, sun.	<i>Petunia</i> , Dwarf multiflowered, sun.
<i>Maurandia</i> , sun.	<i>Smilax</i> , Boston, thrives in sun or shade.
<i>Mimulus Tigrinus</i> grandiflora, moist shade.	<i>Thunbergia</i> , likes a sunny place.

Flowers for Winter Blooming.

Seeds of any of these, 3 cents per packet.

<i>Abutilon</i> , in variety, 2 feet.	<i>Impatiens sultana</i> , 1 foot.
<i>Agathæa cœlestis</i> , 1 foot.	<i>Lobelia</i> , Royal Purple, 6 inches.
<i>Begonia</i> , winter-blooming, 1 foot.	<i>Petunia</i> , Compact, 9 inches.
<i>Browallia</i> in variety, 1 foot.	Primrose, Chinese, Park's Globular, 9 in.
<i>Bellis</i> , Double Daisy, 6 inches.	Primrose, Forbesi or Baby, 6 inches.
<i>Calceolaria Hybrida</i> , 1 foot.	Primrose, Obconica, 6 inches.
Carnation, Winter-blooming, 1 foot.	Primrose, Floribunda, 6 inches.
<i>Cineraria</i> , large-flowered, 1 foot.	<i>Scabiosa</i> , New Double Compact, 1 foot.
<i>Cyclamen</i> , Giant-flowered, 6 inches.	<i>Tagetes Signata</i> pumila, 9 inches.

Most of these will bloom in the window in winter even when greatly neglected.

Park's Superior Flower Seeds.

Unrivalled in Quality—4 Packets of One Kind, 10 Cts.; 1 Packet, 3 Cts.

Park's Double Asters.

Mr. Park: Hardly anything can stop me when talking about your Asters. In colors, strength and thriftiness they are simply beyond comparison. My Aster bed was the envy of the neighborhood.—N. M. S., Floyd Co., Iowa, Oct. 31, 1903.

☞ Park's has no rival.

Park's New Gaillardia

Mr. Park: Your Compact Gaillardias are very satisfactory hardy perennials. My plants of your mixture showed various shades of red and yellow, no two alike, and bloomed from June until severe frosts.—Mrs. J. J. K., Jefferson Co., Ks.

☞ Park's always please.

Park's Calceolarias.

Mr. Park: I wish all of your patrons would try your Hybrid Calceolarias. One of my plants last year grew two feet tall and had four branches, which bore 255 blossoms. Many persons came to see them, and they were much admired. Why are not Calceolarias more grown?—Mrs. N. Perry, Ontonagon Co., Wis.

☞ Park's for best results.

Park's Marigolds.

Mr. Park: I am very anxious to tell you how pleased I am with the seeds—especially the Marigolds. The plants are now in bloom and are grand. I never before saw anything so nice in my life.—Miss M. Schmid, Cambria Co., Pa., June 25, 1903.

☞ Park's once, Park's always—they never fail to satisfy.

Park's Giant Cyclamen

Mr. Park: I have been very successful in raising Park's Giant Cyclamen. I raised seven different kinds from a three-cent packet, and they bloomed the second year. It is beautiful in foliage as well as in bloom.—Mrs. L. W. Reiff, Berks Co., Pa.

☞ Park's Cyclamen surpass in foliage and bloom, and every seed grows. Always get Park's.

Park's Nasturtiums.

Mr. Park: I advise those wanting a beautiful bed to delight them all summer and fall to plant your Giant Nasturtium seeds. We had gorgeous flowers.—Gassie Murphy, Cass Co., Ind., Nov. 9, 1903.

☞ Park's lead them all for grandeur. Neighbors envy those who plant Park's seeds—always true to name and description.

Park's Giant Coxcomb

Mr. Park: The Coxcombs from your seeds last year were just grand. They were the largest and strongest heads and of the prettiest colors I ever saw. They are easily grown, and very fine for edging or beds.—Walter Wolverton, Wash. Co., Kan.

☞ Park's Coxcomb seeds are saved only from huge, selected combs in all the colors. There are none better.

Park's Giant Pansies.

Mr. Park: From your Giant Pansy seeds I raised the nicest Pansies I ever saw. From early in the summer until now (Nov. 7,) I have had quantities of large fragrant blossoms. I have many different colors and shades, and everybody praises them.—Mrs. Ervin Stone, McKean Co., Pa.

☞ Park's Roemer's excel.

Park's Fancy Coleus.

Mr. Park: The Coleus seeds bought of you last spring were a wonder—they produced so many fine plants, hardly two alike. I do not know how you can afford so many and such good seeds in a three-cent packet.—Mrs. Geo. Heppock, Hunterdon Co., N. Y.

☞ Park's—richest and best.

Park's Primrose.

Mr. Park: I have a lovely box of your Primroses in the window—great bunches of delicate, varied blossoms. They were started last March. Everyone who cultivates flowers should try your Primrose seeds.—Mrs. P. L. Hoag, Putnam Co., N. Y.

☞ Park's Globular Chinese Primroses are sure to bloom in winter. None are better.

Park's Cineraria.

Mr. Park: I was highly pleased with the result of your Large Hybrid Cineraria seeds last year. I had fourteen or fifteen different kinds. I again have a nice collection of promising plants.—Mrs. L. W. Reiff, Berks Co., Pa., Nov. 7, 1903.

☞ Park's Hybrid Cineraria seeds are from the finest strains. They never disappoint.

Park's Sweet Peas.

Mr. Park: Everyone admired my Sweet Peas, they were so thrifty. I had a double row nine feet long. They grew over seven feet high and were loaded with lovely, fragrant bloom. They are easy to grow, and last long after cutting.—Mrs. J. Lee, Rutland Co., Vt.

☞ Park's—largest and brightest.

Park's Superb Dahlias

Mr. Park: From a packet of your Dahlia seeds I raised fifteen very large, fine plants—five single-flowered and ten double. Some were very dark red, some crimson and some yellow with red spots.—Mrs. F. Feller, Jackson Co., Mich., Nov., 1903.

☞ Park's Dahlias excel—they are produced by specialists.

Park's Zinnias.

Mr. Park: I never saw such fine Zinnias as those received from you last year. There were so many different colors and so full and round that many would not believe they were Zinnias at first. Far nicer than Geraniums.—B. S., Marquette Co., Mich.

☞ Park's are unsurpassed.

To succeed with flowers buy PARK'S SEEDS, and learn how to grow them by subscribing for and reading PARK'S FLORAL MAGAZINE, the oldest monthly devoted exclusively to floriculture.

PARK'S CHOICE

Machine-Packed Flower Seeds

Park Quality---Always First Quality.

New Crop Offering for 1904. Warranted.

MY BUSINESS was established in 1869, and I have always given it my best thought and attention, that I might serve my patrons satisfactorily. My prices are low, but the quality of my seeds is **PARK QUALITY---ALWAYS THE BEST.** At La Park I have gardens and greenhouses, mills and warehouses, printing office, electrotype foundry, seed and bulb scores, postoffice, and all the needs of a big business, economically and satisfactorily operated. My motto is "Big sales and small profits," and my esteemed patrons have the benefit of my complete and economical facilities. When you want first-class seeds send me your order. Quality is always first---price secondary, and I guarantee prompt and faithful service.

Ageratum, Everblooming.

Special Mixture, 4 packets 10 cts., 1 packet 3 cts.

For beds and edgings in summer, as well as for window pots, the improved varieties of Ageratum can be highly recommended. Some grow eighteen inches high and become a mass of showy blue, while such sorts as Imperial Dwarf in various colors, Little Dorrit and Swanley Blue make lovely edgings, growing compactly only six inches high. They delight in a sunny exposure, and bloom freely and continuously. Sow early in a pot, cover very shallow, and bed out when the ground becomes warm.

Tall Sorts.		Dwarf Sorts.	
Conspicuum	5	Imperial Dwarf, blue	5
Lasseauxi	5	Light blue	5
Mexicanum, blue	5	White	5
Albiflorum, white	5	Dwarf Yellow	5
Luteum, yellow	5	Swanley Blue, azure	5
Blue Perfection	5	Little Dorrit, blue	5
Princess Victoria, blue, pink centre	5	White	5

Mr. Park: I raised the most beautiful Ageratums ever raised in these parts from one three-cent packet of your seeds. I had plants enough to supply the neighbors and a generous share for myself. There were white, purple and three distinct shades of blue, some with long stems and some grew very compact, being a mass of beautiful flowers. It is very easy to grow. Let the children try to grow Ageratum. They will be pleased.—Mrs. J. H. Nigh, Ottawa Co., Kas., Nov. 4, 1903.

Sweet Alyssum.

4 packets 10 cts., 1 packet 3 cts.

Early and free-blooming annuals, with sweet-scented white flowers in showy clusters, bloom continuously when freely cut, showy for edgings and useful for bouquets.

Common, oz. 25c.....	3
Little Gem, for edging 3	
White Carpet, trailing 3	
Varieties mixed, 4 pkts	
10 cts., 1 pkt 3 cts.	

Mr. Park: The packet of Sweet Alyssum seeds I got of you this spring made a grand bed. It was a thing of beauty all summer and is still blooming.—Mrs. Christie Fish, Jefferson Co., Pa., Nov. 2, 1903.

Mr. Park: From a paper of your mixed seeds I raised a dozen Sweet Alyssums and never want to be without them again.—Mrs. A. C. Mason, Orleans Co., N. Y.

Acacia Lophanta.

4 packets 10 cts., 1 packet 3 cts.

Easily-grown plant with fern-like foliage. It grows rapidly and makes a fine show in a pot or in a shady nook about the yard. When grown in a pot do not let it become root-bound. Pinch it back if you wish a bushy plant. It will last for years.

Mr. Park: My neighbor and I sent for a selection of seeds and none gave better satisfaction than Acacia Lophanta. She let hers grow straight. It is a perfect tree five feet high with every prospect of bloom. Miss Yates, Ontario, Canada, Nov. 1903.

<i>Abronia umbellata</i> , a succulent, sun-loving, Verbena-like plant; hush before sowing	3
<i>Adonis</i> , annual; plants grow a foot high; finely cut foliage and shining red flowers, mixed.....	3
<i>Ethionema grandiflora</i> , a handsome perennial, flowers rose, in long spikes.....	3
<i>Agrostemma coeli rosa</i> , 1 foot high, flowers rose and white, mixed	3
<i>Anemone coronaria</i> , showy flowers of various colors, mixed	3

<i>Anagallis</i> , very pretty, free-blooming half hardy annuals. Like a dry, sunny place. Blue, crimson, scarlet, separate or mixed.....	3
<i>Anchusa</i> , perennials with rich blue flowers, mixed	3
<i>Arnebia cornuta</i> , new; showy golden yellow with brown spots	3
<i>Artemisia annua</i> , grows 3 feet high, with fern-like, fragrant foliage; known as Swiss Fern.....	3
<i>Asperula azurea setosa</i> , 9 in. high, branching, with pretty blue flowers in clusters.....	3

Antirrhinum--Snapdragon.

Special mixture of all varieties, 4 packets 10 cents, 1 packet 3 cents.

The new large-flowered Snapdragons are splendid flowering plants. They are dense and bushy in form, well clothed with rich green foliage, and every branch is terminated

by a fine spike of large, rich-colored, showy, deliciously scented flowers, white, rose, crimson, scarlet, yellow and dark purple, some also spotted and blotched, some striped, and some tinted and margined. The plants from seeds bear early, and if the flowers are freely cut will bloom continuously until after severe frosts. Many, too, will endure the winter and bloom abundantly the next season. The Giant sorts are fine for large beds, as they grow from two to three feet high; the semi-dwarf kinds grow from one to two feet, and the Tom Thumbs from six to ten inches high. They may be grouped together in a bed, the taller varieties in the centre, and the lower ones around.

PARK'S GIANT SNAPDRAGONS (3 feet high). Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Romeo, new deep rose.....	5	Deep Scarlet.....	5	Yellow with Orange.....	5
Fire King, rose with orange.....	5	Scarlet with tints.....	5	Yellow, striped red.....	5
Queen Victoria, new white.....	5	Carmine, white throat.....	5	Scarlet, white throat.....	5
White.....	5	Crimson.....	5	Coral Red.....	5
White striped.....	5	Striped.....	5	Yellow.....	5

PARK'S SEMI-DWARF SNAPDRAGONS (18 inches high). Special mixture, 4 packets 10 cts., 1 packet 3 cts.

Grandiflora, album, white.....	5	Black Prince, nearly black.....	5	Striatum.....	5
Golden Queen, rich yellow.....	5	Queen of the North, white.....	5	Cressia, deep scarlet.....	5
Picturatum, spotted.....	5	The Bride, pure white.....	5	Delila, carmine, white throat.....	5
Pink Empress, dark rose.....	5	Queen Victoria, white with red.....	5	Pirefly, scarlet.....	5

TOM THUMB VARIETIES (6 inches high).—White, striped, copper, yellow, scarlet, crimson, scarlet with white throat, cinnabar, orange and rose, each 5 cents. Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: Two years ago I bought a packet of mixed Snapdragons of you. I think almost every seed came up. They bloomed the first season, and such a mixture of colors I never saw—all shades and variations one could think of. They were even nicer the second year than the first, for they had become more bushy and for that reason had more flowers.—Mrs. Mary Coleman, Lewis Co., Wash., Nov. 16, 1903.

Mr. Park: I had a large bed of Giant Snapdragons that I raised from mixed seeds bought of you. I started the seeds in boxes in the house and set them out as soon as they were large enough. They were covered with their large beautiful flowers all summer. There were many lovely colors. Few flowers have a more pleasing fragrance than these. They are among the easiest flowers to raise that I know of—Anna Gilbert, Douglas Co., Neb., Nov. 3, 1903.

Amaranthus.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

These are showy, easily-grown foliage and flowering plants. They are especially attractive in a poor soil and sunny situation. I offer the finest varieties, and my mixture has them all. A tricolor splendens and a quadricolor are handsome pot plants for sunny porch or window in

summer. The foliage is very rich in color, and beautifully contrasted. They are also fine for bedding.

Amabilis, tricolor.....	5	Monstrosus, crimson hds 5	5
Bicolor ruber, carmine.....	5	Salicifolius, Fountain Plant.....	5
Sulphurine, new yell'w 5	5	Tricolor splendens, Joseph's Coat, See eng.....	5
Caudatus, Love lies bleeding.....	5	Quadricolor, very showy variegated foliage.....	5
Cruentus, Prince's Feather.....	5		
Melanochlois rubra, red 5	5		
Special mixture, all varieties, 4 packets 10 cents, 1 packet 3 cents.			

Mr. Park: I must say a few words in regard to seeds ordered from you last year. My Asters were simply grand—the admiration of every one who saw them. Also my Dianthus, or Chinese Pinks, were the loveliest flowers I ever grew. Started the plants in March, indoors, and planted them out in May. They bloomed from early in July until the middle of September. I think they have no equal.—Mrs. Susie Neff, Elkhart Co., Ind.

Alonsoa, Everblooming.

Mixed, 4 packets 10 cts., 1 packet 3 cts.

The species of Alonsoa are mostly from Mexico and South America. Those I offer seeds of are everblooming, and the seedlings are easily raised, and may be grown either in the garden or window. They bloom freely and the flowers are bright and attractive. They grow about a foot high, and if started early will bloom from May until November. The mixture I offer contains all the sorts in good proportions.

Mutisi, compact in growth and covered throughout the season with flowers; color, delicate pink with rich crimson centre.....	5
Warscewiczii, dark scarlet flowers in racemes.....	5
Gracilis, a compact-growing, very floriferous sort, graceful and very showy. Flowers rich scarlet. Fine for pots or beds.....	5
Special mixture, all sorts, 4 pkts 10 cts., 1 pkt.....	3

Park's Superb Double Asters.

Special mixture, all varieties, 4 packets 10 cents, 1 packet 3 cents.

VICTORIA ASTER.

The Double Asters are among our most beautiful and showy flowers for either beds or pots. The plants are of easy culture, and if started in the spring will make a fine display during the autumn. Some are tall, some dwarf; some early and some late blooming. All are handsome, and the colors and markings are marvelous in variety and beauty. They are annuals that should be cultivated by everyone who cares for half a dozen plants. The seeds I offer are of the finest strains, all imported from Germany and France, where Asters have been a specialty for many years. I can confidently recommend them.

BOLTZ'S BOUQUET ASTER.

Mr. Park: Last year I grew a bed of your mixed Asters, which was a splendid success. This year I grew a bed all of scarlet. It was very fine, but I liked the effect of the mixed bed better. I also grew the Harlequin this year. Little beauties they were; complete bouquets of pink, red and purple, about half of each flower being white. I always cover two or more of my bulb beds with Asters. Grow the plants in boxes in the hotbed and do not transplant to the garden till the tulip leaves are ripe enough to be removed. Then set the Asters about fifteen inches apart. They make such a grand fall display, and those who do not grow them miss something fine indeed.—Mrs. M. C. Marshall, Indiana Co., Pa.

The Charming New Hohenzollern Aster.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

This is a new variety growing two feet high, luxurious and bushy in habit, and bearing on strong stems enormous flowers six inches or more in diameter, with frilled and twisted petals and in the leading colors. As pot plants, or for a showy bed this is an exceedingly valuable Aster. As yet the seeds are high in price, mostly sold at wholesale by the thousand, but I have had a large quantity of seeds grown for me and hope to be able to fill all orders for them at the price I name—mixed, 4 packets 10 cents, 1 packet 3 cents. I can also supply the colors as follows: White, Rose, Crimson, Flesh, Lilac and Azure Blue, at 5 cents per packet.

Aster, Boltz's Dwarf Bouquet.

Mixed, 4 packets 10 cents, 1 packet 3 cents.

This is a very dwarf sort, the blooming plants appearing as little mounds of color, as shown in the engraving. Set five inches apart. Shades of red, blue, white scarlet and variegated, in fine mixture, 4 packets 10 cents, 1 packet 3 cents.

Aster, New Victoria.

One of the finest Asters, either for pots or beds, 18 inches high, well branched and bearing large, very double flowers, imbricated and of richest colors. See above cut.

White yellow, rosy, carmine, crimson, dark scarlet, azure, deep blue, indigo, crimson and white, each 5
Special mixture, all sorts, 4 pkts 10 cts, 1 pkt..... 3

THE NEW HOHENZOLLERN ASTER.

Aster, New Jewel.

Grows two feet high, with large, full-double flowers, globular in form and freely borne. A superb sort for garden or pot culture, always greatly admired.

White, deep rose, light blue, dark blue, scarlet, scarlet and white, per packet 5
Special mixture, all colors, 4 pkts 10 cts, 1 pkt..... 3

New Mammoth Victoria Aster.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

I wish to call special attention to the New Mammoth Victoria Aster. It is certainly one of the most showy and beautiful of garden flowers. The plants grow from two feet to thirty inches in height, branch freely in pyramidal form, and each branch develops flowers of the Victoria type, faultless in form, as double as a Chrysanthemum, of huge size, and in a great variety of rich and pleasing colors. In a large pot it is fine for the window or piazza, and when bedded out in a sunny place, the plants set ten inches apart, the soil enriched and well worked, they make a glorious display in autumn. A grand Aster, sure to delight those who grow it. Do not omit when ordering. See engraving.

Pure white.....	5	Silver gray.....	5	Rose.....	5	Brown violet.....	5
White, tinged rose.....	5	Carmine.....	5	Light blue.....	5	Special mixture, all col-	5
Peach blossom.....	5	Scarlet.....	5	Dark blue.....	5	ors, 4 pkts 10c, 1 pkt.....	3

Park's Yellow Quilled Aster.

4 packets 10 cts., 1 packet 3 cts.

This is the best yellow Aster to date. Plants grow two feet high, and are covered with large double quilled flowers.

Mr. Park: All the Aster seeds I got from you last spring did well, but your Silver Cloud and Yellow Quilled Asters deserve special praise, for they were beautiful—so large and free blooming.—Mrs. F. L. Calkin, Linn Co., Mo., Nov. 4, 1903.

Cocardeau or Crown Aster.

Grows 18 inches high, bearing large full-double flowers of rich colors, the centre pure white.

Rose, carmine, crimson, violet, blue and lilac, each . 5
Special mixture, all varieties, 4 pkts 10 cts, 1 pkt..... 3

Mr. Park: Your Cocardeau or Crown Asters were just lovely, and were greatly admired by myself and friends.—Anna Strain, Jasper Co., Ia., Nov. 29, 1903.

Park's Silver Cloud Aster.

Pure White, 4 pkts 10 cts, 1 pkt 3 cts.

Those who wish a glorious bed of white bloom in autumn should sow a few packets of Park's Silver Cloud Aster. The plants are graceful in habit and bear large, perfectly double flowers, delicate in texture, faultless in form, and held up by strong stems. Those who have grown it speak in highest praise of it. Elegant for bouquets or vases when cut. I urge all my patrons to get a packet or more of this fine Aster. It never disappoints. 4 packets 10 cents, 1 packet 3 cents. I can also supply colors as follows: Lavender, Shell Pink, Crimson and Indigo Blue, all rich and distinct colors at 5 cents per packet, or all in mixture, including the white, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: My bed of Silver Cloud Asters is today a grand sight. It is 3x6 feet and oh, such fine blossoms! They do not care about a little frost, so I did not try to get them earlier.—Mrs. C. E. Kinney, Pierce Co., Wash., Nov. 1, 1903.

Mr. Park: The Silver Cloud Asters from your seeds were very fine. They were as large as some Chrysanthemums.—Mrs. M. C. Bramhall, Bradford Co., Pa., Nov. 9, 1903.

Mr. Park: I got a packet of Silver Cloud Aster seeds in the spring. The flowers were very large and extra fine. They were admired by everyone. The plants blossomed freely and continuously till after the frost.—Mrs. F. Feller, Jackson Co., Mich., Nov. 1903.

Grasshoff's Perfection Aster.

Special mixture, 4 pkts 10 cts, 1 pkt 3 cts.

This is a grand incurved Aster, and well-shown in the engraving. The flowers are of great size, very double and of splendid colors. The plants are two feet high, symmetrical and very free blooming. One of the finest Asters. See engraving.

Pure white, crimson, azure, dark blue, brilliant rose, fiery scarlet, deep blood red, flesh, rosy carmine with white, brilliant blackish blue with white, sky blue and white, purple; each..... 5
Special mixture of all sorts, 4 pkts 10c, 1 pkt..... 3

Mr. Park: Grasshoff's Perfection Asters are lovely, and so easily raised. My bed showed many colors, as white, pink, blue, purple, variegated, etc. I wonder how many of the floral sisters have tried them.—Augusta Oldfield, McPherson Co., Kans., Nov. 12, 1903.

Queen of the Earlys.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

The earliest Aster. Flowers very double and of many colors. Fine for beds or pots.

White, rose, crimson, light blue, dark red, red lilac, scarlet, scarlet and white; each, 1/2 oz. 50c, per pkt 5
Special mixture, all colors, 4 pkts 10 cts., 1 pkt..... 3
Mr. Park: My Asters, Queen of the Earlys, were perfection of their kind—plants an even height, colors finely mixed, flowers perfectly double and all in bloom at one time.—Mrs. John Henderson, Ont., Can.

Park's Marvel Aster.

Price, 4 packets 10 cents, 1 packet 3 cents.

Grows two feet high, bearing large, globular flowers, pure white with a blood-red centre. The color contrast is odd and beautiful. See engraving.

Mr. Park: Your Marvel Asters were the handsomest flowers I ever raised. I think every seed grew. I had a fine bed.—Alzima Martin, Erie Co., Pa., Nov. 2, 1903.

Park's Scarlet Triumph Aster

Rich Scarlet, 4 packets 10 cents, 1 packet cents.

A fine Aster about 10 inches high, each plant bearing from 30 to 40 handsome flowers about three inches in diameter, rich, deep scarlet, incurved petals, and of faultless form. Other varieties are:

White, purple, violet carmine and variegated, each... 5
The same in fine mixture, 4 pkts 10 cts., 1 pkt..... 3

Mr. Park: Your Scarlet Triumph Asters were the first and only Asters of that color I ever saw, and were beauties. They grew low—not over eight inches, and the flowers were very double. Each plant was so full of flowers that the foliage could hardly be seen. The first flowers remained perfect until all were developed. They make a fine edging.—Mrs. Mary F. Davison, Clinton Co., Mich., Nov. 25, 1903.

Park's Ostrich Feather Aster.

Splendid mixture, 4 packets 10 cts., 1 packet 3 cts.

This is one of the most beautiful of Double Asters, rivaling the Japanese Chrysanthemum in size, grace and delicacy, while in variety and richness of colors it far exceeds that popular flower. The plants attain eighteen inches in height, are of free growth and globular habit, and bloom very abundantly. The name, Ostrich Feather, was given it because of its long, loose, twisted petals, giving the flower a plummy effect. There are many Asters of this fine class lately introduced, but the strain I offer is of surpassing beauty, and no person who cultivates Asters should fail to have a bed of it.

Pure white.....	5	Light yellow.....	5
Peach blossom.....	5	Dark blue.....	5
Bright rose.....	5	Light blue.....	5
White changing to rose.....	5	Lilac.....	5
Rich crimson.....	5	Azure.....	5
Special mixture of all colors, 4 packets 10 cts., 1 packet..... 3			

Mr. Park: Perhaps a good deal has been written about Asters, but I do not think enough can be said about the beauty of your Ostrich Feather variety. We had some large white ones from Park's seeds that were simply regal. We certainly hope to have some again, and hope all flower lovers will include a packet in their "must-haves"—H. B. Man, Can., Nov. 28, 1903.

Mr. Park: I wish to give my share of praise of your Ostrich Feather Aster, especially the white. They are magnificent. They look like ostrich plumes. I was asked at the Fair, where I displayed them, if they were Chrysanthemums. Those who

have not tried them should do so.—Mrs. Rosa Batterbee, Charlevoix Co., Mich.

Mr. Park: The Ostrich Feather Asters from your seeds were of immense size, like Japanese Chrysanthemums, measuring five inches across, with long petals curiously curled, so as to give them a striking resemblance to the Chrysanthemum.—Eva Shipley Francis, Wheeler Co., Neb., Nov. 24, 1903.

Harlequin Aster.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

Beautiful. Flowers very double, graceful, and of many colors, checkered white. Eighteen inches high, free-blooming, odd and attractive. This curious and beautiful Aster is worthy of more attention. My patrons should give it a trial.

Crimson, deep violet, light blue, purple, rose and blackish blue, all mixed with white, each..... 5

Special mixture, all colors, 4 pkts 10 cts., 1 pkt..... 3

Dwarf Chrysanthemum Aster

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

A splendid sort. Plants grow a foot high and in late autumn are a mass of large, double flowers of many colors. Fine for either pots or beds. Set 8 inches apart.

Pure white, light blue, dark blue, fiery scarlet, rose, each, 1/2 oz. 50 cts., per packet..... 5

Twenty other colors, each..... 5

All colors in fine special mixture, 4 pkts 10c, 1 pkt..... 3

Bellis-Double Daisy.

Special mixture, Giant sorts, 4 pkts 10c, 1 pkt 3c.

As an edging plant in summer, or pot plant in winter the Double Daisy can hardly be excelled. It is hardy out doors in most States. Easily raised from seeds and blooms continuously. I offer seeds of the finest large-flowered sorts.

Snowball, large, full-double flowers, robust and free 5
Longfellow, large, red flowers, very double and fine 5
Delicata, new, rosy white, with carmine centre..... 6
Large-flowered, double, special mixture, 4 pkts 10c, 1 pk 3

Mr. Park: I for one, can speak very highly of your seeds. The Double Daisies were grand, on long stiff stems, as large as little roses, and the admiration of all who saw them.—Mrs. J. E. Wheeler, Lebanon Co., Pa.

Bartonia aurea, 2 feet high, with showy yellow flowers..... 5

Beet, Ornamental, crimson, golden and bronze-leaved, mixed, 4 pkts 10 cts., 1 pkt..... 3

Borecole, ornamental cabbage, fine for an outdoor winter bed..... 5

Miscellaneous Asters.

Comet Aster, frilled petals, mixed colors..... 5

Comet New Yellow, light yellow, new color..... 5

Dwarf German Aster, a foot high, mixed colors..... 5

Dwarf Queen, fine for pots or edgings, mixed colors..... 5

German Emperor, large flowers, mixed..... 5

Giant Emperor, very large, finest mixed..... 5

Globe-flowered German, all colors mixed..... 5

Globe-flowered Pyramidal, all colors mixed..... 5

Goliath Aster, very large flowers, mixed..... 5

Hedgehog, quilled flowers, dwarf, mixed..... 5

Lady, the most floriferous of Asters, mixed..... 5

Lilliput, small flowers in profusion, mixed..... 5

Mignon, white, very fine for cutting..... 5

Mignon, mixed, like Victoria, like mixed..... 5

New Dwarf Victoria, fine mixed..... 5

New Dwarf Peony-flowered Perfection, mixed..... 5

New Peony-flowered Globe, finest mixed..... 5

Princess, New floriferous, white..... 5

Quilled German, finest mixed..... 5

Reids Quilled, all colors mixed..... 5

Rose Asters, very fine, all colors mixed..... 5

Schiller, very fine, mixed colors..... 5

Shakespeare, fine mixed..... 5

Victoria Needle, fine mixed..... 5

Vick's Branching Asters, all colors mixed..... 5

Washington, large, all colors mixed..... 5

Bidens atrosanguinea, the "Black Dahlia," showy, dark crimson bloom..... 5

Brachycome, Swan River Daisy, pretty flowers of various colors, mixed..... 5

Browallia, New Giant-flwd, blue, pot plant, mxd Elata, large-flowered, white, blue, purple, mxd..... 3

Park's Fine Double Balsams.

Special mixture, all varieties, 4 packets 10 cents, 1 packet 3 cents.

The Double Balsam is one of the most desirable of garden annuals. Any person can raise the plants, and they thrive in any rich, moist soil. The plants are clothed in handsome foliage, and the large, double, rose-like flowers cover the stems and contrast charmingly with the fresh, green leaves. The engravings show a branch of the flowers, and a plant in full bloom. In the garden the plants make a grand display, and the waxy, delicate texture of the double flowers, together with their rich fragrance and varied colors, make them objects of great praise. When arranged on a plate of water the flowers are fine for table decoration. Grown in pots, the plants are fine for window culture.

Mr. Park: Should I be limited to only one kind of flower for the lawn, I believe it would be the Balsam. One plate of these little roses are a sufficient decoration for any dining table, or centre table in the living room. The sisters should try a packet of your mixed Camellia Balsam seeds next season.—Effie Barnes, Harrison Co., Mo., Nov. 28, 1903.

Park's Prize Camellia-flowered Balsams.

Special mixture, all colors, 4 packets 10 cents, 1 packet 3 cents.

The finest of all Balsams is the strain I offer as Park's Prize Camellia-flowered. The plants grow from two to three feet high, and bear huge flowers, double to the centre, and of many colors and variegations. I cannot praise this grand strain of Balsams too highly. I supply the following splendid varieties separately:

Pure white.....	5	Lilac.....	5
Pure scarlet.....	5	Violet.....	5
Crimson.....	5	Rose spotted.....	5
Light yellow.....	5	Scarlet spotted.....	5
White reflecting rose.....	5	Violet spotted.....	5
Salmon rose.....	5	White reflecting lilac.....	5
Special mixture of all the above, 4 pkts 10 cts., 1 pkt.....	3		

Mr. Park: Your Camellia-flowered Balsams were exceedingly fine, and took first premium at the Fair. The flowers were very large and perfectly double. The colors ranged from pure white through several shades of pink to deep crimson. A pure glistening pink was especially admired.—Mrs. Cole, Ottawa Co., Mich., October 28, 1903.

Mr. Park: Your Camellia-flowered Balsams were the wonder of all beholders. Many persons could hardly believe them to be Balsams. They were the very finest ever seen here. The colors were lovely. I shall get the same sort again.—Mrs. J. E. Wheeler, Lebanon Co., Pa., Nov. 4, 1903.

Mr. Park: Your Camellia-flowered Balsams were admired by everyone. Such beauties! Some were so very red, some with white spots, while there were pinks of every shade, and pale lavender, and white—all such beauties. I would like everybody to try your Balsams, they are so easy to raise and so beautiful all summer.—Mrs. J. W. Gray, Wood Co., W. Va., Nov. 1903.

Other Varieties.

Double Dwarf Balsams , effective little plants. Twelve varieties of plain and six of spotted, each.....	5
Dwarfs in special mixture, 4 pkts 10 cts., 1 pkt.....	3
Double Rose-flowered , 12 colors, separate, each.....	5
The varieties mixed, 4 pkts 10 cts., 1 pkt.....	3
Double Spotted Balsam , 12 colors, separate.....	5
The sorts mixed, 4 packets 10 cts., 1 pkt.....	3
Victoria , satiny white, dotted scarlet.....	5
Carnation striped , mixed, 4 pkts 10 cts., 1 pkt.....	3
Blood Red , very double.....	5
Solferino , white, spotted and striped.....	5
Prince Bismarck , brilliant salmon rose.....	5
Balsams , all sorts, mixed, 4 pkts 10 cts., 1 pkt.....	3

Cacalia , Flora's Paint Brush; hardy annual; plants a foot high; flowers yellow and scarlet, brush-like, on long, slender stems, mixed.....	3
Calandrinia , succulent plants with showy white, rose and carmine, cup-like flowers; mixed.....	5
Calceolaria pinnata , a pretty annual with yellow flowers.....	3
Callirhoe , trailing hollyhock, large showy flowers; trailing hardy plants; mixed colors.....	3
Campanula , annual, Venus Looking Glass, pretty summer flowers for beds; bloom early and freely; six inches high; white, blue, violet, mixed.....	3
Cannabis gigantea , the giant Hemp; grows eight feet high; ornamental foliage plant; seeds good for Canary birds.....	3
Carduus Marianus , a thistle-like plant of easy culture; pretty, variegated foliage.....	3
Carthamus tinctorius , the garden Saffron; five feet high, with showy, yellow flowers.....	3

Centauridium Drummondii , an annual a foot high, with yellow, Aster-like flowers.....	3
Cerinthe , honey plants; annuals with yellow and white flowers, mixed.....	3
Clarkia , showy, easily-grown annuals of many colors, and double and single. Special mixture, 4 packets 10 cents, 1 packet.....	3
Cleome speciosa , purple, spider-like, showy flowers at tips of branches; 3 feet high.....	3
Collinsia , half-hardy annuals a foot high; flowers in profusion, white, lilac and purple. C. verna, sown in autumn is beautiful; mixed colors.....	5
Collomia , a handsome annual, scarlet flowers.....	5
Cornelina coelestis , blue and white flowers, pretty, but fragile, mixed.....	3
Cosmidium Burridgeanum , a composite plant with showy, yellow flowers.....	3
Crepis , rather showy, a very easily grown annual; yellow, white and pink, mixed.....	3

Calendula, New Large-flowered.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

A showy hardy annual often called Pot Marigold. I offer only the new large-flowered varieties, which are very fine. The plants are vigorous, bushy, very easily grown from seeds, begin to bloom when quite small, and bloom throughout the season. They increase in brilliancy and beauty during the late autumn weather and are often seen rivaling the out-door Chrysanthemums during the early winter snows. The flowers are shades of yellow, some striped and all double and showy.

Primrose yellow 5
Golden yellow 5
Yellow striped gold 5
Sulphur and yellow 5
Sulphur and white 5
All colors in special mixture, 4 pkts 10c, 1 pkt. 3

Mr. Park: My Calendulas were beautiful. Such big flowers as I had—some as large as a silver dollar; yellow and orange and lemon striped. Everyone who saw them went wild over them. I potted one November 1st and it is full of buds now—some almost open. Mrs. N. O. Harris, Middlesex Co., Mass., Nov. 15, 1903.

Mr. Park: The Calendula seeds I received from you came up, and such a beautiful bed of different shades of yellow as I had! I will try them again next year.—M. E. M., Giles Co., Tenn., Nov. 4, 1903.

—I can also supply *C. pluvialis*, *C. Pongel* fl. pl. and *C. Suffruticosa*, each 5 cents per packet.

Calliopsis, New Compact Floriferous.

Special mixture, 4 pkts 10c, 1 pkt 3c.

For a graceful mass of bright bloom the New Compact Floriferous Calliopsis excels. The plants grow a foot high, begin blooming early, and continue in bloom the entire season if seeding is prevented. Grouped in a bed the flowers, borne on fairy stems, are a waving mass of rich color. Sow fall or spring in the bed where the plants are to bloom.

Brown and gold... 5 | Yellow..... 5
Rich crimson..... 5 | Marbled..... 5
The above compact sorts mixed, 4
packets 10 cents, 1 packet 3
Tall and perennial sorts mixed, 4
packets 10 cents, 1 packet 3

Mr. Park: Your Floriferous Calliopsis is one of the finest seed plants grown. This year mine grew almost two feet high, and had the finest flowers I have ever seen. I think we had five colors. This flower should be planted by every flower lover.—Jessie Sharp, Adams Co., O.

Mr. Park: Let me say to floral friends, do try a bed of the New Floriferous Calliopsis. They are so easy to raise, are grand for cut flowers, and blossom all summer until Jack Frost takes them. I got the seeds from Park at only 3 cents per packet, and I believe every seed grew, as I had so many.—E. H., Forest Co., Pa.

Mr. Park: Your Calliopsis amply rewarded me. The plants produced a multitude of bloom, of which the velvety red ones captured every eye that saw them. Some looked as though they had a thin frost work of gold spread over the red. Oh, they were lovely.—Aunt Becca, Guthrie Co., Ia., Dec. 1903.

Candytuft, Annual in Variety.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

CANDYTUFT, ODORATA.

CANDYTUFT, CARTER'S CARMINE.

Showy, hardy annuals. The plants grow a foot high, and a bed of them becomes a mass of charming flowers. Sow in rows as early as the ground can be worked, and thin to six inches apart. I offer the finest sorts, and my special mixture contains seeds of them all in good proportion.

Amara, oz. 10 cts. 5	Rose Cardinal..... 5	Lilac..... 5	Flesh color..... 5
Odorata, sweet..... 5	Rocket, white..... 5	Dwarf Hybrid, mixed..... 5	Dark Crimson, fine flow- 5
Tom Thumb, dwarf..... 5	Carter's Carmine..... 5	Empress, large..... 5	ered sort 5
New Giant, Hyacinth-flowered, immense spikes, large flowers, very showy, white; 4 pkts 10 cts., 1 pkt 3			
Special mixture of all sorts, oz. 10 cents; 4 packets 10 cents, 1 packet..... 3			

Mr. Park: In a circular bed we planted a packet of your Candytuft seeds. For a long time they bloomed, and our bed was admired by lovers of flowers, who then and there decided to have a Candytuft bed the next year.—Mrs. Noah Roads, Highland Co., Ohio, Nov. 20, 1903.

Mr. Park: I must write to you to praise the beautiful Candytuft seeds I bought from you last spring. The flowers were perfectly beautiful. I had deep pink, pale pink, purple, lilac, cream and pure white. It was the first time I ever had any luck with Candytuft. I could never raise anything except white. I will be sure to get my seeds from you next spring.—Mrs. E. Bawel, Henrico Co., Va., Nov. 16, 1903.

Capsicum--Pepper.

Complete mixture, 4 packets 10 cts., 1 packet 3 cts.

For a summer hedge or for window plants in winter the various Peppers are desirable. The foliage is dense and of a rich green color, and the seed-pods or peppers are of many odd and attractive shapes and colors. Some are long, some round, some nosed, and some twisted and wrinkled. In color they vary from white through the shades of yellow, scarlet and crimson to black. Some are small and cherry-like, while others are of enormous size. A packet of my special mixture will yield plants showing a wonderful variety of peppers, and exciting as much attention and admiration as many handsome flowering plants. Give the Peppers a trial.

Little Gem, Tom Thumb, Cayenne, Cherry Red, Cherry Yellow, Celestial, Cardinal, Prince of Wales, Chili Red, Giant Columbia, red and yellow; Giant Chinese Red, Elephant's Trunk, Gilded Dawn, Kaleidoscope, Large Bell, Long Red, Long Yellow, Monstrous Red, Monstrous Yellow, Procop's Giant, Red Cluster, Red Spanish, Red Squash, Ruby King, Scarlet Maddaloni, Yellow Nocera, Yellow Squash, Bull-nose. Separate colors, each, per packet..... 5

All sorts, special mixture, 4 packets 10 cents, 1 packet..... 3

Mr. Park: Those who wish for something out of the ordinary should send for several packages of your mixed seeds of Peppers, as I did. I raised about fifty plants, and a large bed of them in the flower-garden, and they were a perfect kaleidoscope of colors, the yellow ones slowly turning crimson, the shiny black turning to orange, and the glossy red ones in size from a pea to the large bullnose, and useful for pepper-sauce and cooking. They were interesting and beautiful.—Mrs. J. Jasper, Napa Co., Cal.

Canna, Gladiolus-flowered.

Finest mixture, 4 packets 10 cents, 1 packet 3 cents.

The Gladiolus-flowered Cannas which originated under the skillful hand of Mr. Crozy, are among the most showy and beautiful of plants for either beds or pots. They have elegant green and bronze foliage, and bear huge spikes of large, rich-colored flowers of various shades of yellow and red, often spotted and blotched. The plants are easily produced from seeds, and if started early will bloom in mid-summer and until frost. Give them a sunny bed and water freely. I offer seeds of the finest sorts, and from the rich collection of the celebrated Canna specialist, Mr. Crozy.

Madam Crozy, fine scarlet.....	5
Merium Lombard, nearly white.....	5
Variegated, variegated foliage.....	5
Charles Henderson, crimson.....	5
Jules Chretien, fine.....	5
Queen Charlotte, yellow.....	5
Finest mixture of Crozy's large, early-flowering hybrids, 4 pkts 10c, 1 pkt 3	

Mr. Park: Let all those who wish a gorgeous bed of flowers try Park's large-flowered Cannas. They are very handsome. Seedlings form a large clump by fall.—Mrs. C. W. Kaighin, Henry Co., Ia.

Mr. Park: I got six cents' worth of Canna seeds of you last spring. I filed the shell and soaked them over night in

water, and I had twenty-two nice plants. They are so easy to raise from seeds. I never think of saving the roots, as they are so hard to keep over winter unless one has a dry and warm cellar.—E. H., Forest Co., Pa.

Mr. Park: I received of you a packet of Canna seeds and have such a beautiful clump of blooming plants. There are three different kinds. One is very large, dark red, like velvet; another is a sort of orange, with markings of bright yellow on the edge of the petals. I call it my gilt-edged one. I think if we can get such beautiful Cannas for three cents we do well.—Mrs. Helen A. Ingham, Chautauque Co., N. Y., Nov. 9, 1903.

Mr. Park: Last spring I got a packet of your Canna seeds. I ground each seed open and then soaked them in warm water for twenty-four hours, then planted them in a little box. In the middle of May I beded them, and by the fourth of July they were in bloom, and such lovely Cannas I never saw before.—Mrs. Mary Bauman, Jefferson Co., Neb., Nov. 12, 1903.

Carnation--New Hybrid.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

Who does not love the Carnation—the sweetest and loveliest and most constant of the garden Pinks. I offer seeds here of kinds that will bloom the first season, if started early, and they are everblooming, too. These beautiful new hybrids should be generally cultivated. They are vigorous, bear large, graceful flowers, and scent the whole garden. If grown in pots they are fine for the window. My seeds are from the finest double-flowered strains. My mixture is specially prepared, insuring plants of all the choice kinds.

Malmaison, the new giant-flowered variety. The plants are robust and the large flowers are full-double, of many exquisite colors and tints, and deliciously scented. Splendid mixture, 4 packets 10 cents, 1 packet..... 3

Gullaud, a superb variety of rapid growth, flowering early from seeds; my seeds are excellent and will produce 90 per cent. of fine double flowers, many of them shades of yellow, mixed..... 5

Comtesse de Paris, yellow, very early, mostly true from seeds..... 5

Chabaud, a hybrid blooming in seven months from seeds; flowers large, almost perfect in form, fragrant and very double, mixed..... 5

New Hybrid Carnations, all varieties mixed, 4 packets 10 cents, 1 packet..... 3

Mr. Park: I would advise all flower-lovers to try raising Carnations. I had a beautiful bed of the new hybrid, early-flowering from a three-cent packet of your seeds. I planted them early in a box, then transplanted them the first of May. They commenced blooming in about four months, and bloomed all fall—white, cream, pink, light yellow and several shades of red. They were just lovely, and so fragrant! Everyone admires them. I am always pleased with your flower seeds.—Miss G. Hibbs, Madison Co., Ia., Nov. 5, 1903.

French Dwarf White, new, fine..... 5

Earliest French Giant, immense double flowers, early blooming; a new and superb sort..... 5

Snowflake, a lovely pure white variety, fine for the cemetery or for garden beds..... 5

Yellow Ground, beautiful varieties..... 5

French Cyclops, a hybrid between Dianthus Hedewigi and D. caryophyllis, fragrant, showy..... 5

Margaret, the earliest of the Hybrids; plants begin to bloom in four months from seeds, and bear splendid double fragrant flowers of many rich colors. I offer only the improved, compact strain, and my seeds are of the finest quality. Mixed, 4 packets 10 cents, 1 packet..... 3

Celosia--Coxcomb and Feathered.

Special mixture, all varieties, 4 packets 10 cents, 1 packet 3 cents.

Celosias are too much neglected. They are everblooming and fine for either pots or beds, while any person can raise the plants from seeds. The Coxcombs often appear two feet in diameter when well grown, and the Feathered appear as huge feathery plumes, the colors being of all shades from white through bright yellow to scarlet and crimson. They will repay giving them a rich, warm soil and good cultivation. The Coxcombs I offer grow a foot high and make a very effective bed on the lawn. My seeds were saved from selected heads. The Feathered Celosias grow two feet tall and are all of the improved, plummy varieties, much superior to the old-fashioned sorts.

COXCOMB CELOSIA.

Sanguinea, blood red....	5	Glasgow Prize, crimson	5
Sulphurea, yellow....	5	Rosea, rose.....	5
Violaacea, violet	5	Purpurea, purple	5
Empress, bright crims'n	5	Cupreata coccinea, scr't	5
All the above Coxcombs, mixed, 4 pkts 10c, 1 pkt. 3			

COXCOMB CELOSIA.

FEATHERED CELOSIA.

Kermesina, crimson	5	Magnifica, very fine improved race of	
Aurea, golden	5	various colors, mixed, 4 packets 10	
Violaacea, violet.....	5	cents, 1 packet.....	3
Thompsoni, dark red.....	5	Feathered, mixed, 4 pkts 10c, 1 pkt.....	3

MISCELLANEOUS CELOSIAS.

Japanica, from Japan, fine crimson combs upon a bushy plant.....	5
Argentea, or spicata, long, slender, rose-colored spikes; useful for drying.....	5
Variegated, striped, two feet high, with rose and white combs.....	5
Celosias, Coxcomb and Feathered, all sorts mixed, 4 packets 10 cts., 1 packet.....	3

Mr. Park: Last year I planted a packet of Feathered Celosias in the open ground in May. They had no special care, but grew to large plants with great, feathery heads. The first of October some were over three feet in height—colors, crimson, scarlet, yellow and pink. They took the prize at the horticultural show in October.

—H. E. Fairchild, Essex Co., Mass., Nov. 14, 1903.

Mr. Park: My Celosias or Coxcombs were so nice! Everyone who saw them said, "Can you grow such flowers?" I tell them I get my seeds of Mr. Park, and then I care for them—I do not let the weeds take them.—Mrs. Sarah J. Hileman, Union Co., Ill., Nov. 15, 1903.

FEATHERED CELOSIA.

Centaurea in Variety.

Special complete mixture, 4 pkts 10 cts., 1 pkt 3 cts.

The Annual and Perennial Centaureas offered are beautiful garden flowers, all blooming the first season. Any person can raise the plants from seeds, and they bloom freely and continuously. The flowers are showy in the garden, and fine for cutting. Some are delightfully fragrant.

Americana, two feet high; very large, attractive bloom, splendid.....	3
Cyanus, Bachelor's Buttons, single-flowered hardy annuals; flowers showy, abundant and pretty; white, black blue, bright blue, red, rose, white and blue, each, per packet.....	5
The same mixed, 4 packets 10 cents, 1 packet.....	3
Cyanus, Double White, Purple, Blue, each.....	5
Cyanus, Double-flowered in finest mixture, 4 packets 10 cents, 1 packet.....	3
Cyanus nanus compactus, dwarf varieties, compact, and less than a foot high; free-blooming and of many colors; fine for edgings and pots. Finest mixture, 4 packets 10 cents, 1 packet.....	3
Depressa, King of Blue Bottles, a rare annual growing a foot high; flowers showy, blue with dark centre, the variety I offer is brighter and handsomer than the older sort usually offered.....	5

Mr. Park: My Centaurea Marguerite from your seeds were beautiful. Each plant produced scores of flowers borne on long, wiry stems, and were exceedingly graceful for cutting or corsage wearing. No flowers could surpass them. Flowers from two to three inches across, of the most lovely texture and superb fragrance. They grew like weeds and were perfectly exquisite.—Eva Shipley Frances, Wheeler Co., Neb.

Mr. Park: I wish some of the floral friends could have seen my bed of double mixed Centaurea Cyanus raised from one-half of a three-cent packet of your seeds. I think I must have had forty plants. They were just grand. One woman asked me if they were Pinks.—Mrs. May E. Waite, Chautauqua Co., N. Y., Nov. 10, 1903.

Imperialis, a new and fine annual growing three to four feet high, and bearing large, showy, sweet-scented flowers; White, Lilac, Rose, Purple, Violet, each.....	5
All colors mixed, 4 packets 10 cents, 1 packet.....	3
Margaritae, large, white flowers; fine for cutting.....	5
Moschata, musk-scented, white and blue, each.....	5
Sacrata, Purple, Blue and Yellow with Rose, each.....	5
All the colors mixed, 4 pkts 10 cts., 1 pkt.....	3
Complete mixture, all varieties, 4 pkts 10 cts., 1 pkt. 3	

Centranthus macrosiphon, an easily-grown annual; 2 feet; flowers in clusters, produced freely; very pretty and showy; long bloomers. Red, white, azure and white, and flesh color, each.....	5
All colors mixed, 4 packets 10 cents, 1 packet.....	3

Convolvulus , Dwarf Morning Glory, tricolor; showy annuals a foot high; flowers Petunia-like, very bright. Blue, white, azure, crimson, dark blue, rose, violet, striped and double, each.....	5
All varieties mixed, 4 packets 10 cents, 1 packet ..	3

Cosmos, Early Large-flowered.

Finest special mixture, 4 packets 10 cents, 1 packet 3 cents.

Few annuals are more graceful and showy than Cosmos. The foliage is feathery and of a rich green color, while the flowers are bright, of various colors and produced in abundance. The early-flowering varieties I offer are rather dwarf in habit, and if the seeds are sown early, when the apple is in bloom, where the plants are to grow, they will begin to bloom early in autumn. The plants are easily transplanted, but transplanting always retards the bloom of plants. Plants should stand a foot or more apart.

Dawn, dwarf, white..... 5
 Klondyke, yellow-flowering..... 5
 Mammoth, tall, late, mixed..... 5
 Rose, White, Dark Red, each..... 5
 Semi-Dwarf, early-flowering, mixed..... 5
 Finest mixture, all varieties, 4 pkts 10 cts, 1 pkt 3

Mr. Park: The Cosmos seeds you sent us were beautiful. They were planted late but are still blooming. Most of the white ones are very large, some of them measuring three and one-half inches across.—Myra Lumry, Douglass Co., Neb., Nov. 8, 1903.

Mr. Park: I want to tell you about the packet of Cosmos I got from you. I never saw such Cosmos. The flowers are as large as the top of a tea-cup, and of all shades of pink, red and white. They bear flowers by the hundred, and show no signs of quitting yet. I think I shall have a bed of Cosmos every year.—Mrs. C. L. Gibson, Woodson Co., Kas., Nov. 1903.

Mr. Park: Of all the flowers in my yard there are few that I love better than Cosmos. I plant both early and late varieties and have them in bloom about six months every year. They sow themselves, are quite hardy, and have fine foliage. Their colors are red, white and pink, and they are very pretty. I always cut off the faded flowers, so new ones will get all the strength of the plant.—Mrs. Anthony, Harriet Co., Mo., Nov. 4, 1903.

Chrysanthemum--Annual.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

The Annual Chrysanthemums make thrifty, bushy plants that are covered with showy single and double flowers from early in the season until after severe frosts. The plants are fine for beds in the garden or for pot plants. They grow about two feet high and should stand eight or ten inches apart. Give them a sunny situation. Started from seeds in summer, they make fine winter-blooming plants. *C. nanum* is showy and fine for bedding. The *C. fimbriatum* has double flowers which are beautifully fringed, as shown in the engraving.

Coronarium, double yellow..... 5
 Pompon, double, mixed, new..... 5
 Album, white, double..... 5
 Imbricatum, fine double..... 5
 Princess May, single, white..... 5
 Fimbriatum, fringed petals..... 5
 Nanum, dwarf, double, mixed..... 5
 Coronarium in fine mixture, 4 pkts 10 cts., 1 pkt..... 3

Inodorum fl. pl., double, white, biennial; showy and fine for cutting..... 5
 Morning Star, an elegant new annual of compact habit, with fine single flowers of a lovely Primrose yellow..... 3
 Annual Chrysanthemum, all varieties, special mixture, 4 packets 10 cents, 1 packet..... 3

Mr. Park: If one wants a fine annual, also window plant for winter, they should get your Annual Chrysanthemums. They are wonderful. I sowed a packet of seeds last summer. They came up quickly and bloomed constantly, even after frost. Then I potted two or three and they kept right on blooming through all the winter.—Mrs. G. W. Coleman, Essex Co., Mass., Jan. 16, 1904.

Mr. Park: My summer Chrysanthemums did finely. I was very much pleased with them. They had such beautiful foliage, and the yellow and white flowers were delicate and pretty as could be.—Laura, Cloud Co., Kas.

Centranthus Macrosiphon.

All colors mixed, 4 pkts 10 cts., 1 pkt 3 cts.

Centranthus macrosiphon nanus grows a foot high, branching, and showing a mass of delicate little flowers in big clusters. They bloom all summer and autumn, and deserve a place in every flower garden.

Nanus Red, dark, pretty..... 5
 Nanus Bicolor, 2-color'd 5
 Alba, white flowered..... 5
 Carneus, flesh-color'd 5
 All colors in fine mixture, 4 pkts 10 cts., 1 pkt..... 3

NOTE.—*Centranthus macrosiphon* is a hardy annual with pretty flowers, and is useful for the rock garden or flower border.—English Flower Garden.

Clintonia Pulchella.

Special mixture, 4 packets 10 cts, 1 packet 3 cts.

These are Lobelia-like, half-hardy annuals, slender, graceful and free-blooming in habit, and lovely for pots or baskets. They should be better known.

Blue..... 5
 Blue and white..... 5
 All varieties mixed, 4 pkts 10 cts, 1 pkt..... 3

NOTE.—*Clintonia pulchella* is a charming plant, six inches high, admirable for rockwork, bedding, or for edgings; it has blue, white, and yellow flowers produced during the late summer.—Gardening.

Dahlias, Double and Single.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

Dahlias may be grown from seeds as readily as Sunflowers, and the seedlings begin to bloom in mid-summer and continue till frost. The double varieties were formerly in great favor, but recently the graceful, showy form and exquisite colorings of the single varieties have brought them into prominence and made them popular. The plants like a rich soil and mulching in summer. Avoid crowding, if you wish the plants to bloom freely. A little lime worked into the soil before planting is beneficial. The seeds I offer of both double and single sorts are first-class, and will yield the finest flowers in form and color.

Double Cactus sorts, extra fine, mixed colors.....	10
Double, dwarf, superb strain, finest mixture.....	5
Double, large-flowered, finest quality, producing a large percentage of splendid double flowers of many colors and variegations.....	10
Double Lilliput, small-flowered, saved from named flowers, extra mixed.....	5
Double Tom Thumb, very dwarf, with double flowers of various colors, mixed.....	5
All of the above splendid Double Dahlias in fine mixture, 4 packets 10 cents, 1 packet.....	3
Single, Brilliant, glowing scarlet.....	5
Single, Cactus varieties, mixed.....	5
Single, Giant Perfection, splendid large flowers, mixed.....	5
Single, Golden Yellow, fine.....	5
Single, Paragon, scarlet with white tips.....	5
Single, striped and spotted, fine 50 per cent. true.....	5
Single Tom Thumb, very dwarf and very free-blooming; various colors; fine for pots or beds.....	5
Single, white, yellow, maroon and scarlet, each.....	5
Single, White Queen, handsome white flowers.....	5
Single Dahlias in splendid mixture, 4 pks 10c, 1 pk.....	3
Complete mixture, embracing the above choice double and single sorts, 4 pkts 10 cts., 1 pkt.....	3

Mr. Park: I would say to the floral sisters, try raising Double Dahlias from seeds. I bought a packet of your Double Dahlia seeds last spring and planted them in a cigar box of sifted woode earth. They were up in a few days as thick as weeds. They grew rapidly, and when they had six leaves I transplanted them to my border, and they only lacked a few days of blooming as soon as the ones that came from tubers. I had many beautiful flowers of different colors. One plant had large, double flowers, the same color as "Nymphaea," that I paid fifteen cents for. So, sisters, don't despair if you can't send to the florists and pay fifteen or twenty cents for a single tuber, but send and get a packet of seeds and raise flowers just as beautiful.—Mrs. J. O. Courtright, Washington Co., Ark., Nov. 6, 1903.

Mr. Park: Last spring I bought some Dahlia seeds from you, and oh, what a display! Some blossoms measured eleven and twelve inches in circumference. The colors were very beautiful. Everybody who saw them was delighted and wanted to know where I got the seeds. I am very much pleased with your seeds.—Miss Emma Trant, McLennan Co., Texas, Nov. 26, 1903.

Delphinium--Larkspur.

Complete mixture, 4 packets 10 cents, 1 packet 3 cents.

The annual Delphiniums or Larkspurs are beautiful garden flowers. They are rich in color, delicate and very showy. In a bed or group they are gorgeous. Sow the seeds where the plants are to bloom, either in fall or early spring. Park's Early-flowering Delphinium is a perennial, but blooms the first season.

Dwarf Candelabrum-formed, mixed.....	5
Emperor, double, finest mixed.....	6
Giant Dwarf Rocket, or Hyacinth-flowered, double, mixed.....	6
Eight different colors, each.....	5
Ranunculus-flowered, double, mixed.....	5
Stock-flowered, tall, branching, double, mixed colors.....	3
Lustrous Carmine, double, very bright and showy.....	6
Pure White, double, lovely pure white.....	6
Rosy Scarlet, double, very bright and beautiful.....	6
Tall Rocket, double, mixed colors, and pure white, each.....	3
PERENNIAL LARKSPURS, BLOOMING FIRST SEASON.	
Cashmerianum, blue.....	5
Chinense, large-flowered, blue.....	5
Large-flowered, white.....	5
Complete mixture of all the above sorts, 4 packets 10 cts, 1 packet.....	3
Park's Early-flowering, mixed.....	3
Elatum hybridum, mixed.....	5
Formosum, Speciosum, blue, each.....	5

STOCK-FLOWERED LARKSPUR.

Mr. Park: Have any of your sisters tried your Early-flowering Larkspur? I planted mixed Larkspur among Gladiolus bulbs, and they bloomed at the same time and were lovely—the Larkspurs of lavender, pure white and dark blue, and the Gladiolus red. I had a National bed, red, white and blue, for several weeks. The Larkspurs kept on blooming until Jack Frost "nabbed" them.—S. M. D., Rens. Co., N. Y., Nov. 15, 1903.

Datura Wrightii, Fastuosa, fl. pl., Huberiana mixed, and Cornucopia, each.....	5
All varieties mixed, 4 packets 10 cts., 1 pkt.....	3
Diascia barberae, a new, handsome annual.....	5
Didiscus cœruleus, pretty annual, blue umbels.....	5
Dracœcephalum moldavicum, Bee Balm, m'x'd.....	5

Dianthus Chinensis.

Complete mixture. Single and Double, all colors, 4 packets 10 cents, 1 packet 3 cents.

SINGLE PLAIN AND FRINGED JAPANESE PINKS.

Indian Pinks , double white, white and rose, and dwarf rose, each.....	5
Double mixed and single mixed, or double and single mixed, 4 pkts 10c, 1 pkt 3	3
Imperial Pinks , triple white, white striped, crimson, spotted, red striped, each.....	5
Double, new dwarf, white, crimson, copper, rose, each.....	5
All varieties mixed, 4 packets 10 cents, 1 packet.....	3
Japan Pinks , Heddeewigi, single, white, crimson, blood-red, rose, and white with purple eye, each.....	5
Heddeewigi, double, white, crimson, red bordered white (see engraving), each.....	5
Laciniatus, single, fringed, white, salmon, blood red, each.....	5
Double, fringed, white, purple, striped, blood-red, each.....	5
Heddeewigi and Laciniatus, single mixed (see eng.), 4 pkts 10 cts., 1 pkt.....	3
Heddeewigi and Laciniatus, double mixed, 4 pkts 10 cts., 1 pkt.....	3
Diadem Pinks , dark colors, immense double flowers; rich dark variegations.....	5
Light colors, like the preceding, but of lighter hues.....	5
New dwarf, double, rich flowers.....	5
Splendid mixture, 4 packets 10 cents, 1 packet.....	3
Striped Pinks , mixed, splendid double striped varieties, 4 pkts 10 cts., 1 pkt.....	3
Complete mixture of all of the above single and double varieties, 4 pkts 10c, 1 pkt 3	3

Mr. Park: Last May I purchased a 5-cent packet of Double Chinese Dianthus from you and had a lovely bed of flowers. I think every seed came up and the plants grew so well. Park's seeds are always good.—Miss Frances Young, Texas Co., Mo., Nov. 8, 1903.

Mr. Park: Who doesn't have good luck with Park's Dianthus Pinks? I don't believe there is a flower that repays one more for what little care it gets unless it is the Verbena. The flowers are single and double, and of every color imaginable. Another good thing about it is it self sows. When everything else fails to come up in the spring these Pinks are sure to appear, and the old plants don't winter-kill if they have a slight protection.—Jennie Sprout, Davis Co., Iowa, Oct. 31, 1903.

Mr. Park: I obtained Dianthus seeds of you in variety last spring and sowed them early in boxes, transplanting them to the garden. In a short time they were a mass of bloom, no two alike, and were from white to almost black, shaded and mottled in every possible form, double and single, as large as Carnations and just as pretty—only lacking fragrance.—Mrs. M. C. Bramhall, Bradford Co., Pa., Nov. 9, 1903.

Mr. Park: I guess every seed of your Dianthus came up, for I had so many plants. And such flowers—double and single; the most beautiful I ever saw. Everybody who saw them said, "Oh, look at those nice Dianthus."—Miss B. Krause, Norman Co., Minn., Nov. 1903.

Under this head are many varieties, known as Indian, Japanese and Imperial Pinks. They are often called Annual Pinks, because they bloom throughout the first season. The plants are hardy, however, and will bloom for several years, if not allowed to exhaust themselves in seed-bearing. They grow from eight to twelve inches high, are of stalky, erect habit, and start readily from seeds. Seedlings begin to bloom in a few weeks, and bear an abundance of flowers until after severe frosts. The flowers are large, single and double in form, and exceedingly rich in colors and variegations. In silky texture they surpass any others of the Pink family. Set eight inches apart they make a splendid bed, admired by all observers. They have no enemies and plants thrive and bloom freely in any rich soil in a sunny exposure. The new Diadem Pinks are especially attractive. Single and double Japanese Pinks are shown in engravings. I offer seeds of the finest strains, and my mixtures contain all the choice new colors as well as older ones.

DOUBLE JAPANESE PINK.

You Never Err in Buying of Park.

HIS SEEDS ARE ALWAYS GOOD, whether the moon is wet or dry, and can be successfully and confidently planted in any sign. They sparkle with vitality and yield **Strong, Healthy Plants**. And what is more every plant will freely bloom and produce the finest flowers. A trial will convince you of this truth, and insure to Park your future patronage. As you read this Guide note on the Order Sheet with pencil what you want. You will find the Order sheet at the rear of this Guide.

Erysimum, New Bedding.

Price, 4 packets 10 cents, 1 packet 3 cents.

I offer seeds of the New Compact Bedding Erysimum. Sown in spring or early summer the plants will show a wealth of rich golden bloom in the autumn, will endure the winter, and bloom again freely the next season. The plants grow ten inches high, are of dense, bushy habit, and each branch is terminated by a large cymous cluster of rich orange, Wallflower-like flowers, dazzling the eye with its golden display, and filling the surrounding air with delicious perfume. The seeds may be sown also in the fall for spring and summer blooming the next year. It is a near relative of the Wallflower, and will please all who find the Wallflower a favorite. Its culture is very simple. The seeds are sown in rows eight inches apart, and the plants thinned till they stand six inches apart in the row. See engraving.

NOTE—Erysimum, New Bedding, is a charming early-flowering biennial, indispensable for spring bedding, literally covered with golden yellow flowers. Sown early in the year, bushy little plants bloom in the succeeding autumn, and again burst into full beauty in early spring.—English Notes.

I can also supply seeds of Erysimum Perofskianum and Erysimum Pulchellum. Price 5 cents per packet. The New Erysimum, however, is the best.

Double mixed, 4 packets 10 cents, 1 packet 3
 Douglasi, new yellow, pretty..... 5
 Mandarin, deep orange..... 5
 Golden West, large yellow, new..... 5

Mr. Park: For a border, few plants are as pretty as the California Poppies—Eschscholtzia. They yield such a mass of delicate foliage and bright yellow blooms. The flowers are on long, graceful stems, and produce all summer, and until the first of November.—Dora Wallace, Nance Co., Nebr.

Godetia in Variety.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Beautiful annuals that like a rather cool climate, and hence are popular in England and Northern Europe. The flowers are large, of shades from white to crimson, many blotched. Plants grow a foot high, and in a sandy soil bloom profusely. Special mixture of the finest sorts, four packets 10 cents, one packet 3 cents. See illustration.

NOTE—Godetias are amongst the most beautiful of hardy annuals for bedding purposes. They are of easy culture and form sturdy bushes, covered with large, handsome flowers of brilliant, delicate shades.—Gardening.

Eschscholtzia in Variety.

Special mixture, double and single, 4 pkts 10c 1 pkt 3c.

This is the State flower of the Golden State, California, chosen because a species with rich, golden flowers appears in great patches upon the landscape. The plants grow a foot high, are dense and silvery, the foliage being deeply cut. The large, cup-like flowers are borne above the foliage on long stems. The florist has developed many colors, and also double flowers, and as a border or low hedge the plants are very effective. Sow where you wish the plants to bloom, and thin to six inches apart. See illustration.

Single, white, rosy white, orange, carmine, deep orange, striped, separate, each color, per pkt..... 5
 Single mixed, 4 packets 10 cents, 1 packet..... 3
 Double, yellow, white, rose, and deep orange, each..... 5
 Rose Queen, fine rose..... 5
 Malta Cross, handsome yellow..... 5
 All sorts, single and double, mixed, 4 packets 10 cents, 1 packet..... 3

For a border, few plants are as pretty as the California Poppies—Eschscholtzia. They yield such a mass of delicate foliage and bright yellow blooms. The flowers are on long, graceful stems, and produce all summer, and until the first of November.—Dora Wallace, Nance Co., Nebr.

Erodium Gratum, a plant of the Geranium family, with hygrometrical seeds..... 5
Eupatorium, clusters of Ageratum-like flowers, white, fine for cutting..... 5
Euphorbia variegata, showy green foliage, with distinct white margin..... 5
 Heterophylla, 2 feet high; rich scarlet bracts surrounding the autumn bloom..... 5
Eutoca viscida, blue and white flowers, showy, and in great profusion; annuals, a foot high..... 5
Eucharidium, pretty annuals, deserving more attention; pink, dark rose, white, new rose, m'd..... 5
Fedia cornucopiae, a little Valerian-like annual rarely seen; flowers dark rose, in clusters... 5

Fenzlia dianthiflora, a profuse-blooming annual with rose, white and pink flowers; m'd..... 5
Feverfew, grows 1½ feet high, with double white flowers in profusion..... 5
Gamolepis Tagetes, a yellow-flowered annual..... 5
Grammanthes gentianoides, a very dwarf annual; flowers yellow, marked red..... 5
Guara Lindheimeri, a tall annual, with long spikes of pretty white bloom..... 5
Glauceum corniculatum, a graceful, silver-foliaged annual, with red bloom..... 5
Gerardia hybrida, a Pentstemon-like perennial, blooming the first year..... 5

Gaillardia, Single and Double.

Special mixture, all varieties, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: Why is it we so seldom see the Gaillardias growing in flower lovers' gardens? Surely, here is a plant that gives as satisfactory results as any flower that grows. It begins blooming so early, and if we only keep the faded flowers from forming seeds, we can cut a handful every day from early spring until after late frosts. They hold their bright red and yellow flowers on stiff stems that are fine for cutting, well above the foliage, and are showy as single specimens or challenge our admiration when grouped in masses. Dry weather does not affect them as it does most flowering plants, and the individual blooms last for several days.—Ida A. Cope, Santa Clara Co., Calif., Nov. 12, 1903.

Gilias in Variety.

Complete mixture, 4 packets 10 cents, 1 packet 3 cents.

The Gilias are graceful and beautiful border and edging plants of easy culture. The flowers are in clusters, are mostly white and shades of red and blue, though some show yellow variegations. Sow the seeds either in spring or fall, where the plants are to bloom. They bloom freely and continually until after severe frosts.

Achilleaefolia, blue, white and rose, mixed.....	5
Capitata, grows 15 inches high, and appears well in masses; blue and white, mixed.....	5
Dichotoma, new; a very free-blooming sort, with lovely white flowers.....	5
Lacinata, Liniflora, Minima and Nivalis, separate or mixed.....	5
Tricolor, white, violet and rose, separate or mixed (See engraving).....	5
Tricolor nana compacta, very dwarf, dense, and profuse blooming; one of the best for edgings.....	5
Complete mixture of the above sorts, 4 packets 10 cents, 1 packet.....	3

Helianthus-Sunflower.

Complete mixture, 4 packets 10 cents, 1 packet 3 cents.

The Sunflowers are large, coarse plants, and some varieties bear enormous flowers. They are, therefore, among the most showy of garden flowers, and appear well in groups or borders in the background, also as hedges or screens. Their free culture is said to promote the health of a miasmatic place, while their large, cheerful flowers, facing the sun, dispel gloom and are a happy attraction. The new varieties of *H. Cucumerifolius* are free-blooming garden plants, and the blooms are fine for corsage flowers. All are of easy culture, and can be sown as soon as the ground can be worked in spring.

Bismarckianus, grows six feet tall, and bears huge flowers.....	5
Californicus, fl. pl., large double flowers.....	5
Globosus Fistulosa, fl. pl., 5 feet high; very large, full-double flowers; one of the best.....	5
Goldleaf, seven feet high; leaves blotched with gold and creamy white.....	5
Nanus, dwarf, double, 3 feet high.....	5
Nanus, dwarf, variegated foliage, single flower.....	5
Oculatus viridis, very double; green centre, fine.....	5
Uniflorus, eight to ten feet; very large, single flowers.....	5
Primrose-colored, 6 feet high; creamy yellow flowers.....	5
Cucumerifolius, small single flower; bushy plant 4 feet high.....	5
Stella, a hybrid of the above; flowers golden yellow, the petals long and the centre small and dark.....	5
Orion, similar to Stella, but with rolled petals, like a Cactus Dahlia.....	5
Diadem, like Stella, but with light citron petals and dark centre.....	5
The flowers of the new Hybrid Sunflower are all borne on long stems, and are fine for cutting.	

Hebenstreitia Comosa.

Price 4 packets 10 cents, 1 packet 3 cents.

From South Africa we have a novelty under the above name, which might be properly termed "African Mignonette." The plant grows eighteen inches high, and produces numerous spikes of curiously formed flowers, as shown in the engraving, the ground color white, upon which is laid blotches of bright orange scarlet. These spikes of bloom are exquisitely scented, and excellent for use in bouquets. The plant is successfully treated as a half hardy annual, and the seeds may be sown in a sheltered garden bed when the apple is in bloom. As yet the seeds are mostly sold in this country at 25 cents per packet, but I have been able to secure a lot of choice seeds which I offer at a popular price, four packets 10 cents, one packet 3 cents. The plant is worthy of a trial.

A Rare Sweet-scented Annual.—A rare annual flower has come to light, which, if we mistake not, will be sought after in the future. It bears the terrible name of Hebenstreitia Comosa. It is pretty in the daytime, but on a warm summer evening a nutty scent floats over the garden, it comes from the Hebenstreitia, and many will agree with the writer that a mingling of perfumes distilled from Mignonette, Rose, and Virginian Stock, and such a fragrant flower as the Hebenstreitia gives a new joy to the garden when the flowers are in darkness. A whiff of Hebenstreitia perfume is delicious. The flowers are on a slender spike, and have just the dull shade of white that even the best Mignonettes possess. The seeds may be sown outdoors in April.—Viator in the Garden.

Hibiscus, Park's Giant Primrose.

4 packets 10 cents, 1 packet 3 cents.

An easily grown and very beautiful and showy flower is the New Giant Primrose Hibiscus. Started early the plants will bloom well the first season, and if kept over and planted out the second season, will form elegant, branching trees, ten or twelve feet high, every branch swaying lovely Primrose-yellow flowers of enormous size, opening fresh every day throughout the season. Patrons who have tried this grand flower report their success and pleasure with it in the highest terms, and I believe it will delight all who try it.

Mr. Park: I planted one packet of your New Giant Hibiscus in the spring and got five plants. One grew seven feet two inches high, and now has fourteen branches covered with buds and bloom. The flowers are beautiful primrose yellow with a purple eye, and measure seven inches in diameter.—B. S. Bowers, Lancaster Co., Pa., Nov. 7, 1903.

Mr. Park: The first year my Giant Primrose Hibiscus did not do well, but I kept the plants in the house over winter and bedded them out in the spring, giving them a rich, sunny bed, and copious supplies of water. They grew rapidly, threw out a great many branches, and were in bloom the latter part of July. Some of the flowers

measured eight and one-half inches across, and, by actual measurement I find one of them ten feet and eight inches high, with sixteen branches from three to five feet in length.—I. P. Martine, Jefferson Co., Ky., Oct. 7, 1903.

Kochia-Belvidere Cypress.

4 packets 10 cents, 1 packet 3 cents.

This is an old, but rare foliage plant, easily and quickly grown from seeds. As a pot plant, or for a low screen or foliage border it is very desirable. I have been fortunate in securing a lot of the seeds, which I can offer at my usual popular price, and I hope my patrons will give the plant a trial. My artist has well represented it in the wood engraving. The dense, feathery foliage is useful for room or table decoration, when cut; or if grown in pots the plants can be used from time to time for that purpose, as desired. When well grown the plants rival the choice kinds of Asparagus, while they are easier grown.

NOTE—Few more charming plants have been added to the gardens of recent years than the half-hardy foliated annual which bears the above name of Kochia Scoparia. It is, indeed, a remarkable plant, and is as easy to grow as the commonest of annuals. All that is needed is the same treatment as an Aster, and if planted out at the end of May, it will grow two feet higher, and present throughout the summer mass of graceful greenery; nor is the summer beauty of the Kochia Scoparia its only feature, because in the autumn the foliage assumes a pleasing shade of crimson. Last year I tried the experiment of lifting and potting plants with great success, as for weeks they were highly effective in a conservatory. A first-class certificate was given to Kochia Scoparia when it was exhibited before the Royal Horticultural Society, and it was richly deserving, as this is a plant no garden should be without.—G. H. H., in the English Garden, May 9, 1903.

Lavatera Trimestris.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

These are beautiful, showy annuals, not unlike dwarf Hollyhocks. Plants grow three feet high, branch freely, and bloom all summer. They are fine for hedges, or beds, and of the easiest culture. See eng.

- Impatiens glanduligera*, Giant Balsam; six feet high, crowned with clusters of showy red and white flowers; mixed, 4 pkts 10 cts, 1 pkt 3
- Sultan*, Zanzibar Balsam; easily grown from seeds; ever-blooming; fine for pots and garden beds; good winter bloomer. Bright rose, carmine, chemise, each 5 cts. Mixed, 4 pkts 10 cts, 1 pkt 3
- Jonopsidium acule*, charming miniature for a carpet about pot-plants, or for edging; known as Diamond Flower; 4 pkts 10 cts, 1 pkt..... 5
- Kaufussia amelloides*, a pretty annual, six inches high; Daisy-like; many sorts mixed..... 5
- Kenilworth Ivy*, a splendid basket plant, mixed 3
- Leptosyne Stillman*, new compact; pretty yellow bloom; very early flowering..... 3
- Leptosiphon*, very free-flowering, beautiful dwarf annuals; many varieties, mixed..... 3
- Linaria*, fine plants for beds and pots; many sorts, mixed..... 3
- Lupinus*, showy plants of easy culture; often 3 feet high; many sorts mixed..... 3
- Lychnis*, scarlet, rose and white flowers in profusion; fine mixed; all sorts; 4 pkts 10 cts, 1 pkt. 3
- Linum grandiflorum*, scarlet flowers, a fine annual, a foot high..... 3

Lobelia, Annual Varieties.

Complete mixture of all varieties and colors, 4 packets 10 cents, 1 packet 3 cents.

These are very graceful and beautiful flowering plants for out-door edgings and for indoor pots and baskets. Seedling plants begin to bloom in a few weeks after they are started, and bloom freely and continuously for several months, until exhausted. The flowers are of various shades of white, red and blue, often with a conspicuous eye, as shown in the engraving, and always bright, delicate and attractive. Started in mid-summer the plants are handsome for pots and baskets in winter, and in the sunny window of a cool room will bloom until spring. The seeds are small, and should be sown upon sifted, pressed soil in a window pot, and the plants cared for until well started.

Barnd's Perpetual, a very fine variety, compact in habit, and in bloom through the season; flowers dark blue with a distinct white eye. Fine for pots, baskets and edgings. 4 packets 10 cents, 1 packet 3

White Lady, new, large flowered white; very fine 5

Pumila alba, dwarf, compact, white 5

Pumila splendens, dark blue, with white eye, compact 5

Emperor William, light blue, compact 5

Royal purple, very fine blue, white eye 3

Crystal Palace, blue, for edgings 5

Kermesina, crimson-flowered 5

Prima Donna, velvet maroon 5

Pearl, white, with blue margin 5

Duplex, double, mostly true 5

Golden Queen, yellow band 5

Ramosa, red, white and blue, mx'd 3

All varieties mx'd, 4 pkts 10c, 1 pkt 3

Mr. Park: I am delighted with the three-cent packet of Lobelia seeds I received from you last spring. The plants are faultless. They are now in bloom and are perfect little beauties.—Mrs. A. E. D., Cooks Co., Texas.

Mr. Park: What can be prettier than a pot of Lobelias? Once started they will last for years. If cut back in the fall the new, fresh foliage and bright blue blossoms will be an attraction all winter, or placed in the cellar will start in the spring from self-sown seeds.—Mrs. C. Libby, Somerset Co., Maine, Nov. 16, 1903.

Marigold in Variety.

Complete mixture, 4 packets 10 cents, 1 packet 3 cents.

The Marigolds (*Tagetes*) are old fashioned flowers, but are not to be despised. There are few flowers brighter or more attractive. Even a child can start the plants, and they quickly come to bloom, and are a show of brown or golden flowers throughout the entire season, until after severe frosts. Every garden should contain a bed of these flowers. The Double African kinds are as showy as Dahlias, and more free-blooming. The French Marigolds are not so large, but are more delicate, and quite as attractive. The single bicolored dwarf varieties are now

fashionable, and are fine for edging and borders. A bed of Marigolds is very attractive.

African Marigold, double, (see engraving above), orange, sulphur, quilled yellow, (Eldorado), and quilled sulphur, each 5

Tall African mixed, 4 pkts 10 cts, 1 pkt 3

Dwarf African mx'd, 4 pkts 10 cts, 1 pkt 3

French Marigold, orange, gold-margined, dark brown, striped, sulphur, grandiflora, tall or dwarf 5

Tall French mixed, 4 pkts 10 cts, 1 pkt 3

Dwarf French mx'd, 4 pkts 10 cts, 1 pkt 3

French Liliput Marigold, small flowered, brown, gold and sulphur, separate or mixed 5

French Dwarf Single, (see engraving), Legion of Honor, gold margined, yellow, sulphur and striped, each 5

French Dwarf Single mixed, 4 packets 10 cents, 1 packet 3

Tagetes signata pumila, beautiful edging, nine inches high; dense, fern-leaved, and smothered with golden flowers, 4 packets 10 cents, 1 packet... 3

Complete mixture, French, African, Single and Signata, carefully proportioned, containing seeds of all the sorts, price 4 packets 10 cents, 1 packet 3

FRENCH MARIGOLD.

Mr. Park: Our old-fashioned African Marigolds are still bright and cheerful. We have never found any other flowers which would stand as much abuse and neglect, and still bloom and brighten.—Josephine O'Mealey, Lucas County, Ohio, November 25, 1903.

Mignonette, Sweet, in Variety.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Sweet Mignonette seeds! Sweet Mignonette (sweet little darling); it is most appropriately named. The flower garden is incomplete without this sweet, hardy annual.—Miss M., Woods Co., Okla., Nov. 1903.

Mr. Park: My Mignonette from your seeds was splendid. The plants bloomed all summer, making the whole yard fragrant. I would recommend it to every one, it is so easy to grow and gives a fragrance to a bouquet that it seems to me no other flower can do. I advise the sisters to plant it right by their kitchen window, and enjoy its perfume while at work.—Mrs. B. Brown, Hillsboro Co., N. H., Nov. 3, 1903.

Matricaria--Golden Feather.

Special mixture, white and golden, 4 packets 10c, 1 packet 3c.

I offer two beautiful varieties of Golden Feather, one bearing white flowers and the other golden ones. The plants have lovely foliage, which shows nicely early in the season, but later the double flowers are borne in such profusion that a plant appears as a globe of bloom, the foliage being hidden almost entirely by the profusion of flowers. Fine for borders, edgings or beds. Give the plants a rich soil and sunny situation.

Golden Ball, double golden... 5 | Snow Ball, double white... 3
Special mixture of both, 4 packets 10 cents, 1 packet 3

Mr. Park: The plants that I raised from your Matricaria seeds are lovely. The flowers are very double and pure white. The foliage is a pretty shade of green, with finely cut leaves. They are always the admiration and praise of all who see them.—Mrs. E. A. Perry, Iowa County, Wisconsin.

Mimulus--Monkey Flower.

Special mixture, all sorts, 4 packets 10 cents, 1 packet 3 cents.

Pretty plants for pots or baskets; plants grow six or eight inches high, and are covered with showy flowers, many spotted and blotched. They like sandy, moist soil and partial shade.

CHOICE GLOXINIA-FLOWERED MIMULUS.

Pardinus, tigred and spotted	5	Pardinus grandiflorus, very large, richly spotted flowers, best quality	5
Duplex, finest hose-in-hose	5	Grandiflorus, Fire King, very bright	5
Albus, white-grounded	5	Grandiflorus in fine mixture	5
Albus duplex, hose-in-hose	5	Complete sp'el mixture of all Gloxinia-flowered Mimulus, 4 pkts 10c, 1 pkt. 3	3
Nanus roseus, superb, new sort	5		
Grandiflorus duplex, (see engraving)	5		

OTHER FINE KINDS OF MIMULUS.

Cardinalis, orange	5	Cupreus, Bismark, dwarf,	5	Quinquevulnerus, mixed	5
Grandiflorus, red	5	Purplish carmine	5	Maximus, large	5
Pictus, red and gold	5	Moschata, musk	5	Duplex, hose-in-hose	5
Cupreus duplex	5	Compacta, dwarf	5	Roezli, golden yellow	5

Complete special mixtures of all the above Gloxinia-flowered and Miscellaneous Mimulus, 4 pkts 10c, 1 pkt 3 cts.

Malope grandiflora, hardy annuals, one foot high; showy, cupped flowers, white, purple and rose... 3
Malva crispa, 6 feet tall, crisp leaves; showy... 3
Mauritiana, rose, veined

Miniata, scarlet, very pretty

Moschata, perennial, rose and white, mixed

Complete mixture, all sorts, 4 pkts 10 cents, 1 pkt 3

Matthiola bicornis, sweet evening Stock

Martyna fragrans, red with yellow throat; Lutea, orange-yellow; Proboscidea, lilac; each... 6
 All varieties in special mixture, four packets 10 cents, one packet

Mesembryanthemum, Ice Plant, Dew Plant, and Tricolor, separate or mixed

Mimosa pudica, Sensitive Plant

Motucella spinosa, large, curious calyx

Myosotis, Forget-me-not.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Forget-me-not is a charming little flower, modest, delicate, exquisite in color, graceful and fragrant. No intelligent person can help admiring it. With some its admiration is almost a passion. Lately it has been greatly improved, and the plants now grow so compactly and bloom so freely that they appear as a globe of soft, rich color. Started in spring the plants bloom in autumn; started in August, they bloom early the next season. They like a moist, rather shady situation.

Alpestris, biennial, of compact habit, and bears a mass of large flowers in dense clusters. Blue, white, indigo, rose and striped, each	5
The colors mixed, 4 packets 10 cents, 1 packet	3
Alpestris elegantissima, handsome, semi-dwarf sort of pyramidal habit, fine for garden or window, mixed	5
Alpestris variegatis, golden foliage	5
Victoria, one of the best for pot culture	5
Nana compacta, blue, white and rose; superb; separate or mixed	5
Stricta, erect, pillar-like racemes of bloom; highly recommended; royal blue, rose and white, each	5
Stricta in special mixture, 4 pkts 10 cts, 1 pkt	3
Rupicola, Love Star, a beautiful, large-flowered dwarf sort, excellent for pots; very free-blooming; blue; see engraving	5

Palustris semperflorens, ever-blooming marsh Forget-me-not	5
Semperflorens grandiflora, Water-witch; new, large-flowered	5
Azorica, fine for pots. Blue and white, separate or mixed	5
Oblongata perfecta, new, large-flowered, very long blooming; splendid	5
Dissitiflora, perennial; large-flowered, true, white, blue and perfection blue, separate or mixed, each	5
Myosotis, Forget-me-not, in complete special mixture, all varieties, 4 packets 10 cents, 1 packet	3

Mr. Park: Forget-me-nots were the flowers so dearly loved in my childhood home, and gathered by the armful, as they grew wild in that country. I never thought that they would grow successfully in this western soil and climate, but several years ago I got a packet of seeds from you and sowed under a Cherry tree. The plants soon appeared, and they have bloomed every year until last spring, when "The man with the hoe" took them for weeds. I shall try again, for although they do not have quite the lovely fragrance as those at the old home, they are so dear to the heart.—Nina Boysen, Mills County, Iowa, November 4, 1903.

Mirabilis, Four-O-Clock.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

An old, but favorite annual. Plants grow to dense, globular bushes a foot to three feet high, and are covered every evening during summer with large, delicate, beautiful flowers, which make the garden air redolent with perfume. The dwarf varieties are especially handsome, and have blotched foliage, which is very ornamental.

Tall white, white and yellow, white and red, yellow, rose, red and yellow, crimson, violet, lilac, lilac and white, and tricolor, each	5
Tall varieties mixed, 4 packets 10 cents, 1 packet	3
Dwarf white, yellow and red, white and red, yellow	5
Dwarf varieties mixed, 4 packets 10 cents, 1 packet	3

Complete mixture, tall and dwarf, in all colors, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: Last year my Mirabilis were so nice that I took them up and planted in a box. I keep them in a cool room, watering sparingly. In the spring I sprouted and set them out with the Dahlias. In three weeks they were a mass of bloom, and how the children enjoyed their long flowering term!—Mrs. H. Grand F's Co., S.D.

Nemesia, New Hybrids.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Nemesia Hybrids are beautiful annuals, excellent as pot plants, and showy in the garden. The plants grow a foot high, are of dense, compact habit, and bloom very freely throughout the season. The hybrids of N. Strumosa, a new species from S. Africa, are especially handsome, and greatly admired in Europe.

Floribunda compacta alba	5
Compacta bicolor, blue and white	5
Compacta cerulea, blue	5
Strumosa Suttoni, new, large-flowered, mixed	5

Strumosa nana compacta, new hybrids, varieties mixed, 4 packets 10 cents, 1 packet	3
Complete special mixture of all varieties, 4 packets 10 cents, 1 packet	3

NOTE—Nemesia Strumosa bears flowers of various shades from white to crimson, and seedlings started in March begin to bloom in June and continue until late in the autumn. Bed out in May.—Book of Gardening.

Nemophila, hardy annual a foot high; flowers white, red and blue, often spotted; sow in spring or fall; mixed, 4 packets 10 cents, 1 packet	3
Nieverbergia gracilis, a profuse-blooming plant, blooming in winter in pots when sown early in spring; lilac	3

Nigella damascena, growing a foot high, bearing double white and blue flowers; known as Love in a Mist; mixed, 4 pkts 10 cts, 1 pkt.	3
Nolana, a little trailing plant with blue and white flowers; fine for pots or baskets; mixed colors	3

Nasturtium---Tom Thumb.

Dwarf Nasturtium, special mixture, 4 packets 10 cents, 1 packet 3 cents.

These are bright, beautiful and very fragrant annual flowers, desirable either for beds or pots. Anyone can grow the plants from seeds, and they thrive in any soil or situation. They grow a foot high, and are a mass of splendid flowers throughout the summer and autumn, especially when kept from seeding. White, scarlet, crimson, yellow and spotted are the best for bedding, and I can supply these separately for that purpose at 15 cents an ounce. My special mixture contains all the colors, carefully proportioned, and the plants from it make a fine bed.

Yellow and Scarlet.....	5	White.....	5
Crystal Palace Gem.....	5	Crimson.....	5
Empress of India.....	5	Scarlet.....	5
Yellow Marbled Scarlet....	5	Yellow.....	5
Scheuerianum coccineum...	5	Spotted.....	5
Golden King.....	5	Rose.....	5
Lady Bird.....	5	Chameleon.....	5
King of Tom Thumbs.....	5	Coeruleum.....	5
Coccineum fol. aureis.....	5	Beauty.....	5
Special mixture, oz: 15 cents, 4 pkts 10 cents, 1 pkt. 3			

Mr. Park: It seems to me that everyone would cultivate Nasturtiums, for they respond so abundantly. Their gay, bright blooms are so varied in their markings that one never tires of them.—Mrs. H. A. S., Green Co., Ill.

Mr. Park: Nasturtiums are my favorite flowers, and without them I should feel lost, and hardly know how to get along through the summer. Park's Nasturtiums are to me a "thing of beauty and a joy"—until the season of flowers is over. Be sure that I shall order more of you next spring, because I surely get more for my money from you, than from any other place I have ever tried.—Mrs. Helen Jenney, Sullivan Co., N. H., November 28, 1903.

Nycterinia, Fragrant.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Beautiful annuals, becoming a clustered mass of sweet-scented flowers; showy, easily grown, and deserve general cultivation.

Capensis, white, and Selaginoides, lilac, each..... 5
Both kinds in special mixture, 4 pkts 10 cents, 1 pkt. 3

Mr. Park: Nycterinia seems to be little known, but I have found it one of the most satisfactory annuals I have ever grown. It is not a showy plant, but is chaste, delicate and beautiful. There are two species, N. Selaginoides and N. Capensis. The former is very delicate and graceful in growth, and is covered with heads of star-shaped flowers, shading from lilac to white, and with a pungent aromatic odor. The petals shine in the sunlight like dainty bits of porcelain. N. Capensis is a coarse growth, and the flowers of this species open only at night. They are much larger than those of N. Selaginoides, are borne in spikes, and are pure white in color. But it is of the fragrance of this variety that I particularly wish to speak. It is rich, rare and distinct—entirely different from anything that I know of. The seeds of Nycterinia are fine, but germinate readily. We sowed early in the house and transplanted when the plants were large enough, to a sandy, but well enriched soil, and a sunny location. Our bed has bloomed profusely all summer, and at this writing (Nov. 1st), they are still blooming bravely in this cold climate, in spite of the fact that we have had several heavy frosts.—Allen L. Truax, Day Co., S. Dakota.

Nicotiana, Ornamental.

Complete special mixture, 4 packets 10 cts., 1 packet 3 cts.

Valuable plants for foliage and flowers. Some make grand beds upon the lawn, both foliage and flowers being attractive. All are of easy culture. Give the plants a rich, moist soil and a warm, sunny exposure. For general culture N. affinis is best.

Atropurpurea grandiflora, very large, semi-tropical leaves, and clusters of rosy flowers; 6 feet high and rather coarse, but useful for a clump in the back-ground.....	6
Colossea, very showy as a semi-tropical garden plant; five feet high with immense foliage.....	6
Macrophylla gigantea, six feet high, bearing enormous leaves, and trusses of tubular flowers; appears well in the back-ground, or among shrubbery.....	6
Tobacum fol. variegatis, a small percentage bears foliage blotched with white; very handsome.....	6
Affinis, white, blooming freely in the evening throughout the summer; delightfully fragrant; blooms well in the winter when cut back and potted early in autumn; 4 packets 10 cents, 1 packet.....	3
Sylvestris, tall-growing, with fragrant, drooping flowers that remain open throughout the day; 4 packets 10 cents, 1 packet.....	3
Acuminata, white, fragrant.....	3
Complete special mixture of all the sorts, 4 packets 10 cents, 1 packet.....	3

Mr. Park: Nicotiana affinis are simply beautiful—large, hardy bushes entirely covered with white blooms, and oh, the fragrance!—Mrs. J. W. Dunlap, Lucas County, Ohio, November 1903.

Oxalis, valuable plants for pots and baskets, and useful in bedding. Floribunda, mixed; Rosea, mixed; Sensitiva, white-leaved; Tropaeoloides, brown foliage, yellow bloom, for beds; each..... 5
All kinds mixed, 4 packets 10 cents, 1 packet..... 3

Euthera. Evening Primrose; large yellow, white and rose flowers opening in the evening. Acaulis, Lamarckiana, Macrantha, Fraseri, Johnsoni, etc., separate..... 5
Special mixture of all sorts, 4 pkts 10 cents, 1 pkt..... 3

Pansy, Roemer's Giant Prize.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Pansy is undoubtedly the most popular herbaceous perennial flower in cultivation, and it deserves all the praise it receives. From earliest spring until the snows of winter appear it delights us with its large, bright, delicate-textured, fragrant flowers in all the shades of the rainbow, and in the most striking and beautiful variegations as well as self colors. The popularity of the Pansy has led many florists to give it special attention, and this competition has wonderfully improved it, so that the flowers of to-day far surpass in size and gorgeous coloring those of a decade ago. After a trial of the high-class strains I have decided that there is nothing in Pansies that can surpass Roemer's Giant Prize varieties. Mr. Roemer is a German who gives his great specialty, the Pansy, his best thought and care, and those who plant his seeds can depend upon getting something extra. I have pleasure in offering my friends seeds direct from his hand. Pansy seeds start in from ten to fifteen days, and plants begin to bloom in a few weeks. If not exhausted the first year, they will bloom the second and often the third season. The plants like a partial shade and moist but well-drained soil. Plants started in mid-summer make a spring bed that rivals the Dutch bulbs in their gorgeous beauty. I offer Roemer's seeds in mixed shades, but can supply almost any variety in cultivation, especially the choice new ones. The diversity is so great in Pansies that I believe the mixture of shades preferable in buying, and I therefore confidently recommend them.

Only 25 cents for 10 packets of Roemer's Giant Prize Pansies—one packet of each of the following:

White in variety, embracing pure white, white with eye, white slightly shaded and tinted, white with spots, etc., 4 pkts 10 cts., 1 pkt..... 3

Red in variety, embracing bright red, rosy red, rich scarlet, and red with tints and shadings, etc., 4 pkts 10 cts., 1 pkt..... 3

Blue in variety, embracing dark blue, dark violet, rich purple, and blue margined, shaded and blotched, 4 pkts 10 cts., 1 pkt..... 3

Black in variety, embracing coal black, black blue, dark violet blue, jet black, purplish black, 4 pkts 10 cts., 1 pkt..... 3

Yellow in variety, embracing rich pure yellow, golden yellow, yellow with eye, yellow with spots, yellow shaded, 4 pkts 10 cts., 1 pkt..... 3

Striped and Flaked, embracing a great variety of colors, all distinctly striped, flaked and splashed, 4 pkts 10 cts., 1 pkt..... 3

Complete mixture of all shades, colors and markings, carefully prepared, 4 pkts 10 cts., 1 pkt..... 3

Blotched and Spotted, embracing pure ground colors, with blotches and spots showing in peculiar and striking contrast; marvelous in size, form and odd markings; 4 pkts 10 cts., 1 pkt..... 3

Shaded and Margined, embracing all of the leading colors margined and shaded and rayed in superb and charming contrast; many light and beautiful tints as well as deeper and richer shades; 4 pkts 10 cts., 1 pkt..... 3

Azure in variety, embracing lovely new shades of light blue, azure, ultramarine and lavender blue, some strikingly marked and tinted; 4 pkts 10 cts., 1 pkt..... 3

Mixed colors, embracing a variety of superb shades and markings not included in above offerings, as plain and fancy faces of orange, bronze, peacock, lilac, violet, etc.; many rare varieties mixed; 4 pkts 10 cts., 1 pkt..... 3

Mr. Park: Our Pansy bed has been beautiful all summer, and I advise my friends to buy your Roemer's Prize Pansies if they wish a fine display. Many flowers were much larger than a silver dollar, and the colors and markings were rich and striking. I made many bouquets of them for the sick and for friends.—Mrs. Wm. Sallyman, Ogle Co., Ill., Nov. 3, 1903.

Mr. Park: The flowers from the packet of choice mixed Pansy seeds you sent me last spring were just grand. I took them to the Ottawa and West Kent Fair, at Berlin, Mich., and got first premium on them.—Mrs. Josephine Cole, Ottawa Co., Mich., Oct. 25, 1903.

Mr. Park: I never found anything equal to your Roemer's Prize Pansies for a show of flowers. Such beautiful colors and markings! I tried to count the different varieties and shades, but had to give it up, as there were so many—all different. I, for one, will always recommend Roemer's Pansies.—Mrs. Chas. W. Cole, Dawson Co., Neb., Nov. 3, 1903.

Mr. Park: I never saw larger Pansies or brighter colors anywhere than your Roemer's Prize. We have bought seeds of you for fifteen years, and have always had good luck with them.—Mrs. R. W. King, Poweshiek Co., Ia., Nov. 12, 1903.

Superb Named Giant Pansies,

Adonis, Royal Purple, Bright Golden Yellow, Bronze Shades, Black Blue, Emp. William, Fire King, Golden Queen, King of Blacks, Light Blue, Lord Beaconsfield, Pres. McKinley, Canary Bird, Prince Bismarck, Quadricolor, Rosy Lilac, Snow Queen, Striped Perfection, Violet Blue, Candidissima, Golden Gem, Marbled Yellow, White with eye, Yellow with eye, Ruby Red, Cassiers Giant, Hortense Rose, Giant Spotted, Masterpiece, Freya, Snowflake, Peacock, Emperor Frederick, Fairy Queen, Mourning Bride, Pres. Carnot, Purple Violet, Red Riding Hood, Psyche, Victoria, Wallflower Brown, Violet margined White, Gold-margined, Meteor, Mahogany color, Cardinal, Atrosanguinea, Giant Parisian, Marbled Yellow and Marbled White, each 5 cents per packet.

Each, per Packet 5 Cents, or in Complete Mixture with others, 4 Pkts 10 Cts., 1 Pkt 3 Cts.

Papaver, Annual Poppies.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

PARK'S DOUBLE-FLOWERING GIANT POPPY.

GENERAL LIST OF CHOICE ANNUAL POPPIES.

Arenarium, large scarlet flowers; lacinated foliage	5
Lævigatum, flowers 4 inches across; brilliant dark scarlet with black spots; very free-blooming	5
Glaucum, Tulip Poppy, vivid scarlet flowers, Tulip-shaped, blooming abundantly for a month or more; does well down in autumn; 4 packets 10 cents, 1 packet	3
Shirley Poppy, single flowers of various colors and variegations; yellow anthers; one of the finest; my strain of these is not surpassed; mixed colors, 4 packets 10 cents, 1 packet	3
Pavonium grandiflorum, new, large scarlet flowers with jet black zone	5
Rhœas, double, a dwarf, free-blooming Poppy; flowers very double and of many colors; mixed, 4 pkts 10c, 1 pkt	5
Murcelli, double, white and red, beautifully striped, mixed	5
Japanese Pompon, fine double flowers in rich colors; mixed	5
Carnation-flowered, tall, double, 18 varieties, separate or mixed, 4 packets 10 cents, 1 packet	3
Pæony-flowered, tall, double, 18 varieties, separate or mixed, 4 packets 10 cents, 1 packet	3
Giganteum, a robust sort, fine	5
Carnation-flowered, dwarf, mixed	3
Pæony-flowered, dwarf, mixed	5
Ranunculus-flowered, dwarf, mixed	3
Complete special mixture of all sorts and colors, 4 packets 10 cents, 1 packet	3

Mr. Park: One packet of your mixed Poppy seeds made a long row of the largest and brightest flowers that I ever saw in this place. The blooms were pencilled, mottled and fluted, and of the most exquisite shades of all the colors. It was enough to drive the blues away from any one to look at them. And all for three little cents! I call it my cheerful bed.—O. Church, Wayne County, New York, October 31, 1903.

Pentstemon, Gloxinia-Flowered.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The New Hybrid Pentstemons have large, showy, Gloxinia-like flowers, of all shades, from rose to scarlet, from white to rose and lilac, and from lavender to blue and violet. Plants grow two to three feet high, and bloom throughout the autumn. Give them a sunny bed.

Dark Red and Scarlet shades, mixed... 5 Blue and Violet shades, mixed... 5
White and light shades, mixed... 5 Complete mixture, 4 pkts 10c, 1 pkt... 3

NOTE—The Pentstemon family is best known by the beautiful hybrid kinds, which flower so gaily in the summer and autumn, furnishing material for cutting, and gladdening the garden with color. Large beds may be filled with Pentstemons alone with excellent results, or group it in the borders, or any spot, indeed, that needs color. A wonderful range of hues may be found in this race, varying from self-blood crimson to pure white.—The Century Book of Gardening.

Perilla, annual foliage plant, a foot high, red, fluted and fringed foliage; mixed	3
Palafoxia Hookeriana, annual; rose bloom	3
Physittis Franchetii, a handsome herbaceous perennial bearing wreathes of edible fruit with vermilion balloon-like covering, 4 pkts 10c, 1 pkt.	3
Alkekengi, smaller than the above	5
Both varieties in mixture, 4 pkts 10 cts, 1 pkt.	3

Phacelia, handsome blue-flowered annuals; 1 ft.; showy, of easy culture; good for bees; oz. 10c, pkt	3
Podolepis, pretty composite annual, a foot high, with white, rose and yellow flowers	3
Pyrethrum, Golden Feathered, golden foliage	3
Selaginoides, yellow, serrated foliage	3
Golden Gem, double white flowers	3
All varieties mixed, 4 packets 10 cents, 1 packet	3

Petunia, Single and Double.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Perhaps there is not another seedling flower better adapted for general cultivation than the Petunia. It is certainly without a rival, and the various classes are adapted for beds, for show flowers, or for edgings and pots, their culture being of the simplest character, and their free and continuous blooming quality recommending them to all who grow flowers. The improved Giant-flowered Plain and Fringed Petunias I offer bear marvelous flowers in size, rich and varied colors and markings, and my strain of these cannot be surpassed. The Double Petunias are of giant size, and show all the known Petunia colors and variegations. My seeds of these Giant Petunias, both Single and Double, were saved from carefully hybridized flowers. The Bedding and Edging Petunias have no equal as bedding plants. They make a magnificent display the whole season long, far outrivaling older sorts.

Large-flowered Single and Double Petunias (Ruffled Giants).

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

These are of enormous size, with frilled and fluted, and some with fringed margin, solid colors, veined and variegated, tigré and blotched: handsome.

Single Petunia Plain.	Single Petunia Fringed.	Double Petunias.
Pure White, very large.....	5 Fimbriata alba, white.....	5 White.....
Brilliant Rose, rich color.....	5 Aurora, bright rose, veined.....	5 Violet.....

Plain varieties in splendid mixture, 4 pkts 10 cts., 1 pkt.....	3 10 cts., 1 pkt.....	3 Petunias, Single and Double in mixture, 4 pkts, 10 cts., 1 pkt.....

NOTE.—All of my seeds of Single and Double Large-flowered Petunias were saved only from selected pot plants, and from flowers artificially fecundated. They are truly "ruffled giants," and their glowing colors and odd markings are wonderful. They are very superior and very fine.

Mr. Park: I had a bed of your Ruffled Giant Petunias, and everybody admired them very much. They were the largest and prettiest we ever saw. I potted some in the fall and they bloomed till after Thanksgiving.—Mrs. G. F. Runnels, Fremont Co., Colo., Nov. 26, 1903.

Mr. Park: Your double and single Giant Petunias were beautiful. I had double ones that surpassed description. Some were as large as a tea-cup. The single ones were also giants. They were, without exaggeration, the loveliest Petunias I ever saw, and others said the same.—Mrs. A. H. Wilson, Claire Co., Wis., Nov. 12, 1903.

DOUBLE DWARF EDGING PETUNIA.

varied, and the colors and markings so rich that they are

Hybrid Bedding Petunias.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

These are exceedingly free-blooming. The plants or arch and soon cover the bed with rich, fragrant flowers, continuing so throughout the season, if not exhausted seeding. The flowers are not large, but show great diversity in colors, and elegant contrast in variegation. They are among the most useful and beautiful of our bedding annuals.

Pure White.....	5 Blotched.....	5
Carmine, white throat.....	5 Rose, white throat.....	5
Yellow-throated.....	5 Dark Velvet-red.....	5
Venosa, veined.....	5 Mixed, 4 pkts 10c, 1 pkt.....	3
Bedding Petunias, Finest Double, first quality, 4 packets 10 cents, 1 packet.....		3

Mr. Park: I have raised Bedding Petunias from your mixture, and find them not only beautiful, but a perpetual surprise. The flowers were so numerous and greatly admired.—Mrs. S. Boland, Livingston Co., Mo.

The New and Beautiful Dwarf Edging Petunias.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

These are of compact growth, and excellent for pots and beds. The flowers are not as large as the robust kinds, but are very freely produced, and are of the leading colors. They are always satisfactory.

Brilliant, rosy carmine.....	5	Stellaris, rosy strip, white	5	Snowball, pure white.....	5	Multiflora, striped.....	5
These fine dwarf sorts mixed, 4 packets 10 cts., 1 packet.....	3						
Edging Petunias, Finest Double, (see engraving) first quality, 4 packets 10 cents, 1 packet.....	3						

Phlox Drummondii, Improved.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Phlox Drummondii is one of the most desirable annual flowers in cultivation. Seedling plants begin to bloom in a few weeks after starting, and continue to increase in size and floriferousness until cut down by the severe frosts of winter. The flowers are in large clusters, are bright and varied in color, and exceedingly showy, while their fragrance scents the entire garden during the summer evenings. As bedding plants, as well as for pots and edgings, the various races of Phlox Drummondii deserve a prominent place.

The great improvements in form and color recently brought about by enthusiastic florists make the varieties now offered far superior to those grown some years ago. Seeds start in from eight to ten days, and the plants should be set six or eight inches apart. Pinch out the centre early, if you wish dwarf, branching plants. They grow about a foot high. I offer first-class seeds of the following splendid races:

New Large-flowered or Grandiflora Phlox.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

This race has very large, showy flowers in huge clusters, and the diversity of colors and variegations is nameless. The plants are robust, bloom abundantly, and make a grand display in a group or bed. My collection of this fine Phlox is complete, and all the sorts are included in my special mixture.

Alba, pure white.....	5	Carminea albo-oculata.....	5	Isabellina, yellow.....	5	Rosea.....	5
Oculata.....	5	Carnea, new, splendid	5	Kermesina striata.....	5	Albo-oculata.....	5
Atropurpurea, purple.....	5	Chamois rose.....	5	Splendens, vivid crimson.....	5	Striata, very fine.....	5
Albo-oculata.....	5	Coccinea, scarlet.....	5	Leopoldi, very fine.....	5	Stellata splendens.....	5
Striata.....	5	Striata, beautiful.....	5	Quadriflor (picta) rosea.....	5	Carminea, Rosea, each.....	5
Brilliant.....	5	Cerulea striata.....	5	Violacea, fine.....	5	Striped mixed.....	5

Complete special mixture of all the above sorts, 4 packets 10 cents, 1 packet..... 3

New Brilliant-flowered or Hortensiaeflora Phlox.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

These are not so large in the size of the individual flowers, but the clusters are very graceful and very abundant. For pots, as well as for showy beds, they are desirable, the plants being of dense growth, and the colors brilliant, varied and beautiful.

Rose.....	5	Chamois rose.....	5	Pink, white eye.....	5	Triumph.....	5
White.....	5	Cinnabar, scarlet.....	5	Purple.....	5	Violet, starred.....	5
Scarlet.....	5	Rose, carmine eye.....	5	Rose, white eye.....	5	Brilliant Scarlet.....	5

Hortensiaeflora Phlox in complete special mixture, 4 packets 10 cents, 1 packet..... 3

Cuspidate and Fringed Phlox

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

The flowers of this class have cut and fringed petals. They are much admired by some persons.

Alba, white.....	5	Purpurea, purple.....	5
Coccinea, scarlet.....	5	Rosea and Violacea, each.....	5
Blue, marbled.....	5	Salmon, salmon.....	5

Special mixture, Cuspidate and Fringed, 4 pkts 10c. 3

Compact Dwarf varieties, special mixture, all colors, 4 packets 10 cents, 1 packet..... 3

Fireball, dwarf, compact, forming a globular mass of bright scarlet bloom, 4 pkts 10 cts., 1 pkt..... 3

Snowball, similar to Fireball, but the flowers are pure white, 4 packets 10 cts., 1 packet..... 3

Complete special mixture, including all varieties described above, 4 pkts 10 cts., 1 pkt..... 3

Mr. Park: I got a paper of your Phlox grandiflora seeds in the spring, and I think every seed came up. The plants were in bloom in a short time, and were a perfect blaze of gorgeous colors. They were admired by all who saw them, and they are still in bloom.—Augusta Oldfield, McPherson Co., Kas., Nov. 12, 1903.

Mr. Park: The Hortensiaeflora Phlox I purchased from you was beautiful. I had every color, and it grew in large clusters. The neighbors all say it was the prettiest they had ever seen. I will be sure to order my seeds of you next spring.—Mrs. E. L. Brawley, Henrico Co., Va., Nov. 16, 1903.

Mr. Park: I don't believe any prettier sight was ever beheld than my bed of Annual Phlox, grown from one three-cent packet of your seeds. Such lovely clusters of flowers—red, pink, white, some with white eyes, some striped and some starred. They were indeed beautiful.—A. B. Carpenter, Ripley Co., Ind., Nov. 20, 1903.

Mr. Park: My Phlox Drummondii from your mixed packet was the prettiest I ever saw. There were almost too many colors or shades to be counted, and the plants were a mass of bloom from early in the season until very late in the fall.—Mrs. Norman Greenslet, Berkshire Co., Mass., Nov. 26, 1903.

Polygonum.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

Oriental, dwarf white.....	5	Lanigerum, yellow fol..	5
Dwarf red.....	5	Multiflora, vine, white.....	5
Variegated foliage.....	5	Cuspidatum, white.....	5

Special mixture, all colors, 4 pkts 10 cts., 1 pkt..... 3

Oriental varieties are annuals blooming the first season. The others are hardy perennials blooming the second season. All are graceful and handsome.

Phacelia.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

Congesta, mauve.....	5	Campanularia, bright	5
Tanacetifolia, blue.....	5	blue bell flowers.....	5

Special mixture, 4 pkts 10 cts., 1 pkt..... 3

The first two are excellent for bee pasture, as well as showy in the garden. P. campanularia is new, has large flowers, and blooms early and for a long time. It is beautiful.

Portulaca, New Double and Single

Complete mixture of all colors, single and double, 4 packets 10 cents, 1 packet 3 cents.

The New Large-flowered Portulaca is hardly excelled as a garden annual. The little silvery seeds may be sown as soon as the ground can be worked, and in a very short time the plants will appear, grow rapidly in the hot sunshine, branch freely, and show a mass of large, bright flowers every morning. They are low and spreading, and if set six inches apart, they will completely cover the bed. I have seen magnificent circular beds of Portulaca, the centre being raised, and the colors planted in rings of white and rose and scarlet and gold. The double-flowered varieties are even more attractive than the single, but all are fine. I offer the best quality of seeds, and my complete mixture contains all the varieties of both double and single kinds in fair proportion. See engravings.

NOTE.—For carpet beds nothing is finer than Portulaca. By sowing separate colors designs may be produced with ease. Plants are dwarf and drought resisting and produce freely quantities of brilliant flowers. White, pink, rose, magenta, red, cream, yellow, orange and striped. Fancy shaped beds may be sown with mixed seeds. Square beds may show in strips of colors or round beds rings. They will be ever visited with admiration when in bloom. Sandy soil should be selected for the beds.—Clifford N. Raynor.

DOUBLE VARIETIES OF PORTULACA.

White	3	Salmon	3
Golden Yellow	3	Crimson	3
Gold Striped	3	Sulphur	3
Rose, striped red	3	Scarlet	3
Special mixture of double varieties, 4 pkts 10c. 1 pkt 3			

SINGLE VARIETIES.

Straw Color	3	Rose, striped red	3
White Striped	3	Bronze	3
Golden Yellow	3	Rose Color	3
Deep Golden Yellow	3	Crimson	3
White with red centre	3	Scarlet	3
Special mixture of single varieties, 4 pkts 10 cts, 1 pkt 3			

Mr. Park: Your Portulaca was the most beautiful I ever had. I sowed the seeds in a cheese box, and it covered it entirely. There were eight different colors, and nearly every one double.—Mrs. E. Morse, Wyoming Co., N. Y., Dec. 1903.

Mr. Park: I purchased a packet of mixed Double Portulaca seeds from you last spring, and what a wonderful display of beautiful bloom I had all the season, up till the last of October.—Mrs. Irena A. Taylor, Floyd Co., Ind., Nov. 30, 1903.

Mr. Park: I set plants of your Double White Portulaca on a small grave, and they were especially pretty. They did not mind the dry clay at all, but bloomed and

SINGLE PORTULACA FLOWER AND PLANT.

bloomed, and looked like little Roses, they were so double.—Mrs. G. F. Ruuels, Fremont Co., Col., Nov. 26, 1903.

Ricinus.

Special mixture, 4 packets 10c, 1 packet 3c.

Borbon Arboreus	5
Mirabilis	5
Sanguineus	5
Zanzibariensis	5
Enormis	5
Maculatis	5
Niger	5
Picturati	5

Splendid semi-tropical annuals. R. arboreus grows 14 ft. high, and is very showy in a group. R. sanguineus, 5 ft. high, has reddish foliage, and R. mirabilis 3 feet high, bronze foliage. The three make a fine group. R. Zanzibariensis grows 5 feet high, with large leaves. All are very

fine for a hedge or back-ground. Grown as easy as corn.

NOTE.—To get fine specimens start seeds early in small pots, and shift into larger ones as the plants grow; bed in a rich, sunny place when warm weather comes.

Rudbeckia.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Bicolor Su-	
perba	5
Semi-plena	5
Special mix'd	
4 pkts 10c.	
1 pkt	3

A free-blooming, showy annual. Plants grow a foot high, and bear single and semi-double flowers. Seedlings are easily grown, and begin to bloom early. This plant is a near relative of R. laciniata, or Golden Glow, but grows only two feet high. It forms a showy group or bed.

Saponaria, Scarlet Queen 5c; Calabrica, mix'd, 5c; Ocymoides splendens 5c; special mixt., 4 pkts 10 cts, 1 pkt 3
Scarlet Queen is a low, compact annual, fine edging, bearing innumerable rosy, scarlet flowers. Calabrica, is similar, pink and white. Ocymoides is an elegant trailing perennial, for mounds, rockeries, or cemeteries; rose.

Salpiglossis, New Emperor.

Special mixture, all sorts, 4 packets 10 cents, 1 packet 3 cents.

The New Emperor Salpiglossis is an exceedingly attractive annual. The plants grow three feet high, and become swaying masses of very large Petunia-like flowers with a rich, velvety texture, and in the most gorgeous colors, as royal purple, crimson, rose, and sulphur, many of the flowers showing distinct pencilings of gold, carmine and violet. Indeed, only those who have seen these superb flowers can have any conception of their richness and beauty. The plants are of easy culture from seeds, and should be set ten to twelve inches apart in a sunny bed. The size of the flowers will be improved during hot weather by a mulching of stable litter. The plants bloom from July until frost, if not allowed to seed. This is a splendid annual and cannot be too highly praised. I freely recommend it.

Brilliant Crimson.....	5	Purplish Violet.....	5
Deep Bright Scarlet.....	5	Rose.....	5
Purplish Brown.....	5	Sulphur.....	5

Royal Purple.....	5	Rose, gold veined.....	5
Black, very dark.....	5	Purple with carmine.....	5
Black, veined gold.....	5	White with yellow.....	5

Special mixture, large-flowered varieties 4 packets 10 cents, 1 packet 3 cents.
Dwarf Salpiglossis, for pots, mixed 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: The Salpiglossis I got of you was of a grand new strain. The blooms were enormous, and possessed the most varied, brilliant and fantastic markings. The staining, penciling and blending of colors was wonderfully fine.—Eva Shipley Frances, Wheeler County, Nebraska.

Mr. Park: In the spring I sowed a packet of your large-flowered Salpiglossis. I had grown them before, but never such lovely ones as yours. The blooms were so large, and of such brilliant colors; scarlet and yellow being the predominating colors. They may well be called "Velvet Flower." Almost every one who saw them asked what they were. The seeds germinate readily, and the plants are as easily to transplant as a Petunia. I advise the sisters to try them next summer, and they will make no mistake.—S. L. Morrison, Penobscot Co., Maine.

Salvias in Variety.

Special mixture, all sorts, 4 packets 10 cents, 1 packet 3 cents.

Salvias are beautiful and very showy flowers, the prevailing colors being blue and scarlet. *Salvia pratensis* is a hardy herbaceous perennial, and makes a grand clump or bed during early summer. *Salvia patens* has exquisite blue flowers. *Salvia sclarea* makes a graceful and attractive display when the plants are massed. The most attractive kind, however, is *Salvia splendens*, commonly known as **Scarlet Sage**. I offer improved, large-flowering, robust varieties, which are a blaze of rich color throughout autumn. The seeds require from two to four weeks to germinate, but the plants grow rapidly when started. They like a sunny place and plenty of moisture while growing.

VARIETIES OF SALVIA SPLENDENS.

Grandiflora, large spikes of scarlet flowers.....	5
Alba, spikes of large white flowers.....	5
Pendula, drooping spikes of scarlet flowers.....	5
Prostrate, new; scarlet.....	5
Ingenieur Clavenad, early free-blooming variety.....	5
Giant Scarlet, robust, excellent sort.....	5
Silverspot, new; scarlet bloom, yellow spotted foliage.....	5
Varities of <i>Salvia splendens</i> mixed, 4 pkts 10 cts, 1 pkt.....	3

OTHER CHOICE VARIETIES OF SALVIA.

Carduacea, blue, vermilion anthers.....	2	Farinacea, bright blue, <i>Praetensis</i> , each.....	3
Coccinea splendens, scarlet, fine.....	3	<i>Salvia Sclarea</i> , (<i>Horminum</i>), scarlet, white and violet, separate or mixed.....	5
Roemeriana, scarlet, pretty.....	5	Complete special mixture, 4 pkts 10 cts, 1 pkt.....	3
Patens, blue flowers, tuberous.....	5		

Mr. Park: My Salvias, raised from your seeds were a decided show, and only froze down this week. The plants were literally covered with their scarlet spikes.—M. A. Bowers, Crawford Co., Ohio, Oct. 29, 1903.

Mr. Park: My Salvias from your seeds spread themselves until the bed was scarlet with bloom. I was surprised at their beauty, and the plants were so hardy, and easy to take care of.—Laura, Clark Co., Ky., Nov. 14, '03.

A Glorious Window Primrose--*Primula Stellata Pyramidalis*, 1 pkt. 10c.

Pyramidal Trees, one to two feet tall, a gorgeous mass of white or pink bloom throughout the winter. Treat as you do Chinese Primroses.

I ASK your attention, Dear Patron, to the great beauty and utility of the various races and species of *Primula*, commonly known as Primroses. Some are hardy, some half-hardy, and some almost tender, but all may be successfully grown by any gardener, even though unexperienced. On pages 51 and 59 some fine Primroses are listed in this Guide. If interested send for my booklet "All About Primroses," which is full of illustrations, descriptions and cultural hints. It will be mailed free. Special: For 50 cents I will mail a collection of 20 packets of seeds of the finest species and varieties, no two alike. This will give you a start in growing the most beautiful of window and garden flowers—the Primrose.

Scabiosa, New Large-Flowered.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

The improved varieties of the old fashioned Scabiosa or Mourning Bride should be found in every flower garden. They are beautiful. The plants are bushy, as indicated in the engraving, and the large, globe-like flowers are produced in abundance throughout the entire season, if freely cut. The improved varieties not only develop full-double flowers nine inches in circumference, but appear in a marvelous diversity of shades—from white to yellow, azure to black purple, flesh-colored to fiery scarlet, etc. I know of no other annual that will give better satisfaction than this new race of Scabiosa. The plants grow from two to three feet in height, bear their huge flowers on long, sturdy stems, and thrive in any garden, while the flowers are showy in beds and excellent for bouquets. The dwarf compact kinds are fine for winter blooming in pots.

Black Purple and White	5	Brick Red	5	Azure Fairy	5	Lilac	5
White	5	Dark Brick Red	5	Rose	5	Pompadour	5
White and Rose	5	Flesh	5	Fiery Scarlet	5	Rosy Carmine	5
Cherry Red	5	Black Purple	5	King of Blacks	5	Sulphur Yellow	5
Cherry Red and White	5	Complete special mixture of all the sorts and colors, 4 packets 10 cts, 1 packet 3					

Dear Mr. Park: I had some dark pink Giant Scabiosa from you that bloomed profusely from June until the frost took them. Everybody asked what they were, and seemed much surprised to learn that the old-fashioned Mourning Bride ever bore double blossoms, or arrayed itself in such gay colors. Next year I mean to have a packet of the mixed seeds, as a bed of the mixed colors I saw this season is a sight never to be forgotten. Those who have grown only the old-fashioned kind can form no conception of the large, double flowers in rich colors of the New Giant variety. It is now first on my list of "must haves."—Adella F. Veazie, Knox Co., Me., Nov. 3, 1903.

Mr. Park: For a real satisfactory plant I recommend your Giant Scabiosa. Our plants grew two feet tall, began to bloom in June, and continued blooming without intermission, seeming to get larger and finer as cold weather appeared. I had several colors, but a lavender was especially admired. For cut flowers they are good, being long-stemmed and lasting. The colors, too, are uncommon, which adds much to their attraction.—Ida A. Cope, Santa Clara County, California, November 13, 1903.

Senecio—New Pompon.

Special mixture, 4 packets 10 cts, 1 packet 3 cts.

Plants of the new variety of Senecio I offer grow a foot high, branch freely, and produce masses of lovely double flowers of many fine colors. They are splendid for beds, and the flowers are useful for bouquets. The plants are not difficult to start, and should stand six inches apart in the bed. My seeds are saved only from the finest double flowers.

Cream	5	Purple	5
Flesh	5	Red	5
All colors in special mixture, 4 pkts 10c, 1 pkt 3			

Senecio Elegans.—This beautiful hardy annual from the Cape of Good Hope has for generations been a favorite garden plant. The double flowered varieties are the showiest and most desirable. The plants grow best in a rich, sandy loam, and bloom from July to October, according to time of sowing. They look best in good-sized masses.—The English Flower Garden,

A Sovereign Insect Remedy. *Quassia Chips Tea* applied hot to insect-infested plants is an effectual remedy. It may be applied as a wash, or sprayed upon the plants with a syringe, or sprinkled upon them with a brush or watering can. In every case it will eradicate Aphids or Green Lice, Mealy Bugs, Thrips, Slugs, Hoppers, Scale, and other pests. Before applying for scale rub loose with a coarse brush. As many of my friends have requested me to supply the chips, I have obtained a quantity, pure and fresh, and will mail in packages, as follows: $\frac{1}{4}$ lb. 10 cents, $\frac{1}{2}$ lb. 20 cents, 1 lb. 38 cents. Full directions for use will accompany every package. Address

GEO. W. PARK, La Park, Lancaster Co., Pa.

Schizanthus--Butterfly Flower.

Complete mixture, 4 packets 10 cts., 1 pkt 3 cts.

The varieties of Schizanthus are useful, alike for either pots in the house or beds in the garden. The plants are easily started, begin to bloom early, produce their flowers in wonderful profusion, and are showy for a long time. The flowers are rich and graceful, borne upon slender stems, and at a distance appear as if floating in the air, hence are often called Butterfly Flowers. *S. retusus*, shown in the engraving, has larger flowers than the others, and is fine for the window as well as the garden. Started in mid-summer, the plants bloom well in a sunny room in winter.

Grahami, red.....	5	Pinnatus, blue.....	5	Papilionaceus.....	5
Carmine.....	5	Candidissimus, white	5	Pyramidalis.....	5
Flesh color.....	5	Compact white.....	5	Retusus, red.....	5
Grandiflorus, white.....	5	Pyramidal Dwarf.....	5	White.....	5
Purple, black spots.....	5	Roseus.....	5	New Dwarf, red.....	5
Dark Purple.....	5	Compactus.....	5	New Dwarf, white.....	5
New Compact.....	5	Tigridioides.....	5	Retusus mixed.....	5

Complete mixture of all sorts, 4 packets 10 cents, 1 packet 3 cts.

Mr. Park: I want to recommend Schizanthus or Butterfly Flower. It is very thrifty plant, and the delicate, fern-like sprays, with the dainty little "butterflies" poised so airily amidst the foliage, are fine for mixing with other brighter flowers in bouquets. Mine grew in partial shade and blossomed until hard frosts.—Mrs. Frank Martin, Branch Co., Mich.

Mr. Park: Your Schizanthus or Butterfly Flower is a beautiful plant for the window garden. Both foliage and flowers are delicate and beautiful. The plants bloom continuously all winter in doors, and planted out will bloom all summer, resisting drouth. The flowers are lovely for cut flowers, last long, and are so delicate. They can not help but please everyone. There are many colors. I have several colors in one pot, and when in bloom look as though there were many colored blooms on one plant. Seeds are very cheap, and all lovers of beautiful and delicate flowers should try them.—Mrs. Jennie Dewese, Morgan Co., Ill.

Silene, Compact.

Splendid mixture, 4 pkts 10c, 1 pkt 3c.

The compact varieties of Silene are charming hardy annuals for beds and edgings. Seeds may be sown either in fall or spring. The flowers are mostly pink and white, and produced so abundantly as to hide the foliage.

Rose Queen, fine rose-colored flowers.....	3
Bonnetti double, purple, fine.....	3
Snow King, lovely flowers, white.....	3
Compact sorts, mixed, 4 pkts 10 cts., 1 pkt 3	

NOTE.—The compact varieties of Silene are mostly used for spring bedding, as they are very dwarf, and form compact, rounded tufts. They are perfectly hardy, and to have fine spring-flowering plants the seeds should be sown in autumn and the plants transplanted to their permanent beds.—English Flower Garden.

Santitalia , double, compact, a fine dwarf, yellow-flowered edging plant; 4 pkts 10c, 1 pkt.....	3
Sedum ceruleum, blue Stone Crop; dwarf, free-blooming plants for rockeries or stony beds.....	5
Sensitive Plant (Mimosa pudica) a curious leguminous annual; leaves droop and close when touched; fine for pots. 4 pkts 10 cts, 1 pkt.....	3

Schizopetalum Walkeri, white, fragrant, pretty	6
Shortia Californica, 1/2 ft., Daisy-like, yellow bloom	6
Solanum , plants with ornamental foliage and showy fruit; fine for pots or beds; many beautiful varieties mixed.....	3
Sphenogyne speciosa, a foot high; flowers Daisy-like, yellow with brown.....	5

PARK'S NOVELTIES AND SPECIALTIES.

Many of the following are described in this GUIDE and offered at 3 or 5 cents per packet. Other seedsmen ask 10 to 25 cents per packet. Look over the list.

Anchusa capensis, *Aretotis grandis*, *Antirrhinum*, Snow Queen and Queen Victoria; *Adenophora Potanini*, *Aster*, *Hohenzollern* and *Snowball*; *Calliopsis*, Dwarf Hybrid; Christmas Pepper, Canary-bird Flower, Chabaud Carnation, New Giant Margaret Carnation, New Dwarf Margaret Carnation, Guillard Carnation, New Giant Hyacinth-flowered Candytuft, New Giant Broomallia, Alba Perfecta Balsam, Prince Bismarck Balsam, Baby or Fairy Roses, Blue Paris Daisy, White-spurred Columbine, *Solanum laciniatum*, Moss Verbena, *Streptocarpus* hybrids, *Scabiosa caucasica* alba, New Giant Hardy Garden Primrose, *Petunia Miranica*, Triumph Salvia, *Platycodon Marietii* macrantha, *Pentstemon*, *Campanula Mirabilis* and *Fragilis*, *Catananche*, *Centaurea depressa*, King of Blue Bottles; *Celosia*, *Thompsoni* magnifica; Morning Star Marguerite; Golden Ball Chrysanthemum, *Cineraria*, *Martima* Diamond; *Diastia* Barbaez; *Delphinium elatum* hybridum nanum; *Delphinium speciosa* glabratum, New Hybrid Erigeron, *Eccremocarpus* scaber, Large-flowering Geranium, *Hebenstreitia comosa*, *Impatiens glanduligera*, *Leptosyne Stillmani*, *Linnaria*, the Pearl; *Lychnis Sieboldi*, Pansy, Masterpiece; Pansy, Psyche; Pansy, Ruby; *Nemesia strumosa* compacta, *Centaurea Imperialis*, New Giant Sweet Sultan; *Commelina Sellowiana*, New Royal Pinks, *Incarvillea*, *Varibilis* and *Delavayi*; *Rudbeckia semi-plena*, Dwarf Liliput or Baby Nasturtium, New Dwarf Musk Plant. These and many others, mostly at 3 cents per packet.

Send for my new Catalogue of NOVELTIES AND SPECIALTIES—fully illustrated. Address

GEO. W. PARK, LaPark, Lancaster Co., Pa.

Ten Weeks' Stock in Variety.

Complete mixture, all varieties, 4 packets 10 cents, 1 packet 3 cents.

Few persons are aware of the great beauty and usefulness of the superb double varieties of Ten Weeks' Stock. Hardly one desirable requisite of a first-class flowering annual can be named that they do not possess. Good habit, handsome foliage, free and continuous blooming, showy spikes of large, double flowers, rich and varied colors, delicious fragrance, easy culture and freedom from insects are all attributes of this grand annual. The plants are beautiful either in garden beds or pots in the house. Do not let the plants crowd in the seed-box, and transplant with care, that they do not become stunted. Mulch the bed with stable litter as hot weather approaches. The seeds I offer were saved only from selected pot plants by German specialists, and will produce a large percentage of perfectly double flowers. The mixture contains the finest colors well proportioned.

Dresden Perpetual or Branching.

These grow 1½ feet high, and have from June till September an abundance of large, rosette-like double flowers on long spikes.

Apple Blossom... 5	Dark Blue..... 5	Purplish Carmine 5
Canary Yellow... 5	Flesh color..... 5	Rose..... 5
Crimson..... 5	Light Blue..... 5	Snow White..... 5

The colors in special mixture, 4 pkts 10 cts., 1 pkt..... 3

Dwarf Early Large-flowering, a fine class for garden beds. The plants are of dwarf, bushy habit, bloom early, and show very large, double flowers in many colors. Special mixture, 4 pkts 10 cts., 1 pkt..... 3

Victoria Bouquet, each plant grows symmetrically in pyramidal form, and becomes a bouquet of lovely double flowers of many colors. Mixed, 4 pkts 10c, 1 pkt 3

Large-flowering Wallflower-leaved, an excellent class with deep green foliage, and large, double flowers in brilliant colors. Fine mixture, 4 pkts 10c, 1 pkt 3

Large-flowering Dwarf Pyramidal, of pyramidal growth, bearing huge spikes of full-double flowers. Many rich colors mixed, 4 pkts 10 cts., 1 pkt..... 3

Princess Alice, a splendid branching Ten Weeks' Stock; plants of good habit, have large spikes of snow-white, double flowers; fine for pots. 4 pkts 10c, 1 pkt..... 3

Princess May, a Wallflower-leaved sort bearing charming Primrose-colored double flowers in fine trusses; plants come into bloom early. 4 pkts 10c, 1 pkt 3

Dwarf Queen, dark blood-red; plants nine inches high, compact, showing trusses of large, intensely blood-red flowers above the broad, green foliage. 4 pkts 10c, 1 pkt 3

Triumph, very double, brilliant crimson flowers; plants grow a foot high, and become a mass of rich color. 4 packets 10 cents, 1 packet..... 3

Celestial, plants pyramidal in growth, every branch terminated with a fine truss of large sky-blue flowers. 4 packets 10 cents, 1 packet..... 3

Complete Special Mixture of all the above fine sorts, 4 packets 10 cents, 1 packet..... 3

Mr. Park: I had nine plants from a packet of Ten Weeks' Stocks received of you. Only one of them had single flowers, and no two were alike. There were pure white, cream, bright pink, two shades of salmon pink, several shades of red and one dark, nearly a violet shade.—Mrs. F. C. B., Humboldt Co., Cal., Nov. 8, 1903.

Mr. Park: I had some of the loveliest flowers I ever saw from one three-cent packet of your Ten Weeks' Stocks. They are easily grown and produce lovely spikes of beautiful waxy flowers of nearly every shade of all colors. No one makes a mistake in trying this lovely flower.—A. B. Carpenter, Ripley Co., Ind., Nov. 20, 1903.

Mr. Park: My Ten Weeks' Stocks from your seeds were the finest I ever saw. The colors were white, deep red and dark maroon. They are very beautiful, fragrant, and bloom all summer.—Mrs. J. Henderson, Ont., Can.

Giant Perpetual White, throws up one enormous spike of flowers, often one foot in length; early-blooming. 4 pkts 10 cts., 1 pkt..... 3
4 packets 10 cents, 1 packet..... 3

Valerian, Fragrant.

Special mixture of all colors, 4 pkts 10 cts., 1 pkt 3 cts.

The Fragrant Valerian grows a foot high, is of branching habit and develops panicles of fragrant little flowers of various colors. Although hardy perennials, they bloom the first season. The clusters are fine for cutting for bouquets, as well as showy in the garden. Often called Garden Heliotrope, on account of its sweet-scented flowers.

White..... 5	Scarlet..... 5	Red..... 5	Rose..... 5
--------------	----------------	------------	-------------

Special mixture of all colors, 4 pkts 10 cts., 1 pkt..... 3

NOTE.—This is a handsome hardy border plant producing stout, erect stems, terminated in bold clusters of numerous small flowers. It begins to bloom in June and continues throughout the summer. It requires only ordinary garden soil, and occasional lifting and cutting in. It grows well on the crumbling walls of an old ruin, and is useful for planting on dry rockwork.—Flower Garden,

Verbena, Large-flowered Fragrant

Complete mixture, 4 packets 10 cents, 1 packet 3 cents.

NEW COMPACT VERBENAS.

These form dwarf, compact, erect bushes, and are fine for pots, beds and edgings. Scarlet striped, Scarlet Eyed, Pure White, Rich Scarlet, Violet, Carmine, Purple with eye, Striped, each..... 5
New Compact Verbenas in special mixture, 4 packets 10 cents, 1 packet..... 3

NEW MAMMOTH VERBENAS.

Vigorous plants with very large clusters of large flowers. My strain of these fine Verbenas is not surpassed. Dark Scarlet shades, Rose and Carmine shades, Purple shades, White and Fire-fly, each..... 5
Mammoth Verbenas in special mixture, 4 packets 10 cents, 1 packet..... 3
Complete special mixture of all classes and varieties, 4 packets 10 cents, 1 packet..... 3

Mr. Park: I planted your mixed Fragrant Verbena seeds in a box and about May 1st set the plants two feet apart in the garden bed, and I wish to tell all flower-lovers what a lovely bed they made. They completely covered the ground, so that one could not step on the bed without treading on the plants. And oh, what a tangled mass of bloom, and what colors—blue with white eye, red, dark blue, white, striped, etc., and the fragrance was perfectly enchanting. The bed was a mass of bloom impossible to describe. One could scarcely put a hand between two clusters of bloom, so thick were they. My friends would stand in amazement and exclaim, "Oh, how can you raise such flowers? I never could raise flowers like that."—M. T., Logan Co., Ky., Dec. 15, 1903.

Viola Hybrids--Tufted Pansies.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

The Tufted Pansies are beautiful, Pansy-like flowers which succeed well wherever a Pansy can be grown. The seedlings start in from ten to fifteen days, begin to bloom in a few weeks, and if cut freely will bloom till the snows of winter appear. The colors are varied, and a mixed bed is very attractive. The flowers have the delicious Violet fragrance which everybody admires.

Dark Blue..... 5 | Light Blue..... 5 | Pure White..... 5 | Blue with White 5
White and Blue 5 | Mauve..... 5 | Yellow..... 5 | Rich Purple..... 5
Special mixture of all the varieties, 4 packets 10 cts., 1 packet..... 3

NOTE.—For bedding purposes the Tufted Pansies are much better than the Giant Pansies, as they are hardier and stand both cold and heat better, while the plants are dense and bushy, and are almost smothered in the mass of sweet flowers they produce. Do not omit Tufted Pansies from your list.

Mr. Park: I planted your flower seeds last spring. My Violas or Tufted Pansies were so very beautiful. Everyone admired them. I believe every seed came up.—Helen V. Sparks, Sedgwick Co., Kas., Nov. 20, 1903.

Venidium fagas, a neat, free-blooming, trailing plant; flowers yellow, covering the plant..... 5
Veronica, edging plants with spikes of blue and white flowers; mixed..... 5
Viscaria fine annual for masses; flowers cup-like, bright, showy and beautiful..... 5
Vinca rosea, lovely pot and bedding plant; Phlox-like flowers; white, rose and eyed; each 5c, m'x'd 3

Verbenas are readily raised from seeds, and seedling plants are healthy and vigorous, begin to bloom in a few weeks, and keep up the display until late in the autumn. For beds they are very desirable, as the flowers are produced abundantly and are of rich and varied colors, while the varieties I offer have a fragrance that is, perhaps, unequaled by that of any other garden flower. Indeed, a few blooming plants will perfume the whole garden during a summer evening. In a sunny window in winter pot-grown Verbenas bloom freely and make a fine display.

IMPROVED FRAGRANT VERBENAS.

Auriculacea, various colors, eyed..... 5
Black Blue with white eye..... 5
Candidissima, large, white..... 5
Coccinea, bright scarlet..... 5
Cerulea, celestial blue..... 5
Defiance, rich, dazzling scarlet..... 5
Defiance Purple, splendid shade..... 5
Variegatis, foliage gold-blotched..... 5
Lutes, nearest approach to yellow..... 5
Oculata coccinea, scarlet, eyed..... 5
Cerulea, blue, with eye..... 5
Purplish Violet with white eye..... 5
Pink Shades, superb new tints..... 5
Purpurea, fine purple..... 5
Striata, richly striped varieties..... 5
Red Shades, handsomely striped..... 5
Special mixture of all of the above, 4 pkts 10c, 1 pkt 3

Virginia Stock, pretty, free-blooming annuals; white, crimson and yellow; each 5 cts., mixed.... 3
Wallflower, Early Parisian, a beautiful variety blooming freely the first season; flowers yellow and brown, large, and delightfully fragrant. Fine for bedding or pots. 4 pkts 10 cts., 1 pkt..... 3
Whitlavia gloxinoides, annual, 1 foot; lovely blue and white bell-flowers, mixed..... 3

Zinnia, Improved Double.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Double Zinnia is one of the easiest grown and most showy of garden annuals. The plants come quickly from seeds, are easily transplanted, and make a fine display in a bed or border or among shrubbery. Each flower lasts for several weeks, and the plants bloom abundantly until destroyed by frost. The new, improved double varieties I offer are as showy as Dahlias, as varied in color, and bloom more profusely. Everybody who has a flower garden should have a bed of them.

New Semi-dwarf Zinnias, superb bedding sort, growing fifteen inches high and blooming very freely; perfectly double. Colors White, Scarlet, Golden Yellow, Crimson, Striped, Violet, Purple, Salmon, each..... 5

The colors mixed, 4 pkts 10c, 1 pkt..... 3

New Mammoth Zinnias, grow three feet high, bearing huge, double flowers. Queen Victoria White, Gold striped, Scarlet, Sulphur, Striped, Purple, each 5

Special mixture, 4 pkts 10c, 1 pkt..... 3

New Lilliput, Scarlet, Gold, Lilac and White, each..... 5

Mixed colors, 4 pkts 10 cts., 1 pkt..... 3

New Crispa, with wavy petals..... 5

New Fringed, White-flowered, double..... 5

Zinnia in all varieties, mixed, 4 packets 10 cents, 1 packet..... 3

Mr. Park: I think for the busy housewife no flower will give better satisfaction and stand neglect better than Park's Semi-dwarf Bedding Zinnias. They are of such compact, bushy form, and of so many bright colors never seen in old-fashioned Zinnias.—Mrs. W. E. Slater, Tompkins Co., N. Y., Oct. 31, 1903.

Mr. Park: I want to tell you about the Lilliput Zinnias I raised from your seeds. They were the nicest Zinnias I ever saw. I can recommend them to all lovers of beautiful flowers, and also recommend your seeds.—Anna Strain, Jasper Co., Iowa, Nov. 9, 1903.

Mr. Park: My Mammoth Zinnias from your seeds are as brilliant and showy as any Dahlia I ever saw. They began blooming when a foot high, and some grew four feet high and were loaded with flowers until killed by frost. If the chickens chose to dust among them they didn't mind it, but just bloomed on. Mine are of all colors and so double they are like balls.—Mrs. Mary Mauley, Iron Co., Mo., Nov. 11, 1903.

EVERLASTINGS AND GRASSES.

Mixture of Many Kinds, Large Packet 10 Cents, 3 Packets 25 Cents.

THESE are mostly annuals with straw-like flowers that keep their form and color for years. With few exceptions they should be cut just as the buds begin to expand. Hang in the shade, stems upward, till dry. The grasses are fine for bouquets, either green or dry. All are easily started from seeds, and attractive in the garden as well as useful for bouquets.

Acroclinium, graceful and pretty half-hardy annuals; flowers nodding, an inch across, mostly rose and white, and for drying should be cut before expanding. Plants slender, with linum-like foliage; 1 foot high; pretty either in beds or pots. Double rose and double white, each..... 5

All varieties, single and double, mixed, 4 pkts 10c, 1 pk 3

Ammobium alatum, new large-flowered; two feet high, robust, with handsome double white flowers; useful either in the garden or for winter bouquets; cut before the buds open..... 5

Gomphrena globosa, a very fine annual, very desirable as a bedding plant, making a gorgeous and continuous display. Colors white, carmine, flesh color and variegated. The new dwarf varieties are fine for pots. Cut when fully developed. Gomphrena aurea bears orange flowers. The colors separate, each..... 5

Special mixture, all colors, 4 pkts 10 cts., 1 pkt..... 3

Gypsophila, plants bearing beautiful panicles of miniature bloom, which are fine for bouquets. G. muralis is a floriferous edging plant, useful also for baskets or pots. G. paniculata is a hardy perennial with panicles of fairy-like white bloom, indispensable for cutting. Separate, each..... 5

Special mixture, 4 pkts 10 cts., 1 pkt..... 3

Helipterum Sanfordii, grows a foot high, bearing clusters of golden bloom; fine for drying..... 5

Rhodanthe, a lovely everlasting; flowers white, rose, crimson, etc., each..... 5

Special mixture, 4 pkts 10 cts., 1 pkt..... 3

Helichrysum, New Double, showy, easily grown annuals for the border; fine for winter bouquets; cut before the buds expand; white, rose, crimson and seven other colors, separate, each..... 5

Special mixture, all colors, 4 pkts 10 cts., 1 pkt..... 3

Dwarf varieties mixed..... 5

Atrosanguineum, crimson, Minimum, mixed, each 5

Complete mixture, 4 pkts 10 cts., 1 pkt..... 3

Waitia grandiflora, a foot high, with branches terminating in numerous small yellow flowers... 3

Xeranthemum annuum, a hardy annual, one foot high, bearing handsome, double flowers on long stems; colors mostly white, blue and purple; cut when fully developed. One of our best everlastings, and easily grown; separate, each..... 5

Special mixture, 4 pkts 10 cts., 1 pkt..... 3

Ornamental Grasses.

Agrostis nebulosa..... 3 Hordeum jubatum..... 3

Andropogon Sorghum..... 3 Lagurus ovatus..... 3

Avena sterilis..... 3 Melica ciliata..... 3

Briza maxima..... 3 Panicum altissimum..... 3

Ornamental Grasses in complete mixture, 3 packets 25 cents, 1 packet..... 10

Everlastings and Grasses in complete mixture, 3 packets 25 cents, 1 packet..... 10

ORNAMENTAL ANNUAL VINES.

Mixture of Many Kinds, Large Packet 10 Cts., 3 Packets 25 Cts.

THE ANNUAL VINES here offered grow quickly from seeds, and are very effective when trained upon strings about the porch, doors and windows, or when used to cover summer houses and trellises or form screens for a walk or unsightly fence or building. They are among the most useful plants in giving a cozy, home-like appearance to a place, and their cultivation should be more common. Support should be given early. If neglected till vining begins, the plants become stunted and injured in growth.

Cardiospermum in Variety.

Mixed, 4 pkts 10 cts, 1 pkt 3 cts.

Cardiospermum is popularly known as Balloon Vine because of its balloon-like capsules or seed vessels. Its name is derived from a white, heart-like blotch on the dark-colored seed, and means heart-seed. I offer two species, the one shown in the engraving being the new *C. hirsutum*. The vines show chiefly a green color, as the flower clusters are chaste white, but as trellis vines for graceful greenery no plants excel those of Cardiospermum. Everybody admires them for their oddity and modest beauty. They grow from six to eight feet high, and quickly cover their support. They can be highly recommended.

Hirsutum, new 5
Hallicabum, the older species 5
Special mixture, 4 pkts 10c, 1 pkt ... 3

Cobæa Scandens.

Price, 4 packets 10 cents, 1 packet 3 cents.

This is a beautiful vine growing quickly to the height of from twenty to thirty feet. Both foliage and flowers are graceful and attractive. The leaves are extended into long, graceful tendrils which attach themselves to a string or wire or branch, and the large, bell-shaped flowers are produced continuously throughout the season. If grown in a pot it will bloom in the house. In the South the vine is hardy and will bloom for several years. Easily started from seeds, which should be planted edge-wise, and not too freely watered till growth begins. The original species has purple flowers, and is the handsomest of the lot. The plants thrive particularly on the south side of a wall or building.

Macrostemma, new 5 | White, greenish white..... 5
Purple, 4 packets 10 cents, 1 packet 3

Mr. Park: My Cobæa scandens was a sight—over thirty feet in length, and full of bloom all summer. Now plenty of seed-pods are hanging in rows across an upper window, looking odd and pretty.—Mrs. M. Bowers, Crawford Co., O.

Mr. Park: Cobæa scandens grew eighteen feet this summer and was covered with lovely purple bells from June till November.—Mrs. Simon Cody, Pottawattamie Co., Ia.

Mr. Park: The Cobæa seeds I received from you I planted edgewise, dampened them good, and as it was the last of May I put them on the north side of the house, watching carefully that they did not dry out. I was rewarded with two nice plants. Several others damped off after they came up. I kept them on an east porch, where they grew so nicely. In July I reset them in a soap box, with more good rich dirt, but rather neglected them after that, only watering when dry. This fall I brought them into the house. They now decorate a south window and are up to the ceiling. I gave them one-foot netting to climb on. They are full of bloom and beautiful.—Dora, Coffee Co., Kas., Nov. 14, 1903.

Abobra viridiflora, a lovely rapid-growing perennial gourd vine; flowers green, succeeded by pretty filbert-sized scarlet fruit; roots tuberous and can be kept over winter..... 3
Calampetis scabra, a lovely perennial vine; both foliage and flower clusters very handsome..... 3

Centrosema grandiflora, a pretty leguminous vine, 3 feet high; flowers pea-like; very pretty... 3
Clitoria ternatea, a vine growing five feet high, with clusters of bean-like flowers..... 3
Coccinea Indica, a rapid-growing vine with bright scarlet fruit..... 5

Cypress Vine in Variety.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

An exceedingly handsome vine, growing from eight to ten feet high, valuable for a trellis or to ornament the pillars of the veranda. The foliage is a rich, dark green, feathery in appearance, and decorated throughout the season with a profusion of bright, delicate star-like flowers, scarlet, white and rose in color, beautiful and attractive. The seeds should be sown in a seed box and the soil kept rather dry after the first watering. Do not transplant until the weather becomes warm.

Quamoclit coccinea, scarlet	5	Quamoclit hederacea, ivy-leaved....	5
Alba, pure white.....	5	Kerberi, late-blooming.....	5
Rosea, fine rose.....	5	Mixture of all sorts, 4 pkts 10c, 1 pkt 3	

NOTE—The Cypress Vine is a pretty, Convolvulus-like plant with a profusion of bright flowers. Its stems are very slender and of a rapid growth, attaining a height of from six to eight feet in a few weeks, and it continues in blooming during the entire summer. It may be treated either as a half-hardy annual, in which case it should be sown under glass early, or as a hardy annual, the seeds being sown in April in the open ground. *Hederæfolia* is another pretty species with scarlet flowers and lobed foliage, and requires the same treatment. Both are excellent plants for trellises in sheltered situations, as they produce an abundance of flowers from July to September.—The English Flower Garden.

Gourds and Cucumbers in Variety.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Gourds are ornamental in foliage, flowers and fruit, and can be used very effectively about the garden. The use of the Dipper, Dish, Bottle, Sugar Trough, Egg and Club Gourds is indicated by their names. The latter has fruits, from two to three feet long, and is sometimes advertised as Japan Cucumber, but is generally called Hercules' Club. An Italian florist says "This Gourd furnishes quite an excellent dish; cut into pieces three inches long, take out the seeds, fill in a stuffing of meat, etc., boil, and serve with Tomato sauce." Will you have some? The small, fancy Gourds are chow on the vines, and excellent toys for children. The Dishcloth Gourd has showy yellow flowers, and the network of the Gourds is useful for fancy work, and for scouring and

washing. The Hundredweight Gourds make excellent pies. The various species of Cucumis are handsome vines. All are interesting and ornamental, and worthy of cultivation. Start the seeds in the window box and set out when the weather becomes warm. In the South, plant the seeds where the vines are to grow.

Lagenaria vulgaris, mixed.....	5	Lagenaria, Lemon or Orange, and	5	Cucumis flex., Snake Cucumber...	5

Apple-shaped, yellow, red-strip-		Involucrata, scarlet.....	5	and small, plain and fancy, 4	
ed, each	5	Momordica, all sorts mixed	5	packets 10 cents, 1 packet	3

NOTE BY NATHANIEL HAWTHORNE.—"A hundred Gourds in my garden were worthy, in my eyes at least, of being rendered indestructible in marble. If ever Providence (but I know it never will), should assign me a superfluity of gold, part of it should be expended for a service of most delicate porcelain, to be wrought into the shape of Gourds gathered from vines which I will plant with my own hands. As dishes containing vegetables they would be peculiarly appropriate. Gazing at them, I felt that by my agency something worth living for had been done. A new substance was born into the world. They were real and tangible existences which the mind could seize, hold and rejoice in."

Park's Special Mixtures.—These mixtures are not the odds and ends of some wholesale seed house, but are prepared at my establishment under my careful personal supervision, from the best named varieties in well-balanced proportion. You never make a mistake by buying Park's Special Mixtures. They cannot be surpassed.

Hyacinth Bean--*Dolichos*.

Complete special mixture, 4 packets 10 cts., 1 packet 3 cts.

The Hyacinth Beans (*Dolichos*) are beautiful, vigorous vines, that bear large clusters of showy, bean-like blue, white and variegated flowers, followed by shining purple seed pods. The plants are as easily grown as Corn Beans, and are excellent for covering summer houses, fences or old trees, or for a porch screen. Seeds and pods are edible.

Labiata Purple.....	5	Soudanensis, new, purple.....	5
Labiata White.....	5	Atrorubra, blood-red.....	5
Gigantea, vigorous.....	5	Bicolor, white and purple.....	5
Special mixture of all sorts, 4 packets	10 cts., 1 packet		3

Mr. Park: If anyone wants vines let them plant *Dolichos* or Hyacinth Beans. I had them and the Scarlet Runner together, and such a wealth of shade and colors! They were two beauties together.—Mary E. Young, Grant Co., Wis., Nov. 4, 1903.

Mr. Park: I planted three beans around each six-foot bean pole. Well, they went to the top, then down again, and the vines were a mass of lavender blossoms and purple bean pods all summer long. They need no more care than common Beans, and if one can't have luck with Sweet Peas, then plant Hyacinth Beans. I only had three poles, but I picked hundreds of blossom clusters, some a foot long.—Mrs. N. O. Harris, Middlesex Co., N. H.

Mr. Park: Last spring I planted mixed *Dolichos* seeds near an old fence. Now the plants are still covered with large sprays of lovely flowers, several colors, and bunches of beans in different stages of development. These are the most attractive things in the garden.—L. C. F., Son. Co., Cal., Nov. 30.

Humulus--Variegated Hop.

Price, 4 pkts 10 cts., 1 pkt 3 cts.

A Japanese annual of rapid growth, and one of the most showy and useful of climbers, on account of its dense foliage, blotched and marked with creamy white. Sow the seeds early where the plants are to stand, and furnish string support. Plants start readily, and grow from twenty to thirty feet high in a season.

Mr. Park: Last year I purchased seeds of the Variegated Hop Vine for a veranda, and it simply grew like "Jonah's Gourd," and was beautiful. At the same time I ordered seeds of *Nicotiana* or Star Flower. The plants were immense and bloomed profusely, and the flowers were so fragrant. It was a thing of beauty.—Mrs. H. Harry M., Davidson Co., Tenn., Jan. 4, 1904.

Mr. Park: I think the Variegated Hop a grand vine. I planted seeds five years ago and have had volunteer plants along my garden palings ever since. I have no trouble keeping them where they belong.—Mrs. N. V. Meadows, Butler Co., Iowa.

Ipomoea in Variety.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

Much like Morning Glories in foliage, flower and habit. The vines are all of rapid growth, and fine for trellises, walls or screens. All are easily raised.

Coccinea, scarlet..... 3
Lutea, yellow..... 3
The above bear small flowers that remain open for several days; vines rapid in growth and beautiful.

Hederacea, the Ivy-leaved Morning Glory; mixed colors..... 3
Limbata elegantissima, rich blue with white border 3
Splendid mixture, all sorts, 4 pkts 10 cts, 1 pkt..... 3

For Cypress Vine see page 41. I ask your special attention to my Improved Common and Japan Morning Glories. They are unrivaled. See next page.

Loasa lateritia, a showy annual vine; orange flowers; foliage covered with stinging hairs..... 5
Lophospermum scandens, a handsome vine, the roof of which may be wintered in the cellar. Velvety foliage and large, tubular rosy flowers. Sow in a window, early, to bloom in summer. On a pot trellis it blooms well in winter..... 3

Maurandya.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

A dense, graceful vine, growing six feet, covered with lovely, bell-shaped flowers in autumn. Entirely too much neglected.

Antirrhiniflora, blue..... 5
Barclayana, blue..... 5
Barclayana, white..... 5
Emeryana, rose..... 5
Purpurea, purple..... 5
Semperflorens, blue..... 5
Special mixture of all sorts, 4 pkts 10c, 1 pkt 3

Mr. Park: A pretty, dainty little vine that is very easy to grow from seeds, and especially suited for the window garden, is *Maurandya*. It grows fast and will bloom at a north window, although the flowers are larger, deeper in color, and borne more freely if it gets the sunshine. The flowers are a pretty shade of blue, shaped like *Torenia* or *Snapdragon*. It has no enemies, and will grow when planted at any season, is easy to manage and quite hardy.—Irene McBride, Liberty Co., Texas.

Moon Flowers. Easily grown from seeds. Bona Nox has clusters of small flowers, and Mexican white bears large flowers. Both are very fragrant and free-blooming. Separate or mixed..... 5
Mimulus lobata, a quick-growing vine much like *Ipomoea coccinea*, but bearing racemes of scarlet flowers not unlike scarlet *Salvia* at a distance..... 5

Morning Glory, Park's Improved.

Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

For a quick-growing, beautiful vine for either foliage or flowers, the improved old-fashioned Morning Glory still claims a prominent place. Any person can grow it, and the large, fresh, silky flowers appearing every morning in all the richest shades of red, white and blue, often variegated and striped, give an added charm to the early mornings of summer and autumn. I offer the seeds in many separate colors, and my special mixture contains them all. Do not omit the Improved Morning Glory from your list.

Carmine	3
Dark blue.....	3
Dark red	3
Lilac	3
Light blue	3
Rose	3
Royal purple.....	3
Scarlet	3
Tricolor.....	3
White	3
White striped violet.....	3
White striped rose.....	3

All varieties, special mixture, 4 pkts 10 cts, 1 pkt. 3 | Morning Glory, double, in fine mixture, per pkt. 6

Mr. Park: My Morning Glories from your seeds had leaves as large as saucers, and the bloom—oh how lovely, and in such quantities and colors! Many thought they could not be common Morning Glories. On cool and cloudy days the flowers lasted all day. For covering unsightly objects they have no equal.—M. W., Chase Co., Kas.

Mr. Park: The Improved Morning Glories were in eight colors. One color unusual was creamy white with blotches of purple. My friends said they never saw anything so beautiful. Mrs. Earl Morse, Wyoming Co., N. Y.

Mr. Park: Your Improved Morning Glories are beauties. From one packet of seeds I had many colors—shades of blue, pink, red and white. The blossoms were the largest I ever saw.—Allie Cosens, Tuscola Co., Mich.

Morning Glory, Improved Giant Imperial.

Special mixture, 4 pkts 10 cts., 1 pkt 3.

I have much pleasure in offering this season a superior strain of the Japanese Morning Glory. Vines show enormous flowers in absolutely new colors, and are the result of one who has given special attention to developing and improving this class of flowers. These vines grow rapidly, and in a warm, sunny situation bloom abundantly. Their striking colors and variegations will call forth enthusiastic expressions of wonder and admiration from all who see them. They will be a revelation in Morning Glories to those who know only the older Japan varieties. Start in the seed box or hot bed, and transplant to their blooming quarters when the weather becomes warm.

Adonis, bright purple with pure white throat.....	5
Aglaja, crimson with white throat.....	5
Antigone, huge blue flowers with rosy throat.....	5
Aphrodite, pure white; enormous flowers.....	5
Asteria, copper and red with white throat.....	5
Ceres, crimson with a white border.....	5
Cleopatra, carmine, white throat and border.....	5
Euphrosyne, pure white with rosy throat.....	5
Juno, beautiful sky blue.....	5
Luna, very large flowers; dark and light blue and delicate carnation.....	5
Satin Rose, foliage light green, splashed white.....	5
Princess, white, speckled with crimson.....	5
The above varieties, some having green, some silvery and some golden-hued foliage, 4 pkts 10c., 1 pkt. 3	

Collata Varieties. These bear gigantic flowers, the margins of which are curled or frizzled, making them appear as if double.

Alba, pure white.....	5
Carmines, carmine red.....	5
Diana, dark blue with white border.....	5
Collata varieties, splendid mixture, 4 pkts 10c, 1 pkt 3	

Micans Varieties. These grand varieties have smooth stems and leaves, either green or silvery. The flowers are gorgeous in size and rich coloring. I offer only a mixture of this beautiful class. 4 packets 10 cents, 1 packet 3 cents.

Improved Giant Imperial Morning Glories, special mixture of the above superb sorts, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: Your New Japanese Morning Glories are beautiful. No person could wish for a prettier flowering vine to climb over fences, gate posts, or upon strings or trellises. Park's seeds always grow well for me and produce the largest-sized flowers.—Miss Ethel Cosgrove, Marion Co., Ore., Nov. 3, 1903.

Sweet Pea, Park's Large-flowered

Complete mixture, per lb. 50 cts., one-fourth lb., 15 cts., one oz. 5 cts., 4 pkts 10 cts., 1 pkt 3 cts.

Sweet Peas are indispensable. If you can have but half a dozen annuals, a border of these charming flowers should be included. The improved varieties I offer were grown for me by a German specialist, and imported. The seeds all grow, and the vigorous, branching vines become a mass of pea-green foliage covered with long-stemmed clusters of large flowers of the most varied and beautiful colors. The fragrance emitted is delicious and enchanting. Certainly there can be no finer strain of Sweet Peas than that of which I offer seeds, and my complete mixture cannot be surpassed. The mixture of shades, as well as my complete mixture, is prepared in my establishment from the finest named varieties. They will all yield marvelous shades and markings. Those who have been cultivating the common varieties will find the new large-flowered and large-clustered sorts I offer a revelation. For hedges or trellises they cannot be excelled; for bouquets and fragrance they have no equal.

No. 1, Shades of White. This packet includes all the new, chaste shades of white, as pearl white, pure white, cream white, flesh white and porcelain white. *Blanche Burpee, Emily Henderson, Mrs. Sankey, Queen of England, Mont Blanc, Pure White, Butterfly*, each, 8 cents per oz.; per packet 3

No. 2, Shades of Red, includes bright red, carmine, scarlet and crimson, represented in many tints. *Invincible Scarlet, Invincible Carmine, Prince of Wales, Stanley, Mars, Salopian, Lady Penzance, Duke of Clarence, Duchess of Edinburgh, Boreatton, Captivation, Firefly*, each, 8 cents per ounce; per packet..... 3

No. 3, Shades of Dark Blue, includes black blue, dark blue, violet and purple in many tints. *Captain of the Blues, Emily Eckford, Grand Blue, Indigo King, Monarch, Navy Blue, Black purple*, each, 8 cents per ounce; per packet..... 3

No. 4, Shades of Yellow, pure yellow, orange yellow, salmon yellow, cream yellow, sulphur yellow. The colors are not well defined but the packet includes all the best yellow shades known. *Countess of Radnor, Codogan, Dorothy Tenant, Emily Eckford, Gray Friar, Grisel Hamilton, Princess May, The Queen, Light Blue and Purple, Captain Clark, Dolly Varden*, each, 8 cents per ounce; per packet..... 3

No. 5, Shades of Light Blue, includes azure blue, lavender blue and sky blue in many tints. *Bronze King, Chancelor, Gorgeous, Lemon Queen, Mrs. Eckford, Oriental, Lady Beaconsfield*, each, 8 cents per ounce; per packet 3

No. 6, Shades of Bright Pink, includes brilliant rose, deep pink, carmine pink and peach pink with variations. *Adonis, Crown Jewell, Duchess of Sutherland, Hon. F. Bouvierie, Mrs. Gladstone, Prima Donna, Prince of Wales, Royal Rose*, each, 8 cents per ounce; per packet..... 3

No. 7, Shaded and Margined, includes light colors of different shades, some flaked and margined with soft tints. *Apple Blossom, Delight, Eliza Eckford, Lottie Eckford, Queen Victoria, Splendour, Stella Morse*, each 8 cts. per oz.; pkt. 3

No. 8, Red Striped, blotched and variegated, a great variety of tints, the red colors predominating. *America, Aurora, Blanche Perry, Duchess of York, Invincible Scarlet Striped, Joseph Chamberlain, Ramona, Lottie Hutchins*, each, 8 cents per ounce; per packet..... 3

No. 9, Blue Striped, blotched and variegated, a great variety of tints, the blue color predominating. *Prince of Wales, Triumph, Juanita, Wawona, Black Purple Striped, Countess of Radnor, Senator, Light Blue and Purple, Othello*, each, 8 cents per ounce; per packet..... 3

No. 10, Cupid or Dwarf Varieties, white, pink, yellow and variegated. *White, Apple Blossom, Captain of the Blues, Fire Fly*, each, 8 cents per ounce; per packet 3

11—The above collection of mixed Sweet Peas, one ounce of each mixture, or ten ounces in all, only 75 cents. Or, one packet of each mixture, 10 packets in all, only 25 cents. The named sorts can also be furnished separately at prices quoted.

Sow in a trench as early as the ground can be worked, and cover only one-fourth inch deep; later, as the vines grow, draw soil in till the roots are well protected. As warm weather approaches mulch the ground with stable litter. Give wire or brush support early. Cut the flowers freely to prevent seeding and prolong blooming. Order and plant early. The dwarf sorts are not so desirable as the others, but are useful for contrast. The white is preferred for pots.

Mr. Park: I advise all my floral friends to just send to you for Sweet Peas. I got some last summer and such fine flowers I never saw before. Some were one and one-half inches across and three flowers on a stem.—*Emma Head, Forest Co., Pa., Nov. 9, 1903.*

Mr. Park: The most satisfactory plants for me outside this summer were your mixed Sweet Peas. They were a mass of bloom from June until October, and were not affected by even frosts until quite late. And such flowers! I never saw so many from one ounce of seeds before.—*Mrs. Bessie Plympton, Union Co., Ia., Nov. 6, 1903.*

Mr. Park: I got a three-cent packet of mixed Sweet Peas last spring and planted them the first of March. I believe every seed came up and grew. They were about four feet high and just loaded with such large, fine flowers. Everybody said they were the finest they ever saw.—*Anna Brower, Greene Co., Mo., Nov. 10, 1903.*

Mr. Park: We planted a row of your Sweet Peas, and a row from another of our best seed houses, and treated all alike. Yours came up and bloomed all summer, and were of fine colors. The others were all foliage and but few flowers, then all died. Give me Park's seeds in future.—*Mrs. Canfield, Fairfield Co., Ct., Nov. 30, 1903.*

Mr. Park: Last Spring I received from you one-half pound of your Sweet Pea seeds, and found them just as you claimed them to be. We were delighted with them on account of the variety of colors and size.—*Mrs. A. D. Lynde, Clay Co., Iowa, Nov. 17, 1903.*

Tropæolum, Giant Climbing.

Complete mixture, lb. 75 cts, ¼ lb. 20 cts, oz. 6 cts, 4 pkts 10 cts, 1 pkt 3 cts.

The new Giant Climbing Nasturtiums are as desirable for the flower garden as Sweet Peas. They grow vigorously, have beautiful, clean foliage, begin blooming early, and bloom all the season. The flowers are borne in great profusion, are very large, of silky texture, brilliant in color, and very fragrant. Indeed, they possess all the elements of a first-class vine, and can be used to decorate old fences or buildings, as well as to form a showy hedge or an attractive trellis clump. I offer all the lovely new colors, and the strain of seeds supplied will be found far superior to the common, old-fashioned seeds usually sold. If you wish to grow the finest Nasturtiums, flowers that will eclipse those of your neighbor, get Park's Giant Climbing. They are glorious.

Mr. Park: Last spring I received a packet of your Climbing Nasturtiums, which I planted in a rich place. I had wire netting for them to climb on, and oh, how they did bloom! Such beautiful, large, fragrant blossoms, and such a variety of colors. I intend to have them every year after this.—Mrs. Ervin Stone, McKean Co. Pa.

Mr. Park: Your Climbing Nasturtiums were a success. They began to bloom when quite small, and were a mass of rich bloom until cut down by frost. No flower garden is complete without them.—Isa, Putnam Co., Mo.

Lobb's Climbing Nasturtium.

Finest mixture, oz. 20 cts, 4 pkts 10 cts, 1 pkt 3 cts.

Lobb's Climbing Nasturtiums are considered even handsomer than the more robust varieties. They are easily grown from seeds, and make a fine display either as pot plants or in a bed or border. I have very choice seeds in all the fine varieties.

Mr. Park: I never had better success with Nasturtiums than I had with seeds purchased of you. They were full of blossoms all summer.—Maggie M. Barbee, Sagamon Co., Ill., Oct., 1903.

Tropæolum Peregrinum, the beautiful Canary-bird Flower. This is a lovely vine of easy growth, reaching twenty feet in one season. In autumn it is covered with a profusion of yellow flowers bearing a fancied resemblance to a miniature canary bird. Four packets 10 cents, 1 packet 3 cents.

NOTE.—The Canary Flower is without a rival in lightness and elegance; indeed, one might say it is peerless among yellow flowers. It is a valuable garden vine, thriving in sun or shade, and unsurpassed for festooning. It rarely fails to succeed well.—English Flower Garden.

CANARY FLOWER.

Scarlet Runner.

Price, 4 packets 10 cents, 1 packet 3 cents.

An elegant vine for a warm dry situation. In a dry season it will grow where many other vines will suffer. Flowers rich scarlet, in large clusters. If cut freely plants will bloom throughout the season. Fine for summer houses or arbors. The seeds are excellent for cooking. I can also supply white and variegated, 5c pkt.

Thunbergia Alata.

Special mixture, 4 packets 10 cts, 1 packet 3 cts.

Handsome vines six feet high, covered from June till October with bright, showy flowers. Elegant for a trellis or low screen. Are easily grown from seeds. Like a warm and sunny situation.

| Orange, eyed..... | 5 |

NOTE.—Thunbergias are elegant climbers of the easiest culture, valuable for draping dwarf trellises. They grow five feet high, do well in open air, and their slender stems are copiously furnished with bloom from July till October.—English Garden.

BIENNIALS AND PERENNIALS.

Many Varieties Mixed, Large Packets, 3 pkts. 25 cts., 1 pkt. 10 cts.

THESE are sometimes denominated "The poor man's flowers," because when once established in the garden they will take care of themselves. The Biennials die after blooming, but are mostly reproduced by self-sowing. The hardy Perennials live for years, and often increase in beauty with age. These are choice flowers entirely too much neglected. As a rule the seeds are more tardy to germinate than seeds of Annuals, but if given sufficient time there will be but little reason for complaint. I urge my patrons to start a large bed of Perennials, because I feel confident they will be pleased when the flowers bloom; and thank me for my importunity.

Aquilegia--Columbine.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

Hardy perennials. Flowers both single and double in form, and of all shades of red, white, blue and yellow. The sorts offered are mostly large-flowered. All bloom in the spring, and some continue to bloom all summer. My complete mixture will show a great variety, and will please all who sow it.

Californica hybrida, yellow with orange spurs.....	5	Formosa fl. pl., double, mixed	5
Canadensis, scarlet and yell'w	5	Grandulosa vera, true.....	5
Chrysantha, everblooming, yellow.....	5	Jucunda, copper-rose.....	5
Grandiflora alba, white.....	5	Jaetschaul, yellow reddish spurs.....	5
Cerulea, blue, fine.....	5	Nivea grandiflora, fine white, semi-double.....	5
Alba, white.....	5	Olympica, blue, lovely.....	5
Lutea, new, yellow.....	5	Skinneri, scarlet, showy.....	5
Durandi fl. pl., striped.....	5	Stellata fl. pl., double, mixed.....	5
Flabellata, fine white.....	5	Truncata, large, very fine.....	5

Complete special mixture 4 packets 10 cents, 1 packet 3 cents. Aquilegia (Columbine) is a genus of free-blooming subjects of easy culture in ordinary garden soil. They are suitable for beds, borders and shrubberies, and thrive in a shady situation. They are also very beautiful when naturalized in grass; and the flowers are also prized for cutting.—Book of Gardening.

Mr. Park: I found a prize, indeed, in your mixed varieties of Aquilegia—flowers of all conceivable shapes and colors, double and single, spurred and otherwise. They are perfectly dazzling. They needed so much room that they smothered out a bed of Pinks in short order, but hurrah for this grand acquisition to beds and borders!—Mrs. J. E. Wheeler, Lebanon Co., Pa.

Adlumia Cirrhosa.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

Charming vine with delicate fern-like foliage and waxy pink and purple flowers in clusters in great profusion. The vines will grow 20 feet high a mass of foliage and bloom, and in dense shade—even where the sun never reaches. Furnish string support. A grand pillar plant for the north porch.

Mr. Park: For a delicate perennial climber nothing can surpass the Adlumia. It is easily grown from seeds. The first season it grows a foliage resembling Maiden-hair Fern, fine for floral work; the second season it is still more beautiful with its clusters of white flowers, which are almost everlasting, and fine for floral work.—A. M. S., Pawnee Co., Neb., Nov. 1903.

Armeria, Giant.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

A fine hardy perennial, two feet high, with large heads of rose-colored flowers. A choice garden perennial that deserves more attention.

Mr. Park: I bought a packet of Giant Armeria seeds of you last spring, and have several nice, thrifty plants.—Mrs. Mary Coleman, Lewis Co., Wash., November 10, 1903.

Aethionema Grandiflorum (Lebanon Candytuft).—A trailing plant from the Lebanon mountains. Of easy culture; spikes of rosy white flowers continually produced. 4 pkts 10c, 1 pkt 3c.

OTHER SPECIES OF CAMPANULA.

<i>Carpatica</i> , 1 ft. high, beautiful cup-shaped flowers during July and August, mixed..... 5
<i>Fragilis</i> , an elegant, free-blooming, drooping sort; fine for pots and baskets..... 5
<i>Grandis</i> , 2 feet high, flowers 2 inches across, showy; in bloom June and July..... 5
<i>Macrantha</i> , 5 ft. high; broad leaves and large, open flowers; a splendid sort..... 5
<i>Mirabilis</i> , new; not unlike the old Canterbury Bell; very fine..... 5
<i>Pyramidalis</i> , handsome per. species, blue and white, each 5 cts.; mixed, 4 pkts 10 cts, 1 pkt..... 3
<i>Persicifolia</i> , large-flow'd, blue and white, each 5c., double 5c., mixed, 4 pkts 10 cts., 1 pkt..... 3
<i>Turbinata</i> , blue and white; of dwarf habit; very pretty, mixed..... 5

Mr. Park: A year ago last spring I bought a mixed packet of Campanula seeds of you. On account of unfavorable weather only eight plants appeared. They grew finely and bloomed the past summer, giving six different varieties, both double and single. There were blue, pink, white and one lavender of the cup and saucer variety. They were beautiful, and as a cut flower I have seen nothing to excel them. Truly a rich return for one small packet of seeds.—Mrs. M. L. Topping, Kootenai Co., Idaho, Dec. 1, 1903.

Campanula Calycanthema

Mr. Park: I had a packet of your mixed Campanula calycanthema seeds last year, and had a lovely treat this year. The flowers were beautiful, and greatly to my surprise there were several pink ones—I had only known of blue and white ones. I sowed the seeds in boxes out-doors early in spring (they are a long time coming up), then transplanted into the garden border while quite small. They began blooming in June and have been blooming ever since.—S. E. Gaines, Bensie Co., Mich., Nov. 6, 1903.

Carnations, Garden.

Finest special mixture, 4 packets 10 cts., 1 packet 3 cts.

Showy and deliciously fragrant garden perennials. Flowers very double and of many rich colors, often superbly variegated. The seeds I offer are of the best quality, and will yield the finest flowers. They cannot be surpassed.

Choice Garden Carnations in splendid mixture, 4 packets 10 cents, 1 packet..... 3

Mr. Park: I raised Carnations from your seeds—the mixed varieties. They were the prettiest I have ever grown. One a double scarlet, so large it burst open; another a double pink, so pretty and sweet; another double, almost white, with some blotches of red, and several other pretty ones. I advise all to try your hardy Garden Perennial Carnations.—Mrs. N. Eugene Rankin, Guilford Co., N. C.

Mr. Park: My Carnations from seeds I got of you are all very fine plants, full of buds and blossoms. I have six different colors.—Mrs. F. Keller, Jackson Co., Mich.

Cardamine praetensis..... 5	All sorts mixed..... 5	Clematis erecta..... 5	

Delphiniums, Orchid-flowered.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: I have excellent success with Perennial Delphiniums. I have them in the richest soil and in winter cut them around them, and the first thing almost in the spring they are out of the ground. They grow from six to twelve feet tall and have spikes of bloom from two to four feet long. The various shades of blue are especially fine, as blue flowers are so rare.—M. J. Howard, Washoe Co., Nev.

Digitalis--Foxglove.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

The Digitalis or Foxglove is a hardy perennial that deserves more attention. The plants grow two feet high and bear showy, drooping bell-shaped flowers during early summer. They vary in color through shades of white, yellow, purple, pink, etc. Always showy and admired when in bloom. My seeds are from the finest varieties, and my special mixture will yield a splendid collection of plants.

Ferruginea gigantea.....	5	Ivoryanna, spotted.....	5

Nudicaule, scarlet.....	3	Dictamnus fraxinella, red.....	5
All kinds mixed.....	3	Fraxinella alba.....	5
Other choice Delphiniums		Both colors mixed.....	5

are offered above.

Dodecatheon meadia..... 5

The new hybrid Orchid-flowered Perennial Delphiniums, or Larkspurs, are of surpassing beauty in the perennial garden. They grow from four to six feet high, bearing long, thickly-set spikes of large, attractive flowers of the richest colors. A plant is fairly represented in the engraving here given. The seeds are not difficult to start, but mostly require from three to five weeks to germinate. A few of the plants will bloom the first season if started early. Remove the flowers as they fade to prevent seed formation, or cut the spikes freely. The plants will then bloom continuously. A group or bed of these flowers in bloom is gorgeous, and always calls forth the enthusiastic praise of all who see it.

Celestial, light blue with white centre; large, showy spikes.....	5
Ultramarine, rich dark blue with black centre; elegant long spikes.....	5
Violetta, superb reddish violet with fine white center; beautiful trusses of bloom.....	5
Azurea, lovely shade of light blue with distinct black eye; fine large spikes.....	5
Rubra, reddish violet with black centre; large flowers, handsome spikes.....	5
Atrocerulea, very dark blue; long, dense spikes; very attractive.....	5
Sulphureum, lovely spikes of beautiful yellow flowers.....	5
Grandiflorum fl. pl., large double flowers of various colors; very fine; mixed.....	5
Grandiflorum album, dwarf; compact; large, graceful, pure white flowers.....	5
Grandiflorum cœruleum, dark blue; rare and showy.....	5
Grandiflorum azureum, light, azure blue.....	5
Special mixture of the above, 4 pkts 10 cts, 1 pkt.....	3

New Hybrid Delphiniums.—These are noble, attractive hardy perennials, deserving of general cultivation. They are extremely effective with their long stout spikes of soft, pleasing colors, varying through almost every shade of blue, from the palest silvery blue to the deepest indigo, many possessing also a pink or purple tinge, while the centres vary from pure white to brown and black, the full flower in shape resembling a bee. They are perfectly hardy, and grow and flourish in almost any soil or situation.—English Notes.

OTHER FINE DELPHINIUMS.

Caucasicum, blue.....	5	Truncatum, fine.....	5
Cardinale, scarlet.....	5	Speciosum, large, blue.....	5
Hendersoni, rich blue.....	5	Chinensis, mixed.....	5
Complete mixture, all sorts, 4 pkts 10 cts, 1 pkt.....	3		

Gypsophila Paniculata.

Splendid mixture, 4 packets 10 cts, 1 packet 3 cts.

One of the most graceful plants, the sprays appearing as fairy white flowers upon hair-like stems. The plants grow two feet high and are covered with myriads of bloom, making a cloud of white; attractive in clumps, and when cut imparting to bouquets or designs a most harmonizing effect. Readily started from seeds.

Mr. Park: I would advise your patrons to get Gypsophila paniculata. Once started it is there to stay, standing all kinds of exposure and drought. No garden is complete without it, and no flower can take its place for decoration in cut flowers.—M. J. Acly, Ferguson Co., Mont.

Hollyhock, Park's Superb Double.

Special mixture, all colors, 4 packets 10 cents, 1 packet 3 cents.

When well-grown from a fine strain there is no more handsome or attractive garden flower than the Double Hollyhock. Whether in a double row or a group the blooming plants are gorgeous, and are well shown by my artist in the accompanying fine wood engraving. I offer seeds of a very superior strain, the plants of which grow from five to six feet high and become solid stems of foliage and rich double flowers of a wonderful variety of shades. They are certainly unequaled. When started early in pots and set out in May some of the plants will bloom in autumn. By all means start some of these fine Hollyhocks. They will delight you.

Pure white..... 5 Scarlet..... 5 Sulphur yell'w 5
Bright rose... 5 Salmon rose... 5 Golden yellow 5
Pale yellow... 5 Crimson..... 5 Dark crimson.. 5
Light apricot. 5 Cherry red..... 5 Yellowish white
Peach..... 5 Purplish lilac 5 on pur. gro'd 5
Special mixture, all sorts, 4 pkts 10 cts, 1 pkt 3

Mr. Park: Our Hollyhocks stood just back of the fence, with their majestic heads rising in view. I had other kinds of flowers, but the Hollyhocks were my favorites. They lasted longer and yielded more in return for their care than all the rest.
—Mrs. Emma Ridgway, Macoupin Co., Ill.

Park's New Hybrids.

Mixed colors, 4 packets 10 cts., 1 packet 3 cts.

I offer another race of Hollyhocks, most of which will bloom the first season if started early. They show both single and double flowers, and in all the leading shades—white and cream, yellow and orange, rose and red, crimson and scarlet. The plants grow from six to ten feet high, and bloom for several months. Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: I want to tell you about my Hollyhocks from your seeds. They did not bloom the first year, as they were planted late, but the next summer you should have seen them—great, broad blossoms, and so delicate, in all shades from white to darkest red, single and double. One double one had stripes in the petals, the flowers being compound and very curious—unlike any other flower I ever saw. The single ones were simply immense. They looked like crushed silk.—Mrs. Mary F. Davidson, Clinton Co., Mich., Nov. 25, 1903.

Mr. Park: I have some of the finest Hollyhocks raised of seeds got of you. Some were seven and one-half feet high, and of all colors. Everybody would stop and want me to save them seeds. They were both double and single, and bloomed all summer.—Mrs. Laura Norman, Bosque Co., Texas, Nov. 5, 1903.

Linum Perenne.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

One of the most graceful, as well as most free and continuous-blooming of herbaceous perennials is *Linum perenne*, the hardy Perennial Flax. The plants grow a foot high, and from spring to fall are a waving mass of blue, white and rose flowers every morning if not allowed to bear seeds. They self-sow, and a bed of the plants will not die out. The plants are hardy, and will endure for several years.

Perenne, Blue..... 5 | Perenne, Rose..... 5
White..... 5 | Special mixture, 4 pkts 10c, 1 pkt... 3

Mr. Park: I wish to speak of some lovely flowers raised of seeds bought from you. One is *Linum perenne*. I think it is so pretty. Mine bloomed the whole season, from June until frost. It was a mass of lovely blue flowers.—Nan Shinn, Jackson Co., W. Va.

OTHER SPECIES OF LINUM.

Pinks, Carnations and Picotees

Carnation, Garden, fine mixed, 4 pkts 10c, 1 pkt..... 3
Picotee, Finest Double, from Stage flowers, a superb strain, splendid mixture..... 10

Mr. Park: Your Garden Pinks are easily raised from seeds. I have many plants two years old. One in particular has been a perfect mound, two and one-half feet in diameter, all summer, of silvery blue green, grass like leaves, and in May was a mass of sweet, clove-scented, pheasant-eyed Pinks. All that have bloomed have had the dark circle around the centre.—Mrs. M. E. Ronald, Adair Co., Ia., Nov. 5, 1903.

Mr. Park: I have such good success with Garden Carnations. They begin to bloom in the spring and continue until very late in the fall, and are so fragrant. Everyone should try them. They like a rich soil when blooming.—Corella Murphy, Belmont Co., Ohio.

Platycodon.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

From Manchuria we have a beautiful Bellflower, sometimes known as Campanula grandiflora, sometimes as Wahlenbergia and sometimes as Platycodon. I list it under the latter name. The plants grow from a foot to eighteen inches high, erect in form, and bear at the summit a cluster of large, cup-like blue and white flowers, single and semi-double. This is a hardy, tenacious perennial, and one of the finest garden flowers in existence. It will take care of itself when once established.

Large-flowered white	5
Large-flowered blue.....	5
Large-flowered semi-double, blue....	5
Large-flowered semi-double, white.....	5
All varieties, single and double, special mixture, 4 packets 10 cts., 1 packet.....	3

Mr. Park: I hope you will give Platycodon a prominent place in your catalogue. It is hardy with me, coming up and blooming year after year. It deserves all the praise bestowed on it. I think it would be lovely for a cemetery.—Mrs. M. E. Ronald, Adair Co., Ia., Nov. 5, 1903.

Park's Novelties and Specialties.

UNDER THIS TITLE I publish in March an annual catalogue of the choicer seeds and plants. If you do not see what you want offered in this Guide, you will be likely to find it in PARK'S NOVELTIES and SPECIALTIES. It teems with beautiful, original wood engravings, truthful descriptions and floral notes, and should be in the hands of everyone who loves and cultivates flowers. Free to patrons. Send for it. Address

GEO. W. PARK, LaPark, Pa.

Lasting Perennials.—Park's patrons are mostly lasting perennials—buying of him year after year, and yearly displaying the most beautiful of Flora's products in their window and garden. Here is a sample letter of thousands received:

Mr. Park: I have grown your seeds for the last seven years, and I have found them *always good and true to name*.—Jessie Ransome, Chautauqua Co., N. Y., Nov. 15, 1903.

Poppy, Perennial Hybrids.

Special mixture of all varieties, 4 packets 10 cents, 1 packet 3 cents.

Glorious garden flowers are the New Hybrid Perennial Poppies, a splendid collection of which I offer in colors. The plants are hardy and last for years. They grow two or more feet high, clothed with handsome foliage, and surmounted with enormous, rich-colored flowers, six to twelve inches across, varying from creamy white through shades of orange scarlet to dark, glowing crimson. They bloom in June, and at that time nothing in the garden is more attractive. The seeds are slow in starting, and should be given several weeks to germinate.

Prince of Orange, orange scarlet.....	5
Royal Scarlet, flowers rich, glowing scarlet, 12 inches across.....	5
Semi-pleno, vivid crimson, partly double.....	5
Parkman, new and handsome.....	5
Monarch, a fine, showy variety.....	5
Duke of Teck, brilliant; splendid.....	5
Brilliant, vivid scarlet.....	5
Bracteatum, crimson scarlet with black blotch at base of petals.....	5

Special mixture of all varieties, 4 packets 10 cents, 1 packet..... 3

Mr. Park: I sowed a packet of Park's Perennial Poppies in the garden and kept the earth constantly moist. In about three weeks the plants appeared. In the fall I transplanted them, making a group of five plants. The following summer they bloomed. I felt repaid for all the care and patience bestowed on the planting and transplanting. My reward was sufficient when I saw the wonderful flowers.—Mrs. B. S. Higley, Mahoning Co., O.

Papaver Nudicaule, the Beautiful Iceland Poppies.

Single-flowered, White, Yellow, Golden, Striped and Sulphur, each per packet.....	5
All varieties in splendid mixture, 4 pkts 10 c, 1 pkt 3

Involucratum maximum, scarlet.....	5

Special mixture of all varieties, 4 packets 10 cents, 1 packet..... 3

Double-flowered, White, Yellow and Golden, each per packet.....	5
All varieties in splendid mixture, 4 pkts 10c, 1 pkt.....	3

Iceland Poppies, double and single, all colors in finest mixture, 4 packets 10 cents, 1 packet..... 3

Primula, Hardy Perennial.

Special mixture of many sorts, 4 pkts 10 cts., 1 pkt 3 cts.

I would ask special attention to the hardy Primroses I offer. They are beautiful in foliage, beautiful in bloom and beautiful in fragrance, and a bed or border of them in the garden is always enthusiastically admired. Most of the species are readily started from seeds, and most of them are hardy out doors without protection. They deserve general cultivation, and will doubtless become popular when better known.

Special mixture of many sorts, 4 pkts 10c, 1 pkt..... 3

Mr. Park: Years ago, when a child, I admired very much clumps of flowers in my grandmother's garden, which were then called "Cowslips" and "Polyanthus." How often I have vainly looked over the catalogues, hoping I might find them, perhaps under another name. Nearly two years ago I read the description of Hardy Primrose in your delightful Magazine, and made up my mind that was what I had been looking for all these years. I immediately bought of you two packets of seeds and I raised eleven plants. As soon as large enough I set them out in the ground. Last spring I could hardly wait until the snow was off to see my Primroses. And when they bloomed, imagine my delight when I found they really were the "flowers of my grandmother's garden," and as beautiful now as they were to me then.—Mrs. C. A. S., Oceana Co., Mich., Nov. 23, 1903.

Peas, Hardy Perennial.

Grand hardy vines, blooming all summer when cut freely. Flowers large, in fine clusters. Red, White, Rose and Scarlet, each 5 cts. Special mixture of all colors, 4 packets 10 cts., 1 packet 3 cts.

Pyrethrum==Perennial Cosmos.

Single and double, special mixture, 4 packets 10 cents, 1 packet 3 cents.

The New Hybrid Pyrethrums are sometimes called Perennial Cosmos, on account of their Cosmos-like flowers and feathery foliage. The plants grow two feet or more high and bloom during summer, the large, showy flowers being of many shades, from rosy white to deep crimson. A few of the plants will produce double flowers. I offer a fine strain of the new, large-flowered hybrids. They are splendid garden flowers and should be generally grown.

Large-flowered, crimson 5 | Large-fl'd, rosy white 5
Large-flowered, rose..... 5 | Double, mixed..... 10
Large-flowered, special mixture, double and single, 4 pkts 10 cts., 1 pkt. 3

Mr. Park: For three seasons I have had your Perennial Cosmos or Pyrethrums growing in my yard. Each season they have been finer and bloomed longer and more profusely. I have crimson, pink and white. They are all single, but they are large and beautiful. I stir the soil around them, and when using manure water on other plants I give them a drink and they well repay me for it. I mean to have some of the double ones, though it does not seem possible for them to be finer than the single ones. Tell the flower friends

if they want something that is reliable, easy to care for, fine for cut flowers and perfectly hardy, to get these and they will not be disappointed.—Mrs. Oscar Whitcomb, Middlesex Co., Mass., Nov. 18, 1903.

Giant Sweet Williams.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Sweet William, *Dianthus barbatus*, has been greatly improved since our grandmother's day, and we now have larger flowers in larger clusters, and in a greater variety of colors and variegations. All are richly scented, are easily started, and for several years the plants will make a grand display in the garden. If kept from bearing seeds they will bloom almost continuously. If cut down after the early crop of bloom fades, new stems will push up and bear flowers in the autumn. I offer a very superior strain of seeds.

SINGLE SORTS.

Nigrescens, very dark 5 | Oculatus, eyed..... 5
Albus, pure white 5 | Auriculiflora 5
Hunt's margined 5 | Mutabilis, checkered... 5
Dunnet's crimson..... 5 | Mixed, 4 pkts 10c, 1 pkt 3

DOUBLE SORTS.

White and red, each .. 5
Eyed 5
Margined 5
Mixed, 4 pkts 10c, 1 pkt 3

Mr. Park: Your Sweet Williams are beautiful. All who have seen them say they are the finest they have ever seen. The plants are perfectly hardy, and the flowers very fragrant. Everyone should have a bed of these lovely flowers, as they are easily raised from seeds and need very little care.—Mrs. E. A. Perry, Iowa Co., Wis.

Mr. Park: In beds or in the hardy border this good old plant is equally beautiful, and should be grown in quantities in order to enjoy the different markings and forms. Improvement has been great, and the large form, both double and single, and brilliant colors of the Sweet Williams to-day bear little resemblance to the old sorts. A rich soil and plenty of moisture while growing is essential to success. The flowers are produced in large numbers and are very lasting. Seeds are freely produced and germinate readily. They may be raised with ease.—Clifford N. Baynor, Suffolk Co., N. Y.

Wallflower, Non plus ultra.

Single and double, all colors, finest mixed, 4 packets 10 cts, 1 packet 3 cts.

Wallflowers are prized for their fine habit, handsome flowers and delicious fragrance. The plants are hardy in porous, well-drained soil, and bloom early in spring. The seeds I offer are from a superb European collection, embracing cream, canary, golden yellow, blue, brown, red, crimson and violet, all large-flowered and handsome. Single sorts mixed or double sorts mixed, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: I wish you could see my Wallflowers raised from your seeds. They are just grand. I can truly recommend them.—Jessie Ransome, Chautauqua Co., N. Y., Nov. 15, 1903.

SEEDS OF POT PLANTS.

Special Mixture of Many Splendid Kinds, 4 Packets 10 Cents, 1 Packet 3 Cents.

THOSE who have time and skill will find much pleasure in raising their window plants from seeds. Abutilon, Asparagus, Cyclamen, Grevillea, Geraniums, Primroses and Smilax are of easy culture, and should be given a trial first. After that almost any of the choice seeds I offer can be successfully sown. Very fine seeds should be sown in pressed rows in a pot of sifted and well-firmed soil. Do not cover them, but place a glass over the pot and moisten by setting in a saucer of water. Keep in a dark, moderately warm place. When the plants start give light and air, but avoid direct sunshine. Never let the soil dry out, but do not keep it wet—simply moist. When large enough prick out the little plants with the blade of a pen-knife and set them an inch apart in a large earthen saucer or tray filled with sifted and pressed soil.

When they begin to crowd here pot singly in three-inch pots, and shift afterwards as fast as the roots fill the pots. By these simple directions anyone can successfully raise Achimenes, Begonias, Calceolarias, Cinerarias, Gloxinias, Streptocarpus and the finer window plants. The work is pleasant, and the development of the plants from the tiny seed to the blooming specimen is always a source of enjoyment. All of my seeds for window culture are first class, having been saved from the finest strains.

Asparagus, Decorative.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

There are no handsomer foliage plants than the Decorative Asparagus. For pots or vases they are unequalled. They are easily grown from seeds, and once started they do not mind ill treatment. My seeds are of fine quality and the mixture is complete.

Plumosus nanus..... 5 | Sprengeri, see engrav. 5
Acutifolius, lovely foliage. 5 | Verticillatus, h'rdy vine 5
Special mixture, all sorts, 4 packets 10 cts., 1 packet. 3

Mr. Park: Asparagus Sprengeri is easily raised from your seeds. Every seed came up and I had plenty for exchange. It is a most satisfactory window plant. If given very rich soil and plenty of water it will fill an ordinary window with lovely green fronds. Mine is four feet long, and I cut it to the earth last spring for a funeral. Those who like hanging baskets should by all means try it.—Marian L. F., Cumberland Co., Me.

Mr. Park: I wish the sisters could see my Asparagus plumosus nanus raised from your seeds. It is so fine and plume like! Everyone who sees it admires it. It is only about four months old and is over two feet high, and has several branches. I think every seed came up.—Mrs. O. L. Gibson, Woodson Co., Kas., Nov. 1903.

Mr. Park: Asparagus Sprengeri can be raised from seeds as easily as Poppies. Given a light place on a stand or bracket a pot of it is soon a thing of beauty and lasts many seasons.—Mrs. Libby, Somerset Co., Me.

Abutilon, New Hybrid.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Abutilons, often known as Chinese Bell Flowers, are lovely house plants, easily cared for and free and continuous blooming. The flowers are large, showy and of many shades of red, yellow and white. The new hybrid varieties are especially fine, start readily from seeds, and the plants begin to bloom when young. They will please all who try them. My mixture contains all of the new and beautiful shades, as well as the older ones.

Pure white..... 5 | Salmon rose..... 6
Bright red..... 5 | Deep yellow..... 6
Special mixture, all colors, 4 packets 10 cents, 1 packet 3

Mr. Park: My Abutilons raised from your seeds are now over two feet tall and are such steady bloomers. I would not be without them. The flowers are larger than those of the Fuchsia and as brilliant in color. They are as easily grown as a Geranium and bloom freely in winter. They grow very rapidly, and well repay what attention they require.—Jessie Sharp, Adams Co., O.

Begonias in Splendid Variety.

Special mixture, all sorts, 4 packets 10 cents, 1 packet 3 cents.

Begonias are an important class of flowering plants for pots in the window or sheltered beds on the lawn. The plants bloom continuously for months, and while showy in flower they are equally attractive in foliage. They are easily cared for and are sure to bloom. The tuberous sorts bloom mostly in summer, and the fibrous-rooted ones in summer and winter.

All the above are good for beds and pots.

Mr. Park: Your packet of mixed Begonias are just grand. I have a whole window full of lovely plants, no two alike. No one need be afraid to try your seeds.—Stella Hilbert, Hamilton Co., O., Nov. 2, 1903.

Calceolaria Hybrida.

Large-flowered special mixture, 4 pkts 10c, 1 pkt 3c.

A rare but very handsome family of plants for window culture is the Hybrid Calceolaria. The plants start readily from seeds sown in spring and early summer.

Large-flowered Tigred.....	5	Painted and margined.....	5
and Spotted.....	5	Fancy striped.....	5
Self-colored, mixed.....	5	New Dwarf, mixed.....	5
Special mixture of all varieties, 4 pkts 10c, 1 pkt.....	3		

Mr. Park: Tell the floral sisters to just try your Calceolaria Hybrida this year. They are so easily raised from seeds, and only three cents will buy a packet. I had such a lot from one packet of seeds, and such a variety of colors, and such big blossoms. The children call them "Lady's Slippers." They are just like brocade velvet. Give them lots of root room and plenty of water. They will last several years by pruning them back after flowering.—E. M. H., Forest Co., Pa., Nov. 19, 1903.

Carnations for Winter.

Finest mixture, 4 packets 10 cts., 1 packet 3 cts.

For winter-blooming I offer a strain of Carnations easily grown from seeds, and bearing large, double, richly-scented flowers of all the choice shades of white, rose, red and yellow, as well as variegated. The seeds are sown in the spring, and when large enough the young plants are bedded out in a sunny spot in the garden, kept well watered during dry weather and the blooming shoots pinched out as they appear. In August or early september they are potted, and removed to the window or conservatory, where they will bloom freely throughout the winter. Avoid the common garden Carnations for the window. They will not prove satisfactory. Finest mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: I included a packet of your Carnation seeds in my seed order last spring. I planted them out and in September took them up and potted them for the window. They are so fragrant and sweet! I derived a great deal of solid satisfaction from all your flower seeds, and your Magazine is a welcome guest.—L. E. Moffett, Richland Co., O.

They are now loaded with buds and bloom. They are so fragrant and sweet! I derived a great deal of solid satisfaction from all your flower seeds, and your Magazine is a welcome guest.—L. E. Moffett, Richland Co., O.

Cineraria, Park's Fine Hybrids.

55

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Large-flowered Hybrid Cinerarias are among the most gorgeous and beautiful of window flowers. None are more attractive, and few are more easily grown. The seeds start readily and the plants begin to bloom in nine or ten months. To avoid green fly put tobacco siftings or chopped tobacco stems upon the soil. Shift into larger pots as the plants grow, and shade from mid-day sun. The seeds offered are from a very superior strain, and can be depended upon to produce plants of fine form and flowers of magnificent size and colors.

Stellata, new small-flowered sort, very free-blooming, and of many colors, mixed.....	6		
Plenissima, double, very fine quality of seeds, mixed col's 5			

Mr. Park: Some time ago I got a packet of your Hybrid Cinerarias. The seeds were planted and in due time the little plantlets appeared. And now each summer, for two years, the plants have been one mass of the loveliest bloom of all colors. I would recommend every lover of flowers to raise your Cinerarias.—Mrs. A. F. Roux, Plantation, Cal., Nov. 7, 1903.

Mr. Park: I think your Hybrid Cinerarias are the easiest of any window plants to raise from seeds, and oh, how beautiful they are in blossom! The brilliant, fragrant flowers are produced in such great clusters that each plant seems like a bouquet in itself, and the blossoms remain perfect a long time.—H. Le Peck, Jeff. Co., N. Y.

Mr. Park: Two years ago last July I received of you a paper of Cineraria seeds. They all bloomed in February. There were no two alike. All were beautiful.—Mrs. Wm. Kauffman, Clark Co., Wash.

Coleus, New Fancy Leaved

Special mixture, 4 pkts 10 cts., 1 pkt. 3 cts.

The new, improved varieties of Coleus are gorgeous and beautiful, and are as easily raised from seeds as Petunias. The leaves of some are very large and show dazzling colors in charming contrast, while others are fringed and give the plant a plummy effect. All are fine for either pots in the window or beds on the lawn. A packet of my mixed seeds will yield a wonderful variety of plants, many new and novel, delighting all who see them. I urge all my patrons to try raising Coleus from seeds. The seeds I offer are from the finest European collections, and will give the best results.

Carmine, golden edge	5	Spotted and striped	5
Fringed-leaved	5	White-ground foliage.....	5
Shades of red	5	Yellow-colored foliage.....	5
All varieties in splendid mixture, 4 pkts 10 cts., 1 pkt.....	3		

Mr. Park: I raised twenty-three Coleus plants from a three-cent packet of your seeds, all beauties and all different. I could have had thirty, but did not want so many. And all for three cents! I always have success with Park's

seeds. I have used Park's seeds and plants since 1896, and have always been well satisfied.—Mrs. Hack, Park Co., Colo., Nov. 10, 1903.

Mr. Park: From a three-cent packet I raised thirty Coleus plants. All were different, no two alike. I was delighted with them. I think all flower lovers should try them.—Miss Blanche Welsh, Grayson Co., Va.

Mr. Park: About four months ago I received a package of Coleus seeds from you. I think every one germinated, and such lovely plants as they are—no two alike and every one a beauty.—Mrs. Ella Gibson, Woodson Co., Kas., Nov. 1903.

Chrysanthemum, Veitch's Japanese.

Finest mixture, 4 packets 10 cents, 1 packet 3 cents.

It is not commonly known that the popular Chrysanthemums exhibited at Fall shows may be successfully raised from seeds. If started early in spring the plants will bloom in the autumn. The seeds germinate promptly and the plants should be given a shady place and plenty of water to promote their development during the summer. Keep them in pots, shifting as often as the roots begin to crowd. The flowers are very double and of many shades of white, yellow, rose and red. I offer first-class seeds saved from Veitch's celebrated collection, considered one of the finest strains of Chrysanthemums known. They are worth giving a trial. Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: From a three-cent packet of Chrysanthemum seeds (Veitch's strain) I bought of you I have seven large, healthy plants. I potted them in rather rich earth, keeping them wet, as they are a thirsty plant. I water them night and morning, and as they grow I lift them to a larger pot, making the soil richer each time. They give promise of a grand display of bloom.—Mrs. R. S. M., Bristol Co., Mass., Nov. 3, 1903.

Park's Giant-flowered Cyclamen.

Special mixture, all colors, 4 packets 10 cents, 1 packet 3 cents.

The Persian Cyclamen is one of the most beautiful and satisfactory of house plants. The plants are vigorous, have beautiful variegated foliage, and bloom freely during the winter, the flowers being showy, of graceful form, delicate texture, rich colors and very handsome. I especially recommend the new large-flowered varieties, as they are more attractive in both foliage and flowers. The seeds I offer were grown for me by a specialist in the south of France, where the plants develop to perfection. Almost every seed will grow, and the plants bloom in eighteen months from the time they are started. My mixture contains all the fine colors.

Giganteum universum, white with red eye	8
Atro-rubrum, dark red.....	8
Roseum superbum, fine rose.....	8
Splendens, shining dark carmine.....	8
James Prize, sweet-scented	8
Mont Blanc, pure white.....	8
Brilliant, dark blood red.....	8
All varieties, special mixture, 4 pkts 10c, 1 pkt 3	
Papilio, new, seeds direct from raiser, 3 seeds, 8	

Mr. Park:—In the spring of 1902 we purchased a three-cent packet of your Cyclamen seeds. Every seed grew, and in May of this year the plants began to bloom. They flowered constantly all summer, and from the number of buds now forming they will bloom till spring. The secret of success in growing Cyclamen is to keep them cool, but at the same time to give plenty of light and air. Most seedsmen charge 25 to 50 cents per packet for Cyclamen seeds, but from the 3-cent packet of Park's seeds we raised so many plants that we had to give away a great many. We have a great variety of colors, pink, crimson, rose with crimson center, white with pink center,

white, etc. Try raising this splendid plant from seeds. The seeds are large, and form tubers beneath the surface before throwing up leaves. When transplanting set the tubers near the surface, as when fully grown at least one-third of the bulb should be above the surface of the soil. This with the Cineraria seeds is the best three-cent investment I have ever made.—Allen L. Truax, Day Co., S. Dak., Nov. 8, 1903.

Cyperus--Umbrella Plant.

Finest mixed, 4 packets 10 cents, 1 packet 3 cents.

The Cyperus is a bog plant, but one of the most desirable foliage plants for the window. Water it freely while growing, and avoid root-crowding. You will then soon have a large, dense, graceful plant, several feet high, as beautiful and attractive as a Palm, and even more graceful. Propagation is readily effected from seeds, and the seedlings soon become handsome pot plants. After blooming water sparingly and set in a cool retired place for a few weeks, then repot.

Alternifolius, the old sort, see engraving.	5
Variegatis, (not always true from seeds).....	5
Papyrus, very handsome sort.....	5
Special mixture, all varieties, 4 pkts 10 cts., 1 pkt 3	

Mr. Park:—I had good luck raising Umbrella Plants from seeds. I put some stones in the pots and some fine dirt on top of the stones, and then planted the seeds and set in a dish of water. The plants come up in three weeks. I keep water in the dish all the time. I keep my big Umbrella Plant in a dish of water, and it looks better than ones I see not in water.—Sarah E. Newton, Taylor Co., W. Va., Dec. 3, 1903.

Charming New Streptocarpus Hybrids.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Among the most charming and attractive window plants of late introduction are the Streptocarpus Hybrids. The flowers are borne continuously upon seedling plants during the summer, and their graceful form, delicate texture and rich colors excite the highest words of praise from those who see them. The seeds are small, but the plants are as easily grown as those of Begonia or Gloxinia, and they bloom well the first season.

Veitch's Hybrids, mixed	5	Polyanthus, many-flowered hybrids, mixed.....	5
Largest-flowering Hybrids, finest mixed.....	5	Special mixture, all sorts, 4 packets 10c, 1 packet ...	3

Geraniums, Choice Zonale.

Splendid mixture, 4 packets 10 cents, 1 packet 3 cents.

Geraniums are as easily raised from seeds as Zinnias, and if started early in spring will bloom the first season. Seedling plants are more healthy and vigorous than those grown from cuttings, and they often bear very large trusses of bloom and show novel colors and markings. The foliage, too, is rich and beautiful, often finely zoned, and eliciting words of praise from all observers. The seeds do not all germinate at one time, but come up scattering in from one to eight weeks. I offer seeds of the finest strains, embracing the richest and best colors and brightest markings. They can be depended upon to produce the most beautiful plants and flowers. Splendid mixture, 4 packets 10 cts., 1 packet 3 cts.

MISCELLANEOUS GERANIUMS OR PELARGONIUMS.

Fancy Pelargoniums, mixed.....	5
Rose-scented.....	10
Golden Tricolor.....	10
Apple-scented Geranium.....	5
Ivy-leaved, mixed.....	10
Bronze-leaved.....	10

Mr. Park: I wish to recommend your Geranium seeds to those who wish for new varieties. I had always read that Geraniums did not bloom till the second year, but your seeds have proved the contrary. I planted them March 1st, and from ten seeds I had eight nice plants. I put each in a thumb pot by itself till June, when I bedded them out in the full sunshine, in very rich, sandy soil. They began to bloom in August, and are now (November) full of buds and flowers. I had two fine semi-doubles, cherry and salmon, and the others are the largest singles I ever saw, all different—one a magnificent salmon rose with white centre and shading to red at the edge. Try them, sisters, and you will be pleased.—Sister Clare, Cumberland Co., Me., Nov. 3, 1903.

Gloxinia, Giant Hybrids.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

It is not generally known that the Gloxinia, so much prized as a summer-blooming pot plant, is easily grown from seeds by the skillful amateur florist. The seeds are small, but if properly treated nearly every seed will produce a plant. The seeds I offer are all of the beautiful, large-flowered varieties, which are far superior to the older sorts. The beauty of these new Gloxinias will be a revelation to many persons. The huge, bell-like flowers—in rich scarlet, rose, white and royal purple, many spotted and blotched, are exceedingly attractive. Seedlings started early begin to bloom in mid-summer, and bloom freely and continuously until winter. They may then be dried off and kept over in a temperature of 50°, and will bloom the next year.

Defiance, glowing crimson, scarlet.....	5
Emperor Frederick, scarlet, white border.....	5
Pure White, large and fine.....	5
Emperor William, blue, white border.....	5
Celestina, fine celestial blue.....	5
Fire King, dark scarlet, robust.....	5
Tigrina, spotted and blotched.....	5
Erecta, Pendula and Horizontalis, each.....	5
All the above superb, large-flowered sorts in splendid mixture, 4 packets 10 cents, 1 packet.....	3

Mr. Park: I got a packet of your Gloxinia seeds last summer and sowed about a quarter of them in August. Over sixty plants came up, but I had not sifted the top soil and a good many of them died because the soil was coarse. I transplanted them the last of October, when I had twenty-eight. One I broke off, one withered and one other died, so now I have twenty-five as thrifty and happy looking as can be, and have three-fourths of the seeds left to sow in the spring. I use a regular flower jar for sowing seeds, as it does not dry out when I am not watching it. I used no bricks nor wet cloths, but covered the dish with an old negative till the plants were up, then used clear glass, which I turned over every day. I watered them when necessary by setting in a dish of water. When the plants were two weeks old I took the glass off and tipped the dish over against the window to give them the morning sun and as much light as possible.—Mrs. Mary H. A. Lason, Tioga Co., N. Y., Dec. 1903.

Mr. Park: From a packet of your mixed Gloxinia seeds I raised thirty-two plants, most of which blossomed the same fall. The flowers were very large and beautiful, the colors very rich and no two plants alike. They are very easy to raise from seeds, and one gets such a variety.—Mrs. H. L. West, Kings Co., N. S., Can.

Mr. Park: I got two three-cent packets of Gloxinia seeds from you last March and raised seventy-five plants. The flowers are beautiful—so large and of such fine colors.—Mary Ann Beal, Richland Co., Ohio, Nov. 1, 1903.

<i>Dracaena draco</i>	15	<i>Eupatorium riparum</i>	5	<i>Fuchsia</i> , choice mixed.....	10	<i>Freesia alba</i> , white.....	10

Grevillea Robusta Pyramidalis.

Price, 4 packets 10 cents, 1 packet 3 cents.

This is a very graceful, easily-grown foliage plant, sometimes called Silk Oak. As shown in the engraving, the leaves are fern-like and arched, giving the plant a most graceful effect. It will bear much neglect without injury, but well repays good treatment. Many persons prefer it to a Palm, while it requires less care and is more rare. The seeds start readily and the plant only needs to be repotted occasionally and given the care of a Zonale Geranium. It is one of the most satisfactory of window plants, and deserves general cultivation.

Mr. Park: A year and a half ago I purchased a packet of Grevillea robusta from you. I now have a plant twenty-eight inches high. It still has the first leaves it started, everyone becoming larger, the largest being sixteen inches long and nine inches broad. It is a very desirable foliage plant with its graceful fronds. —Mrs. L. W. Reiff, Berks Co., Pa., Nov. 7, 1903.

Mr. Park: First of all is this lovely Grevillea robusta. It is truly a most desirable plant for pot culture, and very easy to raise. Mine occupies a back seat in a west window, and thrives wonderfully. —Mrs. A. D. Pudney, Cortland Co., N. Y.

Mr. Park: My Grevillea robusta from your seed is a fine, graceful plant. —F. C. Bryant, Queens Co., N. Y.

Heliotrope, New Giant.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

The new Large-flowered French Heliotropes are a great improvement upon the old-fashioned sorts, the plants being more robust and floriferous, while the flowers are of large size and borne in huge clusters. Plants grow readily from seeds and like a warm sunny place.

Large-flowered, white in splendid variety. 6
Large-flowered, violet in splendid variety. 6
Large-flowered, light blue in splendid variety. 6
Large-flowered, dark blue in splendid variety. 6

Mr. Park: Your new large-flowered Heliotropes are something extra fine. I succeeded in raising several beautiful specimens from half a packet of seeds. I am delighted with them. —Mrs. W. S. Lowell, Macomb Co., Mich.

Lantana = New Dwarf.

Finest mixture, 4 packets 10 cts., 1 packet 3 cts.

In a sunny place there are few plants more desirable than Lantanas. The plants start from seeds in from three to eight weeks, grow vigorously, and are soon ready to bloom, especially the new dwarf varieties, which are of low, compact habit, early-blooming and very floriferous, the flowers appearing of various colors and in large clusters. They are elegant pot plants, and when bedded out make a fine display in summer. Lantana seeds are nutlets each containing several germs, and capable of producing as many plants. They are hard and impervious, hence slow in starting. The plants bloom freely and continuously.

Mr. Park: From a three-cent packet of Lantana seeds I raised a large boxful of plants. I supplied all of my friends and neighbors with plants and had a great many left for myself. I think all who try your Lantanas will be pleased with them. —Miss Blanche Welsh, Grayson Co., Va., Oct. 30, 1903.

Park's Beautiful Primroses.

Special Mixture of Window Sorts, 4 packets 10 cents, 1 packet 3 cents.

For many years I have made a specialty of Primroses, the most useful and valuable of plants to the flower grower. The seeds generally start well and the plants grow under adverse conditions and bloom freely, the flowers being delicate and beautiful. My seeds are all fresh and of the best quality. Send for booklet, "All About Primroses."

Fringed Single Primrose. Fringed Double Primrose.

Primula Obconica.

Primula Forbesii.

Fringed Chinese Primroses.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

No flowering plant surpasses the Fringed Chinese Primrose for winter blooming in the window or conservatory. It is of the easiest culture, and never fails to bloom. It is one of the plants you can always depend upon even in unfavorable conditions. My seeds were saved from the best plants of the finest strains, and are of unrivaled quality. They will bear comparison with those sold by any other florist, at any price.

Those preceded by a star can be supplied with either narrow-leaved or fern-leaved foliage. All are fringed.

Mr. Park: I want to tell you about my Chinese Primroses. I planted the seeds in May. Some of the plants were in bloom about the middle of November, and such beauties—all large, thrifty plants, and the individual blossoms as large as a fifty-cent piece. Colors, white, pink, and the darkest crimson I ever saw. All this beautiful display from a three-cent packet of your seeds.—Margaret Armstrong, Dubuque Co., Ia.

Fringed Double Primroses.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

These are large, double, fringed flowers of many colors—showy and beautiful. My seeds are first-class, and a large proportion of the plants will produce double flowers.

White.....	5	Light rose.....	5	Special Mixture, 4 pkts	
Striped.....	5	Carminae ..	5	10 cents, 1 pkt 3 cents.	

Primula Forbesii.

Mixed, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: Please tell your friends of my success with Primula Forbesii, known as Baby Primrose. I planted a packet of seeds in April and saved six plants, and now they are beauties—such dainty sprays of delicate flowers and buds! They are admired by all who see them, and are so easy to raise that I don't see how any one can fail with them. I keep them in a wooden box in a north window, planted in common garden soil. I shall always keep the Baby Primrose.—Mrs. Wm. Saltzer, Ogle Co., Ill., Nov. 1, 1903.

Primula Obconica.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

Mr. Park: I planted a mixed packet of your Primula obconica and twenty-six plants came up, all of which I raised. I kept thirteen until they bloomed, and there were no two alike. Twenty-six fine, ever-blooming plants for three cents! Now, was not that good success?—Mrs. A. H. Armstrong, St. Lawrence Co., N. Y., Nov. 4, 1903.

Solanum Seaforthianum.

Price, 4 packets 10 cents, 1 packet 3 cents.

A beautiful, rapid-growing flowering vine, easily raised from seeds. The flowers are azure blue, borne in large clusters during autumn. May be grown in pots or bedded out in summer, protecting by placing in the cellar during winter. Give support. Do not omit this splendid vine from your list. See engraving.

Mr. Park: Two years ago I planted a packet of your Solanum Seaforthianum seeds, and have two beautiful vines. I brought one in the house this fall and it reaches to the top of the window and is full of buds for bloom. I am expecting to enjoy their beautiful blue flowers soon. It bloomed once this summer.—Mrs. N. J. Bowles, Hodgeman Co., Kas., Nov. 26, 1903.

Solanum Pseudo-capsicum.

4 packets 10 cts., 1 packet 3 cts.

Jerusalem Cherry. Bears a mass of showy scarlet fruit which remains on for many weeks. Easily grown.

Mr. Park: My large Jerusalem Cherry is showy with its scarlet fruit. It is an effective window plant in winter.—May B. Apply, Windham Co., Ct., Jan. 1, 1904.

The Graceful Boston Smilax.

Price, 4 packets 10 cts., 1 packet 3 cts.

This is one of the best window vines known. Its sprays of exquisite shiny foliage and deliciously-scented flowers, always elicit admiration and praise. It starts readily from seeds, and is fine for a trellis or string. Excellent for cutting.

Mr. Park: Boston Smilax is a very satisfactory plant, easily raised from seeds. It thrives well anywhere. One plant a year and a half old grew this summer over ten feet long. Its soil was leaf-mould and sand, with a top dressing of old, dry, well-rotted manure. Try it, everybody, for a satisfactory house plant. It is unrivaled.—Jennie Sprout, Davis Co., Iowa, Oct. 31, 1903.

Mr. Park: We find your Smilax very beautiful, and it grows very easy and quite fast. We have a large number of plants from one small packet.—Mrs. D. Heyd, New Castle Co., Del., Nov. 22, 1903.

Torenia, New Giant Flowered

Finest mixture, 4 packets 10 cts., 1 packet 3 cts.

The new Giant Torenia far surpasses the old varieties, the flowers being upward of 1½ inches across, and of rich and lovely colors, on compact, globular plants 9 inches high. Excellent for pots and very easily grown. Avoid chills. The new sorts in colors—Large-flowered Blue, Lavender, White and Yellow, each per pkt. 5c.; all in mixture, 4 pkts. 10c., 1 pkt. 3c.

SEEDS OF HARDY SHRUBS AND VINES.

POPULAR MIXTURES OF FLOWER SEEDS.

Mixture of Annuals.—Contains chiefly seeds of flowers blooming the first season. The mixture embraces over 100 genera, and the average would perhaps be five species and varieties to each genus, thus representing fully 500 kinds. Price 10 cents per packet.

Mixture of Biennials and Perennials.—Contains seeds of more than 25 genera, and represents perhaps 50 species and varieties. Price 10 cents.

Mixture of Seeds for the Window Garden.—Contains seeds of more than 25 genera, and represents perhaps 125 species and varieties. 10 cents.

Mixture of Climbers.—Contains seeds of a dozen different genera, about 50 varieties. Price 10 cts.

Mixture of Everlastings and Grasses.—Contains seeds of the leading flowers and grasses used for drying for winter bouquets. Price 10 cents.

Mixture of Fragrant Flowers.—Contains seeds of more than a dozen genera, representing about 50 kinds of our most fragrant flowers. Price 10 cents.

Mixture of Edging Plants.—Contains seeds of about a dozen genera of low-growing flowers, suitable for edging beds. There are 50 or more species and varieties represented in this mixture. Price 10 cents.

Mixture of White Flowers.—These are excellent where a moonlight display of flowers is desired. They are also suitable for graves. A good mixture of species and varieties. Price 10 cents.

Mixture of Nearly All Varieties.—This is what we advertise—a mixture of 1,000 varieties and colors. Price 10 cents per packet. Those who secure this packet will be surprised at the wonderful variety of flowers to be obtained therefrom.

Seeds of The Best Vegetables

SPECIAL OFFER.

 *Seeds at Less than One-Third their Actual Value.*

For only 30 cents I will send by mail, carefully packed, **31 Packets of Splendid Vegetable Seeds**, embracing all the very best new and choice sorts. Such a lot of seeds could not be purchased of most retail seedsmen for less than \$2.00. I offer the lot for 30 cents, or two lots for 50 cents. Get your neighbor to club with you, and order to-day. I guarantee the seeds to be first-class in every respect. Separate packets will be mailed at prices quoted below. Here is a list of the collection:

Asparagus, New Columbian White,	3	Onion, Australian Brown,	3
Bean, New Stringless Bush Green-pod,	5	Okra, Early Dwarf,	3
Bean, Running or Pole, "Best of All,"	5	Parsnip, Parson's Guernsey,	3
Beet, New Crimson Globe,	3	Parsley, Champion Moss-curved,	3
Borecole, Curled Half-Dwarf Scotch,	3	Pepper, New Giant Columbian,	3
Cabbage, Early Spring (the best early),	3	Pea, Alaska,	5
Cabbage, Danish Ball (the best late),	3	Pea, Champion of England,	5
Cauliflower, Veitch's Giant,	3	Radish, New Cardinal White-tip,	3
Carrot, Chantenay or Model,	3	Spinach, Improved Prickly-seeded,	3
Celery, Rose-ribbed Self-blanching,	3	Tomato, Livingston's Beauty,	3
Corn, The New Early Giant,	5	Tomato, Improved Stone,	3
Cucumber, Improved White Spine,	3	Turnip, Purple-top Globe,	3
Egg Plant, New Early Purple,	3	Turnip Rutabaga, Long Island Improved,	3
Kohl Rabi, Early White Vienna,	3	Purple-top,	3
Lettuce, New York (Very Superior)	3	Watermelon, Early Sweet,	3
Muskmelon, Rocky Ford,	3	Herb, Lavender, True,	3

Total Value of Seeds in Collection, \$1.03.

For Only 30 Cents I will mail to you full-sized packets of all of the above Vegetables. The Beans, Peas and Corn will be of 2-ounce packets, such as most seedsmen retail at 10 cents per packet. If you will order **two collections**, I will mail them both to you, or to two different addresses, for **only 50 cents**. Kind reader, will you not give these seeds a trial? Order for yourself and a friend or neighbor. No better or more acceptable present could be given to a friend than a collection of these seeds. Full cultural directions will accompany the seeds. Send at once.

 **P. S.**—Send for my **ILLUSTRATED BOOKLET OF THE BEST VEGETABLES**. You will be surprised at the low prices quoted, as well as the descriptions, illustrations and information contained.

Special Offer of Magazine.

To those who order the above splendid collection of "The Best Vegetables," I will include a subscription to **Park's Floral Magazine** for a year, provided the order is received previous to July 1st, 1904. If already a subscriber give the name of some friend who would appreciate the Magazine, and it will be entered to your credit upon our list. By this offer the price of the collection is further reduced. I cannot conceive of a more liberal offer than this. Please bear this in mind when ordering. Address

Splendid Summer-Blooming Bulbs.

The bulbs I offer are all first-class. All are of the larger sizes, and should not be classed with the small, inferior stock advertised by some firms at a low price. All are delivered by mail, guaranteed, at the prices quoted.

Amaryllis, Aigberth strain, the finest of Amaryllis; flowers like A. Johnsoni, but larger, and showing many rich colors and variegations, fine white to deep crimson. Each, large bulbs, 40 cents; per dozen, \$4.00.

Johnsont, the well-known sort, 35 cents each, \$3.00 per dozen.

Begonias, Giant Tuberous, White, Scarlet, Crimson, Yellow, Pink, Rose and Orange; large tubers, over three and a half inches in circumference, 6 cents each, or the lot of seven tubers for 35 cents. Smaller tubers, about three inches in circumference, 5 cents each, or the set for 30 cents.

Begonia, Giant Tuberous, Double, splendid, large, very double flowers in all the leading colors, Red, Scarlet, Rose, Orange and White; fine tubers, 12 cents each, or the five tubers for 50 cents.

I offer only the fine large, thoroughly-ripened tubers grown for me by Belgian specialists and imported. They can be depended upon to produce the finest, largest flowers of all the new and choice colors. There are none better. Give fibrous, sandy soil, protection from the wind and partial shade. In potting, leave the crown of the tuber above the surface.

Cataladium, Fancy, finest varieties, named, 15 cents each, \$1.50 per dozen.

These are among the richest of foliage plants. The tubers are naturally small, but each produces many elegant leaves during summer. After potting water sparingly until growth begins, and avoid chills. They are splendid pot plants for the window, conservatory or porch in summer. When growing, water freely, give plenty of root room and protect from noon-day sun.

Cataladium esculentum, large bulbs, 15 cents each, \$1.50 per dozen. Small bulbs, 5 cents each, 50 cents per dozen. A fine ornamental-leaved plant for summer. Likes shade and plenty of water.

Calla, New Semi-dwarf Fragrant. Grows only a foot high, bearing charming, pure white, fragrant flowers; sure to bloom. 20 cents each, \$2.00 per dozen.

Calla, Large-flowered, white; from the Azores. 15 cts. each, \$1.50 per dozen.

Calla, Spotted-leaved, each 10 cents, per dozen \$1.00. A handsome pot plant, or for a shady, moist bed. Foliage nicely spotted with white. Flowers shape of Calla, but smaller; white with purple centre.

The White Callas bloom either in summer or winter, according to the time they are rested. If rested in summer they will bloom in winter. If rested in winter they will bloom in summer. Water sparingly while dormant, but freely while growing. The Spotted-leaved Calla should be potted or planted out in summer, and the tubers taken up and kept dry, like Gladiolus, during winter. If kept dry till autumn they will sometimes bloom in winter.

Canna, New Gladiolus-flowered, fine sorts, named, 10 cents each, \$1.00 per dozen.

Makes a showy bed when grouped in a sunny place. Water freely while growing. This is the secret of successful Canna culture.

Dicentra spectabilis, 15 cents each, \$1.50 per dozen. A hardy herbaceous plant, bearing long racemes of charming pink, heart-shaped flowers.

Double Dahlia, fine named varieties, White, Rose, Scarlet, Crimson, Purple, Variegated, etc., 15 cts. each, \$1.50 per dozen.

Among the most showy and beautiful of summer flowers; of exquisite form and texture, and very double.

Galltonia (Hyacinthus) Candicans, often called Giant Cape Hyacinth, 5 cts. each, 50 cts. per dozen.

A hardy bulb, throwing up a huge flower scape, 3 feet high, in summer, bearing large, white, drooping flowers. Plant in a raised bed of sandy soil.

Gladiolus, Park's Superb Mixture. This mixture contains all the choice colors and markings in fine proportion, and the bulbs are of first size. They never fail to bloom—the spikes and flowers often marvelous in size and beauty. There is no better mixture offered by anyone. Price, one bulb 3 cts., 6 bulbs 15 cts., 12 bulbs 25 cts., 100 bulbs \$1.90, mailed. By express, not prepaid, \$1.40 per hundred, \$12.50 per thousand.

Gladiolus Lemoinei, beautiful varieties of all the choice colors in fine mixture, same price as above.

Gladiolus, Second size, but sure to bloom. I can supply the smaller bulbs of the above splendid mixtures as follows: 1 bulb 2 cts., 6 bulbs 10 cts., 12 bulbs 15 cts., or \$1.00 per hundred, mailed. By express, not prepaid, 70 cts. per 100, \$6.50 per 1,000.

Gladiolus, Groff's Hybrids. These are the finest of all Gladiolus. The flowers are of the largest size, the colors the most distinct and varied, and the marking beautiful. I offer a first-class mixture, embracing the latest creations of the hybridist as well as the best of the earlier sorts—shades of White, Yellow, Scarlet, Pink, Violet and (so-called) Blue, in the richest variations. Price, 5 cts. each, 35 cts. per dozen, \$3.00 per hundred, mailed. By express, not prepaid, \$2.40 per hundred, \$22.00 per thousand. I can also supply the Giant Childsli in richest mixture at same price.

Gladiolus Collections. I offer collections of ten Gladiolus, Childsli and Hybrids, the finest named varieties, embracing all colors from white to richest fiery red, including striped and blotched, all at 4 cents each, or the lot for 35 cents.

Gladiolus should have a rich, sunny bed. Set the bulbs six inches deep and cultivate well early in the season. Later mulch freely with stable litter. A few plants of Kenilworth Ivy set among the bulbs will soon carpet the surface of the bed with bronzy green, beset with a profusion of pretty lavender flowers.

Gloxinas, Giant Belgian Hybrids, White, Blue, Red and Spotted, 10 cents each, \$1.00 per dozen.

These are imported from a celebrated Belgian grower, and are fine large tubers of the finest European strains. They are magnificent summer flowers of easy culture. Grow in pots, in partial shade, and in a place sheltered from wind.

Lilium auratum, the gold-band lily of Japan. Large bulbs, selected, 20 cents each, \$2.00 per dozen. Smaller bulbs, 12 cents each, \$1.50 per dozen.

The finest of Lilies, easily grown and sure to bloom. Hardy, and will live and bloom for years.

Lilium Lancifolium, Rubrum, red and Album, white. Large bulbs, 15 cts. each; 3 bulbs 35 cts.

LILY OF THE VALLEY—FORTIN'S NEW GIANT.

Lily of the Valley, 4 cents each, 6 for 20 cents, 12 for 35 cents. Fortin's New Giant, best for garden culture, 5 cents each, 6 for 25 cents.

Beautiful foliage and charming racemes of bells. White, deliciously fragrant. Fine for cemetery. Hardy, will thrive in dense shade.

Madeira Vine, 5 cents each, 50 cents per dozen.

A beautiful, rapid-growing vine. Foliage massive, flowers white, sweet, and very abundant in fall.

Montbretia crocosmiflora, a Gladiolus-like plant, bearing spikes of bloom in summer and autumn. Same care as Gladiolus. 5 cts. each, doz. 50 cts.

Ponies, Chinese, Pink, Red, White and Yellow, 15 cents each, \$1.50 per dozen.

Splendid large flowers. The plants are hardy and increase in beauty from year to year.

Tigridius, 5 cents each, 50 cents per dozen. Colors Red, Yellow and White. Large, showy, shell-like flowers, the centre tigroid or spotted. Grow a foot high, and a clump of them always shows flowers.

Tuberose, Double, Excelsior Pearl, large bulbs, 4 cents each, 40 cents per dozen; smaller, but blooming sized bulbs, 3 cents each, 25 cents per dozen. Spikes of double, exceedingly fragrant flowers in autumn. A favorite flower on account of its beauty and perfume. My bulbs are very fine and sure to bloom. Potted in July they are winter-blooming.

Water Lily, White, fragrant; large roots 20 cents each, \$2.00 per dozen. Flowers waxy, semi-double, sweet scented. Grow in water. Hardy.

OTHER BULBS.—I can also supply Anemones in variety, French Ranunculus, Oxalis, Anemone, Saxifraga granulata, Zephyranthes and many other bulbs. See booklet. For Dutch Hardy Bulbs, see my Fall Catalogue, free to all patrons.

GEO. W. PARK, LaPark, Pa.

A Huge and Glorious Bedding Plant

PARK'S STAR FLOWER.

Price, 4 Packets, 10 cts., 1 Packet, 3 cts.

Here is a giant blooming plant from the Argentine, semi-tropical in appearance and displaying throughout the season a mass of graceful, creamy white, deliciously-scented flowers. It is a species of *Nicotiana*, commonly known as Star Flower, because of its star-like form. The plants are easily grown from seeds, begin to bloom when young and small, and increase in size and beauty each day as the season advances until after severe frosts. Some persons report success with it for winter blooming, growing in pots and shifting until they occupy eight-inch pots. It is for beds, however, the plants are specially recommended. They grow from six to ten feet high, exhibiting enormous leaves and glorious branching stalks, every branch bearing a magnificent panicle of flowers which are open day and night, attracting the attention and admiration of all who pass, and making the garden air redolent with their

delicious perfume. If kept from forming seeds the flowers are borne freely and continuously the entire season. Those who have grown this grand novelty speak of it in the highest words of praise, as the following sample letters will attest:

MR. PARK—I bedded out a plant of Park's Star Flower in April, and it soon became a beautiful tree, branching within two feet of the ground, and showing a mass of fragrant, white flowers. As the seeds began to ripen I cut the branches back, and in a little while new shoots appeared, and the plant was white with bloom. Again I cut it back and again it grew and bloomed. To-day, November 27th, it is in full bloom, although we have had three frosts and two snows. It is simply a magnificent and most satisfactory plant.—**E. L. ARBURY**, Texas Co., Mo.

MR. PARK—For stateliness and grandeur Park's Star Flower excels anything I have tried. One stalk is still full of drooping, white, fragrant flowers, after several frosts. The sisters should try it. Once started the plants will take care of themselves.—**MRS. A. SCHAPPEL**, Mills Co., Iowa, October 29, 1903.

Don't fail to add Park's Star Flower to your list. See engraving above; also group on title page. Price, 4 packets 10 cents, 1 packet 3 cents.

Park's New Giant Striped Maize.

Price, 4 Packets, 10 cts., 1 Packet, 3 cts.

A grand novelty among foliage plants is Park's New Giant Striped Maize. The plants grow as readily as field corn, attaining the height of from seven to twelve feet, the leaves gracefully arched and gorgeously striped green, white, rose and gold. In autumn the stalks are surmounted by large plumy tassels. A group of this splendid foliage plant upon the lawn is exceedingly beautiful and attractive, and never fails to elicit the admiration of all who see it. I could fill pages of this GUIDE with enthusiastic letters, but have room only for the following:

MR. PARK—I wish to speak for Park's Giant Striped Maize. The foliage is more than handsome—red, green, white and gold stripes in different widths running the length of the leaves, and some leaves nearly all white. Your Maize is a beauty, indeed. My husband thought it the prettiest thing in the yard.—**MRS. Wm. H. FISHER**, Potter Co., Pa.

Star Flower and Maize.—**MR. PARK**: I grew Park's Star Flower and must admit that it was grand. One plant grew 12 feet 2 inches high, with leaves 4 feet 5 inches long and 2 feet 6 inches broad. It had 260 big flower trusses, which bore since it commenced to bloom (it is still blooming, October 22nd,) 12,260 very fragrant, beautiful, creamy star flowers. But grand as was the Star Flower. I think Park's Giant Striped Maize a sight grander. I grew two stalks that were glorious—so tall and stately that everyone who saw them admired them and asked what they were. I planted the seeds May 10th. One grew 13 feet 8 inches high, and one 13 feet 10 inches high.—**MRS. S. A. DIEHL**, Stark Co., Ohio.

Park's Novelties and Specialties, a handsomely illustrated catalogue issued in March, tells all about New and Rare Flowers. Free to patrons. **Geo. W. Park, LaPark, Pa.**
